Background of Gaige Grosskreutz

Gaige Grosskreutz is an American who gained national attention following the Kenosha unrest in August 2020. Born and raised in Wisconsin, Grosskreutz has been involved in various activism efforts throughout his life. His background includes work as a paramedic and participation in community organizations. Before the Kenosha events, he was known locally for his activism and dedication to causes related to social justice, protest rights, and community outreach. This foundation shaped his perspective and actions during the events that led to his notoriety.

Personal Life and Activism

Grosskreutz's involvement in activism began at an early age, focusing on civil rights and advocacy for marginalized groups. His commitment to these

causes was evident through his participation in local protests and community events. As a paramedic, Grosskreutz was often present at demonstrations, providing medical assistance to those in need. This role positioned him as a trusted figure among fellow activists and protest participants, reinforcing his reputation for empathy and dedication.

Involvement in the Kenosha Incident

The Kenosha incident on August 25, 2020, marked a pivotal chapter in Gaige Grosskreutz's life. During the unrest that followed the police shooting of Jacob Blake, Grosskreutz attended the protests to document events and offer medical assistance. He became directly involved in the confrontation that

gaige grosskreutz: The Anti-Communist Manifesto Jesse Kelly, 2025-02-11 From popular radio host and social media star Jesse Kelly comes a powerful rallying cry for Americans to recognize the roots of the dangerous communist mentality encroaching on our country today, with Kelly's trademark combination of bombast, intelligence, and humor--

gaige grosskreutz: Lies of Omission Catherine DeSoto, 2022-09-20 A lie of omission—withholding needed information to correct a false belief. There is a sharp and more hostile divide emerging in the United States. The shift is documented by various polls, and the speed of the change is alarming. There are certainly contributing factors, but one factor is unique to the contemporary era: receiving the majority of our information via social media experiences. Media algorithms, and to some extent overt censorship, serve users curated content that is unlike what their neighbors receive. Lies of Omission brings together various perspectives on the causes and effects of the divided information streams. Psychology and neuroscience, combined with some historical jurisprudence, are woven together to spell out the dangers of the modern social media experience. Importantly, the human response can be understood as rooted in our psychology and neurochemistry. In part two of the book, eight hot button issues that have provoked deep divisions among American citizens are presented as well-researched, opposing-view chapters with a goal to lay bare the extent of the disinformation gap that we are living in. With the rise of ephemeral smart media, and the associated displacement of the permanently printed word, it is rare to have a clear idea of what persons who do not share our opinions actually believe, or why. The decimation of communal information sources is nearly complete. What can one do? One concrete step is to turn some of your attention away from curated, impermanent news and read a book. Read this book. Dr. Catherine DeSoto spells out why it is worth our time to be informed regarding the issues we care about: something your phone's curated media will never do for you. Open your mind to the quaint idea that one is not informed unless one understands the opposing view. Surprising all-new research

regarding the political divide and the pandemic is included. Together with over 150 references, this book will be the definitive source documenting the effects of the media algorithm revolution.

gaige grosskreutz: Liberal Misery Eddie Scarry, 2022-06-30 Liberals, Democrats, and Leftists are rarely in a good mood. And they're certainly not happy when in the presence of conservatives or free-thinking independents—that is to say, when coming into contact with at least half of the country. Their tendency to zealously spread discomfort and misery has been something of a mystery...until now. In great detail, Liberal Misery explains exactly what drives America's Left to be such a wet blanket. From COVID to the Black Lives Matter movement to even everyday socializing, Liberals are joyless nags. Now we know why.

gaige grosskreutz: Winning the Second Civil War Jim Hanson, 2021-05-16 The Left and its shock troops are destructive forces to our Republic. The extremists on the Left share common cause with the current path of the Democrats in a belief that America is a force for evil that must be destroyed and remade in a woke image. The extremists on the Right have elements of anti-government ideology and some do want to destroy the current systems. But they are out of step with the vast majority of conservatives who simply want to reassert the values that have always worked for this country. Winning the Second Civil War provides a path to victory to build new political institutions for a stronger Right.

