Elderly, just to exemplify, is like an almost one year old child, where the former has to be supported through all those processes as one year old or less in age. Elderly people due to his/her physical and mental imbalance as a result of age-related degeneration and younger ones due to their maturational process. As mentioned above, these two types of physical and mental degeneration and maturation in two groups face equal types of challenges in physical and mental wellbeing, legal protection, food, shelter, proper care of their health and education. Undoubtedly, infants and children are taken care of their above-mentioned disabilities through a well-balanced parenthood, but on the other hand elderly problems are solved mostly by their, mentally normal grownup children supported by Governmental and non-Governmental schemes including well established old age homes, Govt legal support and physical and mental training backups.
