With his influential “counternovel” HOPSCOTCH and his unforgettable short stories, Cortázar earned a place among the most innovative authors of the twentieth century. HOPSCOTCH is a nonlinear novel about an Argentinean writer living in Paris; it consists of 155 short chapters that the author advises the reader to read out of order. BLOW-UP and WE LOVE GLENDA SO MUCH bring together the most famous of Cortázar’s short fiction, including “Axolotl,” “End of the Game,” “The Night Face Up,” “Continuity of Parks,” “Bestiary,” and “Blow-Up”. These are stories in which invisible beasts stalk children in their homes, the reader of a mystery finds out that he is the murderer’s intended victim, an injured motorcyclist is pursued by Aztec warriors, and a man becomes a salamander in a Parisian zoo. In Cortázar’s work, laws of nature, physics, and narrative fall away, leaving us with an astonishing new view of the world.

glenda heroic actions: Laughing Fit to Kill Glenda Carpio, 2008-07-01 Reassessing the meanings of black humor and dark satire, *Laughing Fit to Kill* illustrates how black comedians, writers, and artists have deftly deployed various modes of comedic conjuring--the absurd, the grotesque, and the strategic expression of racial stereotypes--to redress not only the past injustices of slavery and racism in America but also their legacy in the present. Focusing on representations of slavery in the post-civil rights era, Carpio explores stereotypes in Richard Pryor's groundbreaking stand-up act and the outrageous comedy of Chappelle's Show to demonstrate how deeply indebted they are to the sly social criticism embedded in the profoundly ironic nineteenth-century fiction of William Wells Brown and Charles W. Chesnutt. Similarly, she reveals how the iconoclastic literary works of Ishmael Reed and Suzan-Lori Parks use satire, hyperbole, and burlesque humor to represent a violent history and to take on issues of racial injustice. With an abundance of illustrations, Carpio also extends her discussion of radical black comedy to the visual arts as she reveals how the use of subversive appropriation by Kara Walker and Robert Colescott cleverly lampoons the iconography of slavery. Ultimately, *Laughing Fit to Kill* offers a unique look at the bold, complex, and just plain funny ways that African American artists have used laughter to critique slavery's dark legacy.

glenda heroic actions: Drama and Ideology in Modern Israel Glenda Abramson, 1998-09-10 A large number of political plays have been written in Israel over the past fifty years, and they are perceived, by audiences and critics alike, as major interventions in the country's ongoing political debates; the result is that Israeli drama is at the centre of many public controversies. In this first full-length study of Israeli political drama Glenda Abramson shows that during the early years of the State of Israel most of its intellectuals were identified with the 'official' state interpretation of Zionism. After the Six-Day War in 1967 an influential group of playwrights, concerned with the

evolution of Zionist ideology in the modern nation state, began to question the ethical basis of Zionism. Hanokh Levin, Yehoshua Sobol, Yosef Mundi, Miriam Kainy, Amos Kenan and others have gone on to examine Zionism as it affects contemporary Israeli society.

glenda heroic actions: Presidents Who Shaped the American West Glenda Riley, Richard W. Etulain, 2018-02-08 Generations of Americans have seen the West as beyond federal control and direction. But the national government's presence in the West dates to before Lewis and Clark, and since 1789 a number of U.S. presidents have had a penetrating and long-lasting impact on the region. In *Presidents Who Shaped the American West*, noted historians Glenda Riley and Richard W. Etulain present startling analyses of chief executives and their policies, illuminating the long reach of presidential power. The authors begin each chapter by sketching a particular president's biography and explaining the political context in which he operated while in office. They then consider overarching actions and policies that affected both the nation and the region during the president's administration, such as Thomas Jefferson's augmentation of the West via the Louisiana Purchase, and Andrew Jackson's removal of American Indians from the Southeast to "Indian Country" in the West. Abraham Lincoln's promotion of the Homestead Act, a transcontinental railroad, and western territories and states free of slavery marked further extensions of presidential power in the region. Theodore Roosevelt's conservation efforts and Jimmy Carter's expansion of earlier policies reflected growing public concern with the West's finite natural resources and fragile natural environment. Franklin D. Roosevelt's New Deal, Dwight D. Eisenhower's highway program, and Lyndon B. Johnson's Great Society funneled federal funding into the West. In return for this largesse, some argued, the West paid the price of increased federal hegemony, and Ronald Reagan's presidency arguably curbed that power. Riley and Etulain also discuss the most recent presidential terms and the region's growing political power in Congress and the federal bureaucracy. With an accessible approach, *Presidents Who Shaped the American West* establishes the crucial and formative nature of the relationship between the White House and the West—and will encourage readers to continue examining this relationship.

