frank beddor books: *Literature for Young Adults* Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right—and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language—including traditional elements as well as metafictional terms—enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

frank beddor books: *Crossing Textual Boundaries in International Children's Literature* Lance Weldy, 2011-01-18 "As the first part of the title indicates, my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well. If we believe that 'no text is an island,' then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry. I included the word 'boundaries' into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries, such as genre or medium. Not only am I interested in discussing what these changes across boundaries mean socially, historically, and culturally, but also what they mean geographically, which accounts for the second part of my title. "I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did, in the sense that I have added more scholars on an international level. I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways, by either studying abroad or finding permanent residency in foreign countries. Nevertheless, the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America, and Wales." —Introduction

frank beddor books: *The Palgrave Handbook of Neo-Victorianism* Brenda Ayres, Sarah E. Maier, 2024-01-20 This handbook offers analysis of diverse genres and media of neo-Victorianism, including film and television adaptations of Victorian texts, authors' life stories, graphic novels, and contemporary fiction set in the nineteenth century. Contextualized by Sarah E Maier and Brenda Ayres in a comprehensive introduction, the collection describes current trends in neo-Victorian scholarship of novels, film, theatre, crime, empire/postcolonialism, Gothic, materiality, religion and science, amongst others. A variety of scholars from around the world contribute to this volume by applying an assortment of theoretical approaches and interdisciplinary focus in their critique of a wide range of narratives—from early neo-Victorian texts such as A. S. Byatt's *Possession* (1963) and Jean Rhys' *Wide Sargasso Sea* (1966) to recent steampunk, from musical theatre to slumming, and from *The Alienist* to queerness—in their investigation of how this fiction reconstructs the past, informed by and reinforming the present.