gaige grosskreutz: Kangaroo Court Don Brown, 2024-11-06 Kangaroo Court: How Dirty Prosecutors and Sleazy Lawyers Destroy Political Opponents, Attack Free Speech, and Subvert the Constitution unveils the dangerous and growing trend of political prosecution in America. From Alvin Bragg to Jack Smith, from Fani Willis to Letitia James, to Kim Gardner, author Don Brown exposes how rogue prosecutors in politically charged jurisdictions have weaponized the legal system to punish dissent, silence opposition, and erode constitutional rights. In a time when the American judicial system is under siege by leftists and a weaponized Department of Justice, Kangaroo Court dives into over twenty politically motivated cases, from the exonerations of Tom DeLay, Bob McDonnell, and Rick Perry to the wrongful imprisonment of Trump supporters, including Steve Bannon and Peter Navarro. These cases underscore the need for rogue prosecutor laws to prevent further abuse of power and protect the integrity of our republic. As the 2024 presidential election looms, the political prosecutions of Donald Trump across four jurisdictions are not just a threat to one man—they are an attack on the United States Constitution and freedom of speech. It's time to hold corrupt prosecutors accountable and restore justice to our judicial system. It's time to prosecute the prosecutors.

gaige grosskreutz: The Planndemic Shontavia Brown, 2024-06-06 In God we trust but all the rest have to pay.

gaige grosskreutz: A City on the Edge Dennis R. McBride, 2025-09-30 Some years change the course of history. 2020 was one of those years. As a pandemic, lockdowns, and an economic downturn convulsed America, police shootings of George Floyd and other African Americans touched off the largest protest movement in U.S. history. At the same time, mass shootings soared; many states saw unprecedented increases in gun-related incidents. Churning in the background were a bitter presidential election campaign and counterprotests opposing public health measures and the election result itself. Mayors of cities big and small struggled with some of these challenges, but Dennis McBride, the new mayor of a mid-sized, mostly-White suburb bordered by the majority-minority City of Milwaukee—called the heartland of the heartland—faced them all. His city, a microcosm of a troubled America, teetered on the verge of anarchy while playing a crucial role in the presidential election. A City on the Edge is the gripping story of how he and other mayors have steered America's hometowns through a storm of personal and political divisions. Though the chaos of 2020 has gradually subsided, it is still reverberating in the nation's economy, politics, and psyche. The changes sparked by the events of that historic year continue to vex mayors and their communities. Americans and their leaders are searching for a new equilibrium. That balance will be found first in our hometowns. A City on the Edge offers a path forward.

gaige grosskreutz: Seen and Unseen Marc Lamont Hill, Todd Brewster, 2023-02-07 In Seen

and Unseen, acclaimed authors Marc Lamont Hill and Todd Brewster weave four recent pivotal moments in America's racial divide--starting with the killing of George Floyd--into their disturbing historical context to reveal the connections among our current news headlines and social media feeds and the country's long struggle against racism. -- Page 4 of cover.

gaige grosskreutz: Summer of Our Discontent Thomas Chatterton Williams, 2025-08-05 In this provocative book, Thomas Chatterton Williams, one of the most revered and reviled social commentators of our time, paints a clear and detailed picture of the ideas and events that have paved the way for the dramatic paradigm shift in social justice that has taken place over the past few years. Taking aim at the ideology of critical race theory, the rise of an oppressive social media, the fall from Obama to Trump, and the twinned crises of COVID-19 and the murder of George Floyd, Williams documents the extent to which this transition has altered media, artistic creativity, education, employment, policing, and, most profoundly, the ambient language and culture we use to make sense of our lives. Williams also decries how liberalism - the very foundation of an open and vibrant society - is in existential crisis, under assault from both the right and the left, especially in our predominantly networked, Internet-driven monoculture. Sure to be highly controversial, Summer of Our Discontent is a compelling look at our place in a radically changing world.

gaige grosskreutz: Bulletproof Fashion Barbara Sutton, 2023-05-23 In the context of gun proliferation and persistent gun violence in the United States, a controversial security strategy has gained public attention: bulletproof fashion. This book examines concerns about security focusing on armored clothing and accessories for civilians. Available for children and adults, such ballistic products include colorful backpacks, elegant suits, sports jackets, feminine dresses, trendy vests, and medical lab coats. These products are paradigmatic of a fashion of fear—the practice of outfitting the body with apparel aimed at maximizing personal security. This fashion encourages the emergence of both a fortress body and an armored society. Sutton also explores the wider social factors influencing the bulletproof fashion phenomenon, including the inequalities associated with neoliberalism and the militarization of civilian life. The book sheds light on the role of emotions in relation to discourses and perceptions of security, and encourages feminist and sociological studies to pay attention to the linkages between security, bodies, and dress. It is ideal for students and scholars interested in security and gun violence, culture and politics, neoliberalism and consumption, and bodies and emotions.

