freedom curriculum pdf: Ancient and Indigenous Wisdom Traditions in the Americas

Ehaab Abdou, Theodore Zervas, 2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures, histories, and wisdom traditions. With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures, it includes unique contributions from scholars studying these questions in various contexts. The book offers a range of important studies from various contexts across the Americas, including Canada, the various member nations of the Caribbean Community (CARICOM), Puerto Rico, and the United States. The various chapter contributions address and discuss nuances of each of the contexts under study. The contributions also help highlight some key commonalities across these contexts, including how dominant discourses and various forces have historically shaped—and continue to shape and reproduce—such omissions, misrepresentations, and marginalization. In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures, the book charts a path forward toward more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond. It will appeal to scholars, researchers, undergraduate, and graduate students with interests in Indigenous education, curriculum studies, citizenship education, history of education, religion, and educational policy.

freedom curriculum pdf: Middle Eastern Minorities Ibrahim Zabad, 2017-03-27 This is a

comprehensive survey of minorities in the Middle East with a special focus on the post Arab Spring era. Minority communities in the Middle East are the most susceptible to the turbulence engulfing the region; the majority may suffer physical violence and socioeconomic loss, but minorities could potentially vanish. Instead of ushering in democracy and inclusive politics, the revolutionary upheavals have prompted chaos and fear and reinforced the resurgence of Islamic fundamentalism throughout the region. Zabad uses historical sources as well as first-hand interviews to vividly describe the current status of minorities in the Middle East, explaining attitudes towards the revolutionary upheavals as well as the various strategies they used to avail themselves of the opportunities presented and to confront the risks posed. The question of ethnic, sectarian and religious minorities is situated in the context of the broader history of the region in order to explain the underlying institutional and ideological factors that caused their predicament and problematized their relationship with the majority. The book provides a rich trove of information and insights generated from ten case studies that covered the Shī'a in Saudi Arabia, Bahrain, Lebanon and Egypt, the Druze, the Alawites, Christians and Kurds in Syria, the Copts in Egypt, and the Zaydis in Yemen.

freedom curriculum pdf: We Demand Roderick A. Ferguson, 2017-08-22 In the post-World

War II period, students rebelled against the archaic university. In student-led movements, they fought for the new kinds of public the university needed to serve—women, minorities, immigrants, indigenous people, and more—with a success that had a profound impact on the intellectual landscape of the twentieth century. Because of their efforts, ethnic studies, women's studies, and American studies were born, and minority communities have become more visible and important to academic debate. Less than fifty years since this pivotal shift in the academy, however, the university is fighting back. In *We Demand*, Roderick A. Ferguson shows how the university, particularly the public university, is moving away from "the people" in all their diversity. As more resources are put toward STEM education, humanities and interdisciplinary programs are being cut and shuttered. This has had a devastating effect on the pursuit of knowledge, and on interdisciplinary programs born from the hard work and effort of an earlier generation. This is not

only a reactionary move against the social advances since the '60s and '70s, but part of the larger threat of anti-intellectualism in the United States.

freedom curriculum pdf: *Why Can't Church Be More Like an AA Meeting?* Stephen R. Haynes, 2021-10-26 Do Christians need recovery? Or is recovery something needed by the church itself? Addiction—whether to a substance or to a behavior—is a problem within faith communities, just like it is everywhere else. But because churches are rarely experienced as safe places for dealing with addiction, co-addiction, or the legacy of family dysfunction, Christians tend to seek recovery from these conditions in Twelve-Step fellowships. Once they become accustomed to the ethos of vulnerability, acceptance, and healing that these fellowships provide, however, they are often left feeling that the church has failed them, with many asking: why can't church be more like an AA meeting? Inspired by his own quest to find in church the sort of mutual support and healing he discovered in Twelve-Step fellowships, Stephen Haynes explores the history of Alcoholics Anonymous and its relationship to American Christianity. He shows that, while AA eventually separated from the Christian parachurch movement out of which it emerged, it retained aspects of Christian experience that the church itself has largely lost: comfort with brokenness and vulnerability, an emphasis on honesty and transparency, and suspicion toward claims to piety and respectability. Haynes encourages Christians to reclaim these distinctive elements of the Twelve-Step movement in the process of "recovering church." He argues that this process must begin with he calls "Step 0," which, as he knows from personal experience, can be the hardest step: the admission that, despite appearances, we are not fine.

