The Symbolism of the Glass Castle

free glass castle memoir: *Best Copy Available* Jay Baron Nicorvo, 2024-09-01 In the winter of 1984, Sharon Nicorvo was violently raped while delivering pizza to Fort Monmouth Army Base in New Jersey. At the same time, her seven-year-old son Jay was being subjected to repeated and secret sexual abuse by his babysitter. *Best Copy Available* delves into these devastating events and their long aftermath. Thirty years later, Nicorvo receives a photocopy of the criminal investigation report documenting that brutal night. This report offers a primer to better understand certain assumptions about class and race; sex and violence; crime and punishment; low and high culture; sanity, madness, and masculinity; and the facsimile nature of the truth. As various American men—some real, some imagined, all prone to violence—move in and then out of their hardscrabble lives, mother and son spend decades avoiding and ultimately confronting what happened to them in that formative year. From the Jersey Shore to the Gulf Coast of Florida to the Midwest, *Best Copy Available* tells a harrowing and sometimes hilarious American story: how the love of a single mother helped end an awful cycle of abuse and abandonment. Most ambitiously, *Best Copy Available* lends voice to an alternative version of American boyhood, manhood, and fatherhood. One where the sons of deadbeat dads can grow up to be stay-at-home dads, and where our boys and men may realize that the most courageous show of strength is not the determined use of force. It's knowing when and how to ask for help.

free glass castle memoir: Denied! Failing Cordelia: Parental Love and Parental-State Theft in Los Angeles Juvenile Dependency Court Simon Cambridge, 2019-09-17 Climbing the Broken Judicial Ladder continues the author's journey of exploring the heartbreak and loss of first adopting Cordelia with severe reactive attachment disorder (RAD) in Washington state and then of nearly losing her to the draconian and confused child welfare legal complex in Los Angeles. In this third volume of his *Denied! Failing Cordelia* trilogy, Cambridge climbs the broken California judicial ladder from the California Court of Appeals (Second Appellate District) based in Los Angeles to the California Supreme Court. Cambridge concludes that in appeals relating to dependency cases, the ladder is broken for parents seeking to advocate for themselves and for the true best interests of their children. Policies relating to child welfare are flawed, Cambridge argues, because of the preemptive and prejudicial response to the issues raised during the detention of children. As with his two earlier books, Cambridge explores issues connected with how best to parent his adopted daughter and advocate for her needs in the context of a dependency case. Cordelia's reactive attachment disorder would surface throughout the judicial struggle as would the author's own struggles with Asperger syndrome. Each would feed negatively into the overall trauma and drama of the author's unrelenting quest to reunite his "forever family." Cambridge believes that dependency proceedings are ill-equipped on many levels to elicit a proper understanding of RAD or of the therapeutic parenting needed to address it. Cambridge believes that adoptive parents of children with special needs need to be understood by more sympathetic social workers and by therapists trained in attachment disorders. Cambridge's persistent efforts to reunite his "forever family" would leave him increasingly isolated as he climbs the judicial ladder. Based on his experiences, Cambridge explores areas for reform in Los Angeles dependency proceedings and evokes Shakespeare's *King Lear* by arguing that social workers need to "see better" and that the Los Angeles Juvenile Dependency Court needs to encourage a broader understanding of the issues raised through more effective legal advocacy from assigned dependency lawyers. Cambridge argues that parents should be allowed to address the court directly. Cambridge also relates how he and his daughter have found many positive and healthy ways to heal in the years since their dependency case ended. Much trauma could have been avoided if those around them had "seen better" and had recognized the value in their dramatic and loving adoption journey.