gaige grosskreutz: Justice in the Age of Judgment Anne Bremner, Doug Bremner, 2022-11-08 From Amanda Knox to O.J., Casey Anthony to Kyle Rittenhouse, our justice system faces scrutiny and pressure from the media and public like never before. Can the bedrock of “innocent until proven guilty” survive in what acclaimed Seattle attorney and legal analyst Anne Bremner calls the age of judgement? When unscrupulous Italian prosecutors waged an all-out war in the media and courtroom to wrongly convict American exchange student Amanda Knox for a murder she didn’t commit, family and friends turned to renowned Seattle attorney and media legal analyst Anne Bremner to help win her freedom. The case was dubbed the “trial of the decade” and would coincide with the explosion of social media and a new era of trying cases in public as much as the courtroom. While Italian prosecutors, the press, and online lynch mobs convicted Knox in the court of public opinion, Bremner would draw upon her decades in the courtroom and in front of the camera to turn the tide with a new kind of defense in pursuit of justice. In Justice in the Age of Judgement, Anne Bremner and Doug Bremner take us inside some of the biggest cases of recent times and offer their expert, thought-provoking insights and analysis as our legal system faces unprecedented forces fighting to tip the scales of justice their way. Why couldn’t prosecutors convict O.J. Simpson despite all of the evidence seemingly proving he killed his wife Nicole? Could a jury remain unbiased in the face of overwhelming public pressure in the trial of Minneapolis police officer Derek Chauvin for the murder of George Floyd? Why was Kyle Rittenhouse exonerated after shooting three people (killing two) with an assault rifle at a violent rally despite widespread media reports seemingly proving his guilt, and national calls for his conviction? Justice in the Age of Judgement is an unparalleled and unflinching look at the captivating cases tried on Twitter and TV, where the burden of proof and

fundamental legal tenet of “innocent until proven guilty” is under assault from the court of public opinion.

gaige grosskreutz: Against the Corporate Media Michael Walsh, 2024-09-10 The citizens of Western democracies have been relentlessly propagandized, lied to, and fed a steady diet of distortions and untruths by their media for decades. Editor Michael Walsh brings together a stellar collection of critical thinkers and writers to explain how and why this is happening, its negative effects on our democracies, and what we can do to reverse it. An informed electorate is a prerequisite for free and fair elections. But rather than striving for accuracy and objectivity, today’s journalists openly celebrate the death of objectivity, arguing that they have a “higher duty” to reject the conservatism, police speech, and suppress news that contradicts the liberal narrative. Now, on the heels of his magisterial volume *Against the Great Reset*, editor Michael Walsh presents *Against the Corporate Media*, a collection of more than forty essays on the decline and fall of the American and international news media. The book’s list of distinguished contributors includes Lance Morrow, Andrew Klavan, John O’Sullivan, Elizabeth Nickson, Monica Crowley, Charlie Kirk, Glenn Reynolds, Steven F. Hayward, John Fund, Armond White, Michael Ramirez, Walsh, and others. Readers around the world deserve to know how badly their media has been corrupted, how eagerly they have embraced the role of official propagandists, and what a threat to democracy they have become. This book marks an important strike against the corporate media, and its unholy alliance with the enemies of freedom everywhere.

gaige grosskreutz: Escaping the Delusions of Culture Sterling T. Anderson, 2023-04-12 As I began to write what originally started out to be a family orientated portrayal (of which much still is), race and the influence of politics and religion became increasingly important factors to acknowledge. They are inextricably bound together in the consciousness of America. Decisions made by elected and unelected officials affect virtually every aspect of our lives - whether we know it or not. Where buildings are built, where roads are constructed, where services are and are not provided, how the administration of justice is meted out, the list goes on. These decisions are ultimately made by the political class. The attitudes of those holding office will affect how these resources are allocated. If there is a price to be paid by those decisions it’s felt by those with the least political and financial clout. The book is broken up into many different segments all of which play a part in either illuminating particular themes mentioned above, sharing family insights, and of high priority to the writer, rising in the mind of the reader the desire to question the previously unquestioned and if motivated challenge those previously unquestioned assumptions. I hope the reader finds this book as interesting to read as I found it to write.

