gatsby full text free: Dwelling in the Text Marilyn R. Chandler, 2023-11-15 What is a house? And what can architecture tell us about individual psychology, national character and aspiration? The house holds a central place in American mythology, as Marilyn Chandler demonstrates in a series of house tours through American novels, beginning with Thoreau's *Walden* and ending with Toni Morrison's *Beloved* and Marilynne Robinson's *Housekeeping*. Chandler illuminates the complex analogies between house and psyche, house and family, house and social environment, and house and text. She traces a historical path from settlement to unsettledness in American culture and

explores all the rituals in between: of building, decorating, inhabiting, and abandoning houses. She notes the ambivalence between our desire for rootedness and our romanticization of wide open spaces, relating these poles to the tension between materialism and spirituality in our national character. At a time when housing has become a problem of unprecedented dimensions in America, this look at the place of houses and homes in the American imagination reveals some sources of the attitudes, assumptions, and expectations that underlie the designing and building of the homes we buy, sell, and dream about. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1991.

gatsby full text free: Nobody's Home Arnold Weinstein, 1993-03-11 *Nobody's Home* is a bold view of the American novel from its beginnings to the contemporary scene. Focusing on some of the deepest instincts of American life and culture--individual liberty, freedom of speech, constructing a life--Arnold Weinstein brilliantly sketches the remarkable career of the American self in some of the major works of the past one hundred fifty years. Weinstein contends that American writers are haunted by the twin specters of the self as a mirage, as *Nobody*, and by the brutal forces of culture and ideology that deny selfhood to people on the basis of money, sex, and color of skin. His central thesis is that language makes possible freedoms and accomplishments that are achievable in no other realm, and that American fiction is a fascinating record of the human fight against coercion, of the kinds of maneuvering room that we may find in life and in art. This study is unique in several respects: it offers some of the keenest readings of major American texts that have ever been written, including some of the most significant works of the past decades, and it fashions a rich and supple view of the American novel as a writerly form of freedom, in sharp contrast to today's critical emphasis on blindness and co-option.

gatsby full text free: Recognitions Enrico Botta, Gianna Fusco, Pilar Martínez Benedí, Anna Scannavini, 2024-11-04 This volume offers a critical exploration of the many ways in which transcodification acts at the intersection of literature, art, history, and social and cultural artifacts to foster instances of recognition in the US. Recognition covers a wealth of meanings: from the mere acknowledgement of existence, validity or legality, or appreciation of something as valuable, to the identification of something as known or familiar. Accordingly, this volume deals with different struggles for recognition. One focus of the volume is the assessment of artistic achievement in relation to a so-called original, with essays concerned with cultural codes and with the role that translation, adaptation, and cross-cultural encounters have played in US artistic and literary productions. A second, parallel, strand focuses on the fight for political and social inclusion, or on the dynamics beneath the recognition of group and gender identities, to explore how activism and artistic/literary productions challenge received identity boundaries and accepted social and cultural hierarchies. Bringing together recognition and transcodification/transculturality, the book deconstructs crystalized and codified categories and celebrates the crossing of boundaries.

gatsby full text free: Business Is Good James L. W. West III, 2023-03-14 Widely regarded as one of America's great authors, F. Scott Fitzgerald led a life of drama and extravagance that often overshadowed his writing career. This book refocuses attention on how Fitzgerald viewed and approached the business of writing. Fitzgerald scholar James L. W. West III explores the writer's professional life through personal letters, manuscripts, his business ledger, editions of his novels, and even a "seven-year plan." In assessing these diverse materials, West reveals fascinating details about what led Fitzgerald to follow authorship as a calling, why he took on certain projects, how he managed his finances, and what influenced his writing style. Connecting Fitzgerald's career to his literary texts, West also provides new information on the development and publication history of some of Fitzgerald's most important works, such as *The Great Gatsby* and *Jacob's Ladder*. Throughout, West pays close attention to the delicate balance in Fitzgerald's career between money and literary respectability, commerce and art. A keen, engaging, and intimate look at Fitzgerald's

day-to-day work of writing for a living, *Business Is Good* is a must-have for anyone who wants a better understanding of this American literary giant.