glenda heroic actions: The Women of Warner Brothers Daniel Bubbeo, 2010-06-21 The lives and careers of Warner Brothers' screen legends Joan Blondell, Nancy Coleman, Bette Davis, Olivia de Havilland, Glenda Farrell, Kay Francis, Ruby Keeler, Andrea King, Priscilla Lane, Joan Leslie, Ida Lupino, Eleanor Parker, Ann Sheridan, Alexis Smith, and Jane Wyman are the topic of this book. Some achieved great success in film and other areas of show business, but others failed to get

the breaks or became victims of the studio system's sometimes unpleasant brand of politics. The personal and professional obstacles that each actress encountered are here set out in detail, often with comments from the actresses who granted interviews with the author and from those people who knew them best on and off the movie set. A filmography is included for each of the fifteen.

glenda heroic actions: Sites of Jewish Memory Glenda Abramson, 2018-10-24 This book brings together a collection of 16 essays, first published in the *Journal of Modern Jewish Studies*, that explore Jewish communities in North Africa, Turkey and Iraq. The discussions are located primarily in the 20th century but essays also examine the Jewish community in 16th-century Istanbul, and in early modern Morocco. Topics include traumatic departures of communities from countries of centuries-old Jewish residence, and relocations; pilgrimages to holy sites by Mizrahi Jews in Israel; resonances of Shabbetai Zevi in Turkey and Morocco; otherness and the nature of homeland; the Sephardi culinary heritage as realised in the cookbooks of Claudia Roden; sites of memory, such as Kuzguncuk in Turkey; and a controversial view of the exclusions and erasures that Arabized Jews have undergone. In this unique collection a major, but not exclusive, theme is that of the instability of memory, and the attempt to understand the interactions between memory and history as Jews recount their experiences of living in, and often leaving, their past homelands. This book was originally published as a special issue of the *Journal of Modern Jewish Studies*.

glenda heroic actions: Empire of Ruin John Levi Barnard, 2018 From the US Capitol to the Lincoln Memorial and the 9/11 Memorial Museum, classical forms and ideas have been central to an American nationalist aesthetic. Beginning with an understanding of this centrality of the classical tradition to the construction of American national identity and the projection of American power, *Empire of Ruin* describes a mode of black classicism that has been integral to the larger critique of American politics, aesthetics, and historiography that African American cultural production has more generally advanced. While the classical tradition has provided a repository of ideas and images that have allowed white American elites to conceive of the nation as an ideal Republic and the vanguard of the idea of civilization, African American writers, artists, and activists have characterized this dominant mode of classical appropriation as emblematic of a national commitment to an economy of enslavement and a geopolitical project of empire. If the dominant forms of American classicism and monumental culture have asserted the ascendancy of what Thomas Jefferson called an empire for liberty, for African American writers and artists it has suggested that the nation is nothing exceptional, but rather another iteration of what the radical abolitionist Henry Highland Garnet identified as an empire of slavery, inexorably devolving into an empire of ruin.

glenda heroic actions: Ed Wood, Mad Genius Rob Craig, 2009-09-12 Filmmaker Ed Wood was controversial and critically maligned, even labeled the worst director of all time, yet he achieved cult status and remains of great interest today. This book frames Wood's work, such as the cross-dressing themed *Glen or Glenda?* and the haphazard *Bride of the Monster*, as reflections of the culture of their era. Wood invariably worked with infinitesimal budgets, shooting at breakneck speed, incorporating plot twists that defied all logic. Yet there was a tangible if unfocused thematic thrust to Wood's films, which meditate fitfully on gender, religion and society, revealing a holy trinity of fixations--sex, death and resurrection. Wood's infamous *Plan 9 From Outer Space* encapsulates the fixations and flaws that were his hallmarks, and with 22 other films, is explored here. A filmography and 47 photographs are included.