gaige grosskreutz: Political Disagreement, Violence and Nonviolence Greg McCreery, 2023-07-10 Violence and Nonviolence descriptively analyzes numerous examples of theorists’ definitions and characterizations of varying types of violence, arguing that a commonsense view of violence and nonviolence is based on paradigm cases that most people generally agree consider as kinds of violence and nonviolence. Beyond these cases, however, McCreery argues that collectives of individuals form into politicized groups that share visions of these types of violence and nonviolence, particularly in terms of what they believe to be legitimate kinds of violence and nonviolence in contrast to illegitimate kinds. An understanding of violence and nonviolence requires a perspectival, relational approach that situates the vulnerable human body as primary. Furthermore, if nonviolence is to succeed as an effective political strategy, then it must work as a kind of violence, at least from the perspective of the adversary.

gaige grosskreutz: If It Ain't Woke, Don't Fix It Ben Shapiro, 2022-11 We all know 2021 and 2022 have been hard on Americans, and the radical Left hasn’t missed a single opportunity to scold everyday Americans who don’t subscribe to an ideology that inaccurately brands itself as the vanguard of social justice. In this collection of syndicated columns, Ben Shapiro expertly refutes the fictions the Left depends on to survive. From demonizing dissent to outright lying, this collection compiles the greatest sins of the pious Left—and gives conservatives the tools to fight back.

gaige grosskreutz: The Age of Insurrection David Neiwert, 2023-06-27 An important book,

offering the clearest explanation of how dark forces conspired to overthrow our democratically elected government and install a fascist regime in its place. And it's a warning that what comes next might be even worse... His prose is passionate, thoughtful, at times blisteringly funny and always deeply morally engaged with the importance of the work. -- The Seattle Times A brisk and searing history... It's a disturbing look at how hard extremism is to stamp out. --Publishers Weekly The strange and terrible tale of the far right's long war on American democracy . . . From a smattering of ominous right-wing compounds in the Pacific Northwest in the 1970s, to the shocking January 6, 2021 insurrection at the U.S. Capitol, America has seen the culmination of a long-building war on democracy being waged by a fundamentally violent and antidemocratic far-right movement that unironically calls itself the Patriot movement. So how did we get here? Award-winning journalist David Neiwert — who been following the rise of these extremist groups since the late 1970s, when he was a young reporter in Idaho — explores how the movement was built over decades, how it was set aflame by Donald Trump and his cohorts, and how it will continue to attack American democracy for the foreseeable future. Neiwert especially studies how the Pacific Northwest has long been a breeding ground of extremist violence, from the time when neo-nazis migrated to the area from southern California in the 1970s, through the great battles in Portland and Seattle and neighboring towns over the last decade. Laying out how these groups organize their terroristic violence and attacks on democratic institutions at every level—including local, state, and federal targets—Neiwert details what their strategies and plans look like for the foreseeable future.

gaige grosskreutz: Everyone Is a Someone Roy Murch, Robin Frost, 2022-05-13 These stories tell the wrong path we are headed unless we change the outcome. The racial injustice, police reform, and changing this hate into love for all immigrants living in our land. America is made from immigrants coming to America to have a better life for themselves and their families. We must strive to do our part and eliminate systemic racism of all races coming or born in this country we love and call home. The sex and human trafficking and illegal drugs that have stained our land must cease to exist.