Crozier, 2020-10-12 In *Fannie Lou Hamer's Revolutionary Practical Theology* Crozier acknowledges, analyses, and constructs the civil and human rights leader's Christian thought and practice. Commonly known for her political activism, Hamer is presented as a religious thought leader whose embodiment of ideas and ideals helped to disrupt and transform the Jim Crow of the South within and beyond electoral politics. Through primary source documents of Hamer's oral history interviews, autobiographical writings, speeches, and multimedia publications on or about her life and legacy, Crozier allows Hamer to have her say on racial and environmental justice concerns. Crozier introduces Hamer as a revolutionary practical theologian who resided on the margins of the church, academy, and society.

freedom curriculum pdf: *They Must Be Stopped* Brigitte Gabriel, 2008-09-02 They Must Be Stopped is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam—we must act soon, and powerfully. Drawing from seventh-century teachings, Gabriel probes into how fundamentalist Islam, under the guise of religious liberty, perpetuates hatred towards western values while exploiting the U.S. legal system. This crucial work takes a hard look at madrassas, flagging their surge in America as part of a rising radical army on U.S. soil. Gabriel fearlessly critiques an overbearing climate of political correctness that often stifles candid discussions about radical Islam. She passionately advocates that America must shed its restraint, questioning its complacency towards this growing internal threat, and demand its representatives to take protective action. Delving into its religious and historical basis, the encroachments across the globe, and systemic abuses of democracy in the name of religion, They Must Be Stopped serves as a clarion call to the world.

freedom curriculum pdf: *Freedom's Laboratory* Audra J. Wolfe, 2020-08-04 The Cold War ended long ago, but the language of science and freedom continues to shape public debates over the relationship between science and politics in the United States. Scientists like to proclaim that science knows no borders. Scientific researchers follow the evidence where it leads, their conclusions free of prejudice or ideology. But is that really the case? In Freedom's Laboratory, Audra J. Wolfe shows how these ideas were tested to their limits in the high-stakes propaganda battles of the Cold War. Wolfe examines the role that scientists, in concert with administrators and policymakers, played in American cultural diplomacy after World War II. During this period, the engines of US propaganda promoted a vision of science that highlighted empiricism, objectivity, a commitment to pure research, and internationalism. Working (both overtly and covertly, wittingly and unwittingly) with governmental and private organizations, scientists attempted to decide what, exactly, they meant when they referred to scientific freedom or the US ideology. More frequently, however, they defined American science merely as the opposite of Communist science. Uncovering many startling episodes of the close relationship between the US government and private scientific groups, Freedom's Laboratory is the first work to explore science's link to US propaganda and psychological warfare campaigns during the Cold War. Closing in the present day with a discussion of the 2017 March for Science and the prospects for science and science diplomacy in the Trump era, the book demonstrates the continued hold of Cold War thinking on ideas about science and politics in the United States.

freedom curriculum pdf: *Critical Pedagogies in English Language Teaching and Learning in South East Asia* Joanna Joseph Jeyaraj, Tamas Kiss, David D. Perrodin, Critical Pedagogies in English Language Teaching and Learning in South East Asia explores the emerging, yet dynamic field of critical pedagogies within the region. This volume brings together voices from countries like Vietnam, the Philippines, Singapore, Thailand, Indonesia, and Malaysia, offering a unique perspective on critical pedagogies in diverse cultural contexts. Although the application of

critical pedagogies in English language education in South East Asia remains limited due to certain cultural, political, and educational traditions, it is still important to discuss possible interpretations of critical pedagogies within this context. Consequently, this volume focuses on understanding barriers to implementation and provides examples of how critical approaches have been adapted to make it culturally and pedagogically acceptable. As an important resource for educators, researchers, and policy-makers, this volume promotes inclusive and transformative educational practices within English language education. It serves as a call to action, urging readers to reimagine the potential of critical pedagogies in shaping a more equitable and just educational future.