gatsby full text free: F. Scott Fitzgerald Jackson R. Bryer, Alan Margolies, Ruth Prigozy, 2012-03-15 Years after his death, F. Scott Fitzgerald continues to captivate both the popular and the critical imagination. This collection of essays presents fresh insights into his writing, discussing neglected texts and approaching familiar works from new perspectives. Seventeen scholarly articles deal not only with Fitzgerald's novels but with his stories and essays as well, considering such topics as the Roman Catholic background of *The Beautiful and Damned* and the influence of Mark Twain on Fitzgerald's work and self-conception. The volume also features four personal essays by Fitzgerald's friends Budd Schulberg, Frances Kroll Ring, publisher Charles Scribner III, and writer George Garrett that shed new light on his personal and professional lives. Together these contributions demonstrate the continued vitality of Fitzgerald's work and establish new directions for ongoing discussions of his life and writing.

gatsby full text free: Problems of Editing Christa Jansohn, 2012-01-02 This collection of essays attempts to address some problems of editorial theory and practice which its contributors have either encountered in their own work as practicing editors or as critical users of English editions. It also discusses more general questions, i.e. linguistic problems of editing, the problems of editing bilingual editions or school editions and the difficult economics of scholarly editions today. There are also essays on editing performance poetry, the waning impact of analytical bibliography, the role of teaching and learning editing as well as on the situation of editorial theory and practice among Anglicists in Germany. Several of the essays in this volume began their lives as papers for a workshop on »Editorial Problems« held at the annual meeting of the German 'Anglistentag' in Gießen in September 1997.

gatsby full text free: (Un)writing Empire , 2020-10-12 The contributors to the present volume, in espousing and extending the programme of such writers as Edward Said, Benedict Anderson, Homi Bhabha, and Gayatri Spivak, lay bare the genealogy of 'writing' empire (thereby, in a sense, 'un-writing' it). One focus is the Caribbean: the retrograde agenda of francophone créolité; the re-writing of empire in the postmodern disengagement of Edouard Glissant; resistance to post-colonial allegiances, and the dissolving of binary categories, in contemporary West Indian writing. Essays on India, Malaysia, and Indonesia explore various aspects of cultural self-understanding in Asia: un-writing high culture through hybrid 'shopping' among Western styles; the use of indigenous oral forms to counter Western hegemony; romantic and anti-romantic attitudes towards empire and the land. A shift to Africa brings a study of Nadine Gordimer's feminist un-writing of Hemingway's masculinist colonising narrative, a searching analysis of Soyinka's restoration of ancient syncretic elements in his West African re-visions of Greek tragedy, changing evaluations of the validity of European civilization in André Gide's representations of Africa, and tensions of linguistic allegiance in Maghreb literature. North America, finally, is brought back into the imperial fold through discussions of Melville's re-writing of travel and captivity narratives to critique the mission of American empire, Leslie Marmon Silko's re-territorialization of expropriated Native American oral traditions, and Timothy Findley's representation of Canada's troubled involvement with its three shaping empires (French, British, American).

gatsby full text free: Frontiers of Translation in Korean Language Education Simon Barnes-Sadler, Jieun Kiaer, 2025-02-20 Frontiers of Translation in Korean Language Education makes the case for the continuing relevance of translation in Korean as a Foreign Language (KFL) education. This book presents practical case studies of developing and implementing translation in KFL on scales ranging from extended programs – for example, the integration of a translation and interpreting internship program which responds to local community needs into the higher education curriculum – to single activities such as the comparison of English to Korean literary translations of the same source text to improve linguistic and cultural awareness. More theoretically-oriented works on the relationship of translation in KFL with fast-developing translation technology, the language of South Korean mass media, and the social processes of globalisation, are included alongside practical contributions. The substantive contributions are bookended by an introduction

and conclusion, which provide overviews of the history and current disposition of translation in KFL and a prospectus for its future, respectively. Drawing on the work of researchers and practitioners based in higher education institutions across North America, Europe, and South Korea, both the practical and theoretical strands included in this collection come together to provide a well-rounded account of the most recent developments in Korean-language pedagogy, which will appeal to language teachers, particularly Korean language teachers, and the institutions that employ and train them.