gaige grosskreutz: America's Rifle Stephen P. Halbrook, 2022-11-28 There are over forty-four million AR-15s and similar semiautomatic rifles owned by Americans. Popular adoption on such a monumental scale is indicative of more than a passing fad; only proven utility through long history creates such lasting—indeed growing—demand. Since the founding of the American republic, rifles—beginning with muzzleloaders and later semiautomatics—have been at the center of American history and pre-history. This book, by renowned historian and attorney Stephen Halbrook, is the definitive account of this centrality of repeating rifles to the American story—from its conception to the present day. Some factions of state and national politicians now seek to remake America in a different, novel image by rushing to ban and restrict access to firearms that have long been our heritage. As Halbrook decisively shows, theirs is a war against the Second Amendment and the tradition of freedom and self-sufficiency that has sustained our storied past. Our rights hang in the balance—not as lone pillars but, history shows, as dominos ready to fall in quick succession. Halbrook comprehensively reviews the historical, legal, and policy arguments advanced by gun prohibitionists and demonstrates that these bans are deeply antagonistic to our history, our interests, and our Constitution.

gaige grosskreutz: SELF-DEFENSE FOR EVERYDAY PEOPLE Shawn Armstrong, 2025-03-31 Introduction The introduction sets the stage for understanding the importance of self-defense in personal safety. Chapter 1: Understanding Self-Defense This chapter explores the fundamental principles of self-defense, emphasizing the need for awareness and preparedness in potentially dangerous situations. Chapter 2: Situational Awareness Situational awareness is crucial for recognizing threats before they escalate. This chapter discusses techniques to enhance one's awareness of surroundings and potential dangers. Chapter 3: Physical Techniques A comprehensive overview of key physical techniques used in self-defense is provided, including: - Understanding Body Language in Self-Defense: Recognizing non-verbal cues can help anticipate aggressive behavior. - The Role of Strength and Agility in Self-Defense: Physical fitness plays a significant role

in effective self-defense strategies. Chapter 4: Self-Defense Tools and Devices This chapter introduces various self-defense tools, highlighting: - Introduction to Self-Defense Tools: An overview of available devices. - The Importance of Self-Defense Classes and Training Devices: Practical training enhances tool effectiveness. - Legal Considerations for Carrying Self-Defense Tools: Understanding laws governing self-defense tools is crucial. - Choosing the Right Tool for You: Guidance on selecting tools that fit individual needs and situations. Chapter 5: De-escalation Techniques De-escalation techniques are vital for resolving conflicts without physical confrontation. Key points include: - Overview of Conflict Resolution: Strategies to defuse tense situations. - The Role of Non-Verbal Communication in De-escalation: Non-verbal cues can significantly impact conflict resolution efforts. Chapter 6: Practicing Self-Defense Effective self-defense requires practice, which includes: - The Process of Learning Self-Defense: Structured learning pathways. - Finding Classes and Resources: Identifying local training opportunities. - Role of Repetition and Drills: Consistent practice solidifies skills. - Creating a Support System: Building a network can enhance learning and motivation. Chapter 7: Real-Life Scenarios and Case Studies Understanding real-life scenarios is essential for practical application. This chapter covers: - The Importance of Understanding Real-Life Self-Defense Situations: Real cases provide valuable insights. - Lessons Learned from Each Case Study: Analyzing outcomes helps refine strategies. - Personal Reflection: Encourages readers to consider their own experiences and responses. Chapter 8: Creating Your Personal Safety Plan Developing a personal safety plan is crucial for proactive self-defense. Topics include: - Why You Need a Personal Safety Plan: Establishing a clear strategy enhances preparedness. - Developing Your Safety Strategy: Tailoring plans to individual circumstances ensures effectiveness.

gaige grosskreutz: The Myth of Child Protection Rona Jualla van Oudenhoven, Dawn Walcott-Parris, Steve Woodman, 2022-07-15 The Myth of Child Protection captures the harsh ironic reality of the harm that arises when well-intentioned systems are broken. This book serves as a guide for persons who want to create change for the better in the system. It is an apology to all those children and youth whom the system has failed. At the same time, it is a pledge to do better by those still present and others yet to come. In those instances where intervention did more good than harm, it is a recognition of this good. This journal of collective writing is geared towards jointly generating new knowledge that is fueled by the past, seeks to inform the present and shape the future. Included in this book are the critical voices of advocacy and allyship united in change. It is a unique collection of essays, guides and best practices that would normally stay in quiet quarters as documents circulating within agencies. Instead, it recognizes the good work already being done and the need to use these bodies of work as best practice because they come from within the organizations and in that sense the true experts. This book is dedicated to all children and youth in the child welfare system.
