glenda cleveland documentary: Mae Mallory, the Monroe Defense Committee, and World Revolutions Paula Marie Seniors, 2024-04 This book explores the significant contributions of African American women radical activists from 1955 to 1995. It examines the 1961 case of African American working-class self-defense advocate Mae Mallory, who traveled from New York to Monroe, North Carolina, to provide support and weapons to the Negroes with Guns Movement. Accused of kidnapping a Ku Klux Klan couple, she spent thirteen months in a Cleveland jail, facing extradition. African American women radical activists Ethel Azalea Johnson of Negroes with Guns, Audrey Proctor Seniors of the banned New Orleans NAACP, the Trotskyist Workers World Party, Ruthie Stone, and Clarence Henry Seniors of Workers World founded the Monroe Defense Committee to support Mallory. Mae's daughter, Pat, aged sixteen also participated, and they all bonded as family. When the case ended, they joined the Tanzanian, Grenadian, and Nicaraguan World Revolutions. Using her unique vantage point as Audrey Proctor Seniors's daughter, Paula Marie Seniors blends personal accounts with theoretical frameworks of organic intellectual, community feminism, and several other theoretical frameworks in analyzing African American radical women's activism in this era. Essential biographical and character narratives are combined with an analysis of the social and political movements of the era and their historical significance. Seniors examines the link between Mallory, Johnson, and Proctor Seniors's radical activism and their connections to national and international leftist human rights movements and organizations. She asks the underlying question: Why did these women choose radical activism and align themselves with revolutionary governments, linking Black human rights to world revolutions? Seniors's historical and personal account of the era aims to recover Black women radical activists' place in history. Her innovative research and compelling storytelling broaden our knowledge of these activists and their political movements.

glenda cleveland documentary: After Redemption John M. Giggie, 2007-11-21 After Redemption fills in a missing chapter in the history of African American life after freedom. It takes on the widely overlooked period between the end of Reconstruction and World War I to examine the sacred world of ex-slaves and their descendants living in the region more densely settled than any other by blacks living in this era, the Mississippi and Arkansas Delta. Drawing on a rich range of local memoirs, newspaper accounts, photographs, early blues music, and recently unearthed Works Project Administration records, John Giggie challenges the conventional view that this era marked the low point in the modern evolution of African-American religion and culture. Set against a backdrop of escalating racial violence in a region more densely populated by African Americans than any other at the time, he illuminates how blacks adapted to the defining features of the post-Reconstruction South-- including the growth of segregation, train travel, consumer capitalism, and fraternal orders--and in the process dramatically altered their spiritual ideas and institutions. Masterfully analyzing these disparate elements, Giggie's study situates the African-American experience in the broadest context of southern, religious, and American history and sheds new light on the complexity of black religion and its role in confronting Jim Crow.

glenda cleveland documentary: Manly Meals and Mom's Home Cooking Jessamyn Neuhaus, 2012-03-15 A study of what American cookbooks from the 1790s to the 1960s can show us about gender roles, food, and culture of their time. From the first edition of The Fannie Farmer Cookbook to the latest works by today's celebrity chefs, cookbooks reflect more than just passing culinary fads. As historical artifacts, they offer a unique perspective on the cultures that produced them. In Manly Meals and Mom's Home Cooking, Jessamyn Neuhaus offers a perceptive and piquant analysis of the

tone and content of American cookbooks published between the 1790s and the 1960s, adroitly uncovering the cultural assumptions and anxieties—particularly about women and domesticity—they contain. Neuhaus's in-depth survey of these cookbooks questions the supposedly straightforward lessons about food preparation they imparted. While she finds that cookbooks aimed to make readers—mainly white, middle-class women—into effective, modern-age homemakers who saw joy, not drudgery, in their domestic tasks, she notes that the phenomenal popularity of Peg Bracken's 1960 cookbook, *The I Hate to Cook Book*, attests to the limitations of this kind of indoctrination. At the same time, she explores the proliferation of bachelor cookbooks aimed at "the man in the kitchen" and the biases they display about male and female abilities, tastes, and responsibilities. Neuhaus also addresses the impact of World War II rationing on homefront cuisine; the introduction of new culinary technologies, gourmet sensibilities, and ethnic foods into American kitchens; and developments in the cookbook industry since the 1960s. More than a history of the cookbook, *Manly Meals and Mom's Home Cooking* provides an absorbing and enlightening account of gender and food in modern America. "An engaging analysis . . . Neuhaus provides a rich and well-researched cultural history of American gender roles through her clever use of cookbooks." —Sarah Eppler Janda, *History: Reviews of New Books* "With sound scholarship and a focus on prescriptive food literature, *Manly Meals* makes an original and useful contribution to our understanding of how gender roles are institutionalized and perpetuated." —Warren Belasco, senior editor of *The Oxford Encyclopedia of American Food and Drink* "An excellent addition to the history of women's roles in America, as well as to the history of cookbooks." —Choice

glenda cleveland documentary: *Police Against the Movement* Joshua Clark Davis, 2025-10-07 A bold retelling of the 1960s civil rights struggle through its work against police violence—and a prehistory of both the Black Lives Matter and Blue Lives Matter movements that emerged half a century later *Police Against the Movement* shatters one of the most pernicious myths about the 1960s: that the civil rights movement endured police violence without fighting it. Instead, as Joshua Clark Davis shows, activists from the Congress of Racial Equality and the Student Nonviolent Coordinating Committee confronted police abuses head-on, staging sit-ins at precinct stations, picketing outside department headquarters, and blocking city streets to protest officer misdeeds. In return, organizers found themselves the targets of overwhelming political repression in the form of police surveillance, infiltration by undercover officers, and retaliatory prosecutions aimed at discrediting and derailing their movement. The history of the civil rights era abounds with accounts of physical brutality by county sheriffs and tales of political intrigue and constitutional violations by FBI agents. Turning our attention to municipal officials in cities and towns across the US—North, South, East, and West—Davis reveals how local police bombarded civil rights organizers with an array of insidious weapons. More than just physical violence, these economic, legal, and reputational attacks were designed to project the illusion of color-blind law enforcement. The civil rights struggle against police abuses is largely overlooked today, the victim of a willful campaign by local law enforcement to erase their record of repression. By placing activism against state violence at the center of the civil rights story, *Police Against the Movement* offers critical insight into the power of political resistance in the face of government attacks on protest.

glenda cleveland documentary: *Soundies and the Changing Image of Black Americans on Screen* Susan Delson, 2021-12-07 In the 1940s, folks at bars and restaurants would gather around a Panoram movie machine to watch three-minute films called Soundies, precursors to today's music videos. This history was all but forgotten until the digital era brought Soundies to phones and computer screens—including a YouTube clip starring a 102-year-old Harlem dancer watching her younger self perform in Soundies. In *Soundies and the Changing Image of Black Americans on Screen: One Dime at a Time*, Susan Delson takes a deeper look at these fascinating films by focusing on the role of Black performers in this little-known genre. She highlights the women performers, like Dorothy Dandridge, who helped shape Soundies, while offering an intimate look at icons of the age, such as Duke Ellington and Nat King Cole. Using previously unknown archival materials—including

letters, corporate memos, and courtroom testimony—to trace the precarious path of Soundies, Delson presents an incisive pop-culture snapshot of race relations during and just after World War II. Perfect for readers interested in film, American history, the World War II era, and Black entertainment history, Soundies and the Changing Image of Black Americans on Screen and its companion video website (susandelson.com) bring the important contributions of these Black artists into the spotlight once again.
