**ha jin waiting ebook:** *A Continuous Revolution* Barbara Mittler, 2020-03-17 Cultural Revolution Culture, often denigrated as nothing but propaganda, was liked not only in its heyday but continues to be enjoyed today. A Continuous Revolution sets out to explain its legacy. By considering Cultural Revolution propaganda art—music, stage works, prints and posters, comics, and literature—from the point of view of its *longue durée*, Barbara Mittler suggests it was able to build on a tradition of earlier art works, and this allowed for its sedimentation in cultural memory and its proliferation in contemporary China. Taking the aesthetic experience of the Cultural Revolution (1966–1976) as her base, Mittler juxtaposes close readings and analyses of cultural products from the period with impressions given in a series of personal interviews conducted in the early 2000s with Chinese from diverse class and generational backgrounds. By including much testimony from these original voices, Mittler illustrates the extremely multifaceted and contradictory nature of the Cultural Revolution, both in terms of artistic production and of its cultural experience.

**ha jin waiting ebook:** *Stilistica e letteratura del mondo in lingua inglese nella didattica dei licei italiani* Isabella Marinaro , 2023-06-25 Questo testo, frutto di un'accurata ricerca e basato anche sulle esperienze personali dell'autrice, si rivolge essenzialmente, ma non esclusivamente, ai docenti di letteratura inglese nei licei italiani. L'intento è quello di attivare una profonda riflessione sulla effettiva realtà della docenza della letteratura inglese per invitare gli insegnanti a scardinare il "canone" sia letterario, che linguistico, ancora attualmente troppo incentrato sull'insegnamento diacronico della letteratura britannica e, in qualche raro caso, americana. L'obiettivo è quello di suggerire un metodo e dei contenuti che possano contribuire ad accrescere la consapevolezza linguistico-letteraria negli adolescenti italiani attraverso l'impiego della stilistica come metodo per "mettere in dialogo" autori e brani tradizionali con gli innumerevoli scrittori in inglese dal mondo intero. Il testo si apre con un'analisi del contesto di partenza e continua con la presentazione della stilistica e dell'importanza delle letterature mondiali in lingua inglese nei programmi liceali italiani. A conclusione, vengono fornite cinque proposte didattiche. Il "dialogo tra testi" e la scoperta di voci parlanti inglese e provenienti dall'intero pianeta aiuterebbero gli adolescenti ad aprirsi ad una dimensione etica di pluralismo e cosmopolitismo coi mezzi scientifici dell'approccio stilistico.

**ha jin waiting ebook:** *The Middle Ages in Computer Games* Robert Houghton, 2024-11-05 Offers the most comprehensive analysis and discussion of medievalist computer games to date. Games with a medieval setting are commercially lucrative and reach a truly massive audience. Moreover, they can engage their players in a manner that is not only different, but in certain aspects, more profound than traditional literary or cinematic forms of medievalism. However, although it is important to understand the versions of the Middle Ages presented by these games, how players engage with these medievalist worlds, and why particular representational trends emerge in this most modern medium, there has hitherto been little scholarship devoted to them. This book explores the distinct nature of medievalism in digital games across a range of themes, from the

portrayal of grotesque yet romantic conflict to conflicting depictions of the Church and religion. It likewise considers the distinctions between medievalist games and those of other periods, underlining their emphasis on fantasy, roleplay and hardcore elements, and their consequences for depictions of morality, race, gender and sexuality. Ultimately the book argues that while medievalist games are thoroughly influenced by medievalist and ludic tropes, they are nonetheless representative of a distinct new form of medievalism. It engages with the vast literature surrounding historical game studies, game design, and medievalism, and considers hundreds of games from across genres, from Assassin's Creed and Baldur's Gate to Crusader Kings and The Witcher series. In doing so, it provides a vital illustration of the state of the field and a cornerstone for future research and teaching.
