free henrietta lacks biography pdf: *The Grandfather of Black Basketball* Edwin Bancroft Henderson II, 2024-02-20 The first contemporary biography of the man credited with introducing basketball to African Americans on a wide-scale, organized basis. Dr. Edwin Bancroft Henderson was the son of working-class parents born in slavery. A driven, intelligent, and charismatic young man, Henderson attended Harvard University's Dudley Sargent School of Physical Training. There he met the leaders in the new field of physical education and recognized athletics—and basketball, especially—as a public health initiative and a way that young Blacks could gain college scholarships and debunk the idea of racial inferiority. In *The Grandfather of Black Basketball: The Life and Times of Dr. E. B. Henderson*, Edwin Bancroft Henderson II—Dr. Henderson's grandson—provides unprecedented detail and fascinating insight into this influential figure in Black history. Henderson organized the first athletic league for Blacks, introduced basketball to Black people on a wide-scale, organized basis, and founded associations to train and organize Black officials and referees. He also wrote and co-edited the first Spalding publication that highlighted the exploits of African American participation in sports and authored *The Negro in Sports*. Outside of athletics, Henderson was instrumental in founding the first rural branch of the NAACP, advocated for school desegregation, and held executive board positions with multiple NAACP branches. Overlooked for decades, Henderson was finally enshrined in the National Basketball Hall of Fame in 2013 as a contributor. *The Grandfather of Black Basketball* gives long-overdue recognition to a sports pioneer, civil rights activist, author, educator, and pragmatic humanitarian who fought his entire life to improve opportunities for youth through athletics.

free henrietta lacks biography pdf: *The Immortal Life of Henrietta Lacks* Rebecca Skloot, 2010-02-02 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION • A KIRKUS REVIEWS BEST NONFICTION BOOK OF THE CENTURY A BEST BOOK OF THE YEAR: The New York Times Book Review, Entertainment Weekly, O: The Oprah Magazine, NPR, Financial Times, New York, Independent (U.K.), Times (U.K.), Publishers Weekly, Library Journal, Kirkus Reviews, Booklist, Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became

one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Sample Book Insights: #1 On January 29, 1951, David Lacks sat behind the wheel of his old Buick, watching the rain fall. He was parked under a towering oak tree outside Johns Hopkins Hospital with three of his children—two still in diapers—waiting for their mother, Henrietta. She had been telling her closest friends something was wrong with her sex life, but she still said no when she was pregnant with Joe, her fifth child. #2 Henrietta was diagnosed with a tumor on her cervix, but when she went to the hospital, she was treated for syphilis. She had six children with her husband, and she was never able to travel. She was asymptomatic neuro syphilitic, and her husband had no liking for sexual intercourse. #3 Henrietta was a prime example of how little black patients knew about their health. She had never heard of cervical cancer, and when she went to the hospital, she was sent home with a diagnosis of no abnormality of the cervix. Three months later, she had a full-blown tumor. #4 Henrietta Lacks was a woman whose cells were taken and sold by the thousands without her consent. She was born in 1920 in Virginia, and her cells were taken and sold by the thousands without her consent.

free henrietta lacks biography pdf: **Summary Of *The Immortal Life of Henrietta Lacks*** Alma Duncan, 2020-09-23 *The Immortal Life of Henrietta Lacks* by Rebecca Skloot is a non-fiction book that tells the story of Lacks and her HeLa cells, or the immortal cell line that doctors retrieved from her cervical cancer cells. Crown Publishing Group published the book in 2010, and it won a National Academies Communication Award the following year. This guide refers to the Crown 2010 first edition. Henrietta Lacks was a black American woman who died of cancer in 1951 at age 31. Before she died, doctors took a sample from her tumor without her knowledge or consent and used the sample for medical research. The cells in Henrietta's tissue sample, known as HeLa cells (pronounced hee-lah), were the first human cells to survive in a culture, where they thrived and multiplied. Consequently, HeLa cells have since been used in scientific research all over the world and have played a fundamental role in numerous medical advances and developments, like the polio vaccine.
