george saunders essays: The Best American Magazine Writing 2017 Sid Holt, The American Society of Magazine Editors, 2017-12-19 With the work of reporters under fire worldwide, this year's anthology of National Magazine Award finalists and winners is a timely reminder of the power of journalism. The pieces included here explore the fault lines in American society. Shane Bauer's visceral "My Four Months as a Private Prison Guard" (Mother Jones) and Sarah Stillman's depiction of the havoc wreaked on young people's lives when they are put on sex-offender registries (The New Yorker) examine controversial criminal-justice practices. And responses to the shocks of the recent election include Matt Taibbi's irreverent dispatches from the campaign trail (Rolling Stone), George Saunders's transfixing account of Trump's rallies (The New Yorker), and Andrew Sullivan's fears for the future of democracy (New York). In other considerations of the political scene, Jeffrey Goldberg talks through Obama's foreign-policy legacy with the former president (The Atlantic), and Gabriel Sherman analyzes how Roger Ailes's fall sheds light on conservative media (New York). Linking personal stories to the course of history, Nikole Hannah-Jones looks for a school for her daughter in

a rapidly changing, racially divided Brooklyn (New York Times Magazine), and Pamela Colloff explores how the 1966 University of Texas Tower mass shooting changed the course of one survivor's life (Texas Monthly). A selection of Rebecca Solnit's Harper's commentary ranges from a writer on death row to the isolation at the heart of conservatism. David Quammen ventures to Yellowstone to consider the future of wild places (National Geographic), and Mac McClelland follows a deranged expedition to Cuba in search of the ivory-billed woodpecker (Audubon). The collection concludes with Zandria Robinson's eloquent portrait of her father as reflected in the music he loved (Oxford American).

george saunders essays: New Sincerity Adam Kelly, 2024-10-08 The years 1989–2008 were an era of neoliberal hegemony in US politics, economy, and culture. Post*45 scholar Adam Kelly argues that American novelists who began their careers during these years—specifically the post-baby boom generation of writers born between the late 1950s and early 1970s—responded to the times by developing in their fiction an aesthetics of sincerity. How, and in what way, these writers ask, can you mean what you say, and avow what you feel, when what you say and feel can be bought and sold on the market? What is authentic art in a historical moment when the artist has become a model for neoliberal subjectivity rather than its negation? Through six chapters focused on key writers of the period—including Susan Choi, Helen DeWitt, Jennifer Egan, Dave Eggers, George Saunders, Dana Spiotta, Colson Whitehead, and David Foster Wallace—the book explores these central questions while intervening critically in a set of debates in contemporary literary studies concerning aesthetics, economy, gender, race, class, and politics. Offering the capstone articulation of a set of influential arguments made by the author over a decade and more, *New Sincerity* constitutes a field-defining account of a period that is simultaneously recent and historically bound, and of a generation of writers who continue to shape the literary landscape of the present.

george saunders essays: Handbook of Transatlantic North American Studies Julia Straub, 2016-05-10 Transatlantic literary studies have provided important new perspectives on North American, British and Irish literature. They have led to a revision of literary history and the idea of a national literature. They have changed the perception of the Anglo-American literary market and its many processes of transatlantic production, distribution, reception and criticism. Rather than dwelling on comparisons or engaging with the notion of 'influence,' transatlantic literary studies seek to understand North American, British and Irish literature as linked with each other by virtue of multi-layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times. This handbook brings together articles that summarize some of the crucial transatlantic concepts, debates and topics. The contributions contained in this volume examine periods in literary and cultural history, literary movements, individual authors as well as genres from a transatlantic perspective, combining theoretical insight with textual analysis.

george saunders essays: Writing the First World War after 1918 Adrian Bingham, 2018-10-05 This book explores how print journalism was a powerful and persistent influence on public attitudes to, and memories of, the First World War in a range of participant nations, including Britain, France, Germany, Ireland, the United States and Australia. With contributions from an international group of history, journalism and literary studies scholars, the book identifies and analyses five distinct roles played by the print media: producing and narrating histories of the war or its constituent episodes; serialising and reviewing memoirs or fictional accounts written by participants; reporting and framing the rituals and ceremonies of local and national commemoration; providing a platform for various war-related advocacy groups or campaigns, from veterans' associations to early Civil Rights movements; and using the war as a lens through which to interpret future conflicts. This innovative collection demonstrates the significance of journalism in shaping the public understanding of the First World War after 1918, and shows how the representations and narratives of the conflict reflected the political and social changes of the post-war decades. This book was originally published as a special issue of Journalism Studies.