freedom curriculum pdf: *Fourth International Handbook of Globalisation, Education and Policy Research* Joseph Zajda, 2024-12-04 This handbook provides a global synthesis of on-going research in education and policy change during the last decade. It examines discourses of globalisation from the perspectives of the global North and global South. Major theories of globalisation and education policy reforms employed in the handbook are classified into two broad categories: structuralist and post-structuralist. The handbook, while examining the impact of global trends in different societies, cultures and educational settings, attempts to synthesise different meta theories of globalisation and their impact on societies and educational systems. It discusses the continued interaction of global, national and local forces and influences, especially the importance of standards and quality driven education reforms, the need to overcome inequality of access to quality schools, and aims at providing quality education for all students. In addition, the impact of neo-liberal ideology on education is examined, in terms of its impact on ongoing standards-driven education reforms globally. The handbook analyses neo-liberalism in education and its focus on increasing global competitiveness, accountability, efficiency, quality, standards-driven policy reforms and educational stratification. The impact of globalisation on education policy and reforms is a strategically significant issue for us all. The unifying conceptual framework, used in the handbook to critique strategic significance of globalisation, is grounded in discourse, CDA and critical theory. The work offers the latest findings concerning major issues in education and policy directions, such as global social and economic inequality, neo-liberal standard-driven education and policy reforms, performing schools in the performing culture, education for human rights and social justice, new perspectives on education for sustainability, dominant and effective models of values education in schools, and the ubiquitous impact of ICTs on education systems.

freedom curriculum pdf: *Why Human Rights Still Matter in Contemporary Global Affairs* Mahmood Monshipouri, 2020-04-29 This book elucidates why human rights still matter in contemporary global affairs, and what can lead to better protection of international human rights in a post-liberal order. It blends theoretical, empirical, and normative perspectives, while providing much-needed analysis in light of the perils of populism, authoritarianism, and toxic nationalism, as well as highlighting the hopes with which people around the world view human rights in the new millennium. Systematically combining theoretical perspectives from across the disciplines with numerous case studies, it demonstrates not only the complexities of the domestic conditions involved, but also the ways in which human dignity can be preserved and promoted during periods of rapid change and uncertainty. Finally, the book addresses the question of how to protect human rights in such a world in which the active promotion of democratic values and enforcement of human rights may not be necessarily aligned with evolving economic and geopolitical interests of many great and diverse powers on the global scene. As such, it is a timely intervention for human rights as a concept as it has been attacked and eroded by the instability in our world today. This book will be of key interest to scholars and students of human rights in politics, law, philosophy, sociology, and history and to humanitarian bodies, practitioners, and policy makers.

freedom curriculum pdf: Citizen Islam Zeyno Baran, 2011-07-21 Since September 11, Western governments have legitimized and empowered nonviolent Islamists as representatives of Islam for all Muslims in the West, an approach that has worried Muslim moderates. Citizen Islam addresses the implications of this approach. The book opens with an overview of the theology and history of Islam, to show that violence and intolerance are not fundamental aspects of the religion. It then explains the growth of Islamism in Europe and in the United States before suggesting that both are finally beginning to recognize the threat posed by nonviolent Islamists. Lastly, it outlines steps that Western and Muslim leaders can take to strengthen moderate Islam and counter the threat of Islamism. Written by Zeyno Baran, a Turkish-born Muslim, Citizen Islam sheds a sharp light on Muslim communities in the West. It concludes that there is much that Western governments can still do to reverse the spread of Islamism. But they must act quickly.

freedom curriculum pdf: Third International Handbook of Globalisation, Education and Policy Research Joseph Zajda, 2021-09-17 This handbook presents a global overview of current research in education and education policy reforms during the last decade. It first examines globalisation, education and policy research and reforms in higher education, including coverage of main trends in education and policy reforms globally, as well as specific policy issues such as gender, equity, minorities and human rights. Next, the handbook offers a comparative perspective that evaluates the ambivalent and problematic relationship between globalisation, the state and education reforms globally. freedom curriculum pdf: Freedoms, Faiths and Futures Andrew Singleton, Mary Lou Rasmussen, Anna Halafoff, Gary Bouma, 2021-04-08 How do contemporary teenagers experience and understand religious, spiritual, gender and sexual diversity? How are their experiences mediated by where they go to school, their faith and their geographic location? Are their outlooks materialist, religious, spiritual, or do they have hybrid identities? Freedoms, Faiths and Futures: Teenage Australians on Religion, Sexuality and Diversity offers powerful insight into how teenagers make sense of the world around them. Drawing on rich data from a major national study, this book creates new ways of understanding the complexity of young people's lives and how school education covering diversity best addresses their world. This book argues that school education focused on worldviews is founded on ways of thinking about young people that do not reflect the complexities of Generation Z's everyday experiences of diversity and their interactions with each other. It argues that certain kinds of education in schools can play a significant role in developing religious literacy, tolerance and positive attitudes to diversity.
