funny animal phrases: Holy Cow! Boze Hadleigh, 2015-05-12 We love animals but insult humans by calling them everything from weasels or pigs to sheep, mice, chickens, sharks, snakes, and bird-brains. Animal epithets, words, and phrases are so widespread we often take them for granted or remain ignorant of the fascinating stories and facts behind them. Spanning the entire animal kingdom, Holy Cow! explains: Why hot dogs are named after canines. Why people talk turkey or go cold turkey. Why curiosity killed the cat, although dogs are more curious about us. Why letting the cat out of the bag originally referred to a duped shopper. What a horse of another color is, what horsefeathers politely alludes to, why a mule is a lady's slipper, and what horseradish has to do with horses. Why the combination of humans and cows probably led to capitalism—its name from Latin for head, as in heads of cows. Why holy cow and sacred cow have almost opposite meanings. Whether people actually chewed the fat or ate crow (and why it's a crowbar). How a hog became a motorcycle and a chick a young woman. What happens to freeze the balls off a brass monkey. What

buck has to do with being naked. Why the birds and the bees. Why a piggy bank and why one feeds the kitty. What lame ducks have to do with U.S. presidents. How red herring came about via activists opposed to fox hunting. Where snake oil, popular in the 1800s and rich in Omega-3 fatty acids, came from. That the proverbial fly in the ointment goes back to the Bible's Ecclesiastes (10:1). How Swiss watchmakers created teensy-weensy coaches for fleas to pull in flea circuses. And much—much!—more. Don't be a lame duck and get this book!

funny animal phrases: Using Poetry Across the Curriculum Barbara Chatton, 2010-01-13 This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum, helping librarians and teachers working with kindergarten through middle school students. This second edition of Using Poetry Across the Curriculum: Learning to Love Language offers a comprehensive list of poetry anthologies, poetic picture books, and poetic prose works in a wide variety of subject areas. While it maintains the original edition's focus on ideas and resource lists for integration of poetry into all areas of the curriculum, it is thoroughly revised to cover current issues in education and the wealth of new poetry books available. The book is organized by subject areas commonly taught in elementary and middle schools, and, within these, by the national standards in each area. Numerous examples of poetry and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed. A sampling of units that arise from groups of works, writing and performance ideas, and links across the curriculum is also included. While many teaching ideas and topics provide references to the standards they meet, this title is unique in starting with those standards and making links across them.

funny animal phrases: This Dog Will Change Your Life Elias Weiss Friedman, 2025-06-03 A uniquely insightful, uplifting, emotional, and informative book that shows us how dogs make our lives better by making us better people from the Dogist. Elias Weiss Friedman became known as The Dogist when he took thousands of photos of dogs and posted them online along with their unique dog stories. Even before he was The Dogist, though, he was a Dogist—a fervent dog lover, and an

evangelist about the relationship between dogs and humans and the joy this bond brings us in the modern world. Over his decades of studying dogs and their people, Elias has arrived at a deceptively simple realization: Dogs make people's lives better by making people better. Dogs improve us. They save us. They give our lives greater meaning and fulfillment. They teach us to become the best versions of ourselves. They help us understand our own identities, deepen our relationships, and remind us of patience, purpose, and commitment. We constantly seek those things in our human life, but so many of the answers are already right in front of us, in our dogs. This book weaves together stories of the many dogs Elias has been lucky enough to know, both in his personal life and while doing his Dogist work. Told in a light tone that does not shy away from more serious issues (Elias is not above the occasional sentimental moment or dog pun), this book charmingly explores the ways that dogs are not just our family and our friends but also irreplaceable beings capable of generating boundless love and restoring balance to our lives. In an increasingly alienating and divisive world, there is one clear remedy: the one with four legs that rolls over for belly rubs. Dogs can change our lives, and this book might just change yours.

funny animal phrases: *Internet Based Learning* Deanie French, 1999 This book is for every teacher or trainer-- whose computer skills may be limited-- who wants to understand the Internet educationally, and use it in his or her courses. As institutional pressures mount to integrate the Internet into teaching, this book provides a framework and a hands-on introduction to what's involved, whether it's adapting materials and teaching styles for the Web, or designing a virtual course. This book provides: + an introduction to the key educational concepts needed to adapt teaching methods and materials to the medium of the Internet + an introduction to both basic and advanced Internet skills-from using e-mail to collaborative conferencing + a framework for harnessing the Internet to achieve educational goals, and successfully exploiting its resources, features and applications to promote effective learning The framework starts from the premise that teachers should progressively apply Internet technology as their skills and confidence develop. It develops the concept of augmented teaching styles-supplementing traditional teaching with Internet based options; demonstrates how to use modules as the building blocks for Web-based learning; and shows how to use the Internet to deliver individualized learning, by enhancing personal communication between teacher and student, and addressing the diversity of learning styles. The book abounds with inspiring and thought-provoking examples of Internet course materials developed by a wide variety of teachers and trainers, including modules and forms created by the authors who have extensive experience in delivering Internet-based courses. A glossary of terms and directory of Internet sites and resources complete the book, which is also supported by a related Web site.

funny animal phrases: *From Aardvarks to Zoonothellae* John C. Avise, 2017-12-22 Hundreds of animal species provide the cast of characters for these newly composed bio-limericks, arranged into 17 chapters by taxonomic group (such as Birds, Fishes, Insects) or biological subject (such as Ecology, Genetics, and Anthropology). Sometimes multiple verses on one organism or topic provide an extended story-line across successive poems. In addition, several stylistic vignettes recur throughout the book, such as: (a) "On the Farm", which ranges from barnyards to fish farms to oyster farms; and (b) "Let's Play Jeopardy", where the reader guesses an animal from poetic clues the author provides. Each little jingle can be read as a stand-alone offering a quick chuckle or biological insight. But watch out--these poetic tidbits can be as addictive as popcorn, such that some readers will feel compelled to consume each chapter and indeed the entire book at one sitting! Covering nearly every creature that any amateur or professional biologist has ever heard of, these pun-filled limericks provide humorous insight into each critter or its peculiar habits, in a sharply witty and cutely informative way.
