Unlike previous studies of American literature and film, which emphasize particular authors like Edith Wharton and Nathaniel Hawthorne, particular texts like *Moby-Dick*, particular literary periods like the American Renaissance, or particular genres like the novel, this volume considers the multiple functions of filmed American literature as a cinematic genre in its own right-one that reflects the specific political and aesthetic priorities of different national and historical cinemas even as it plays a decisive role in defining American literature for a global audience.

historical american writings ebook: *Nineteenth-Century American Literature and the Discourse of Natural History* Juliana Chow, 2021-11-18 *Nineteenth-Century American Literature and the Discourse of Natural History* illuminates how literary experimentation with natural history provides penumbral views of environmental survival. The book brings together feminist revisions of scientific objectivity and critical race theory on diaspora to show how biogeography influenced material and metaphorical concepts of species and race. It also highlights how lesser known writers of color like Simon Pokagon and James McCune Smith connected species migration and mutability to forms of racial uplift. The book situates these literary visions of environmental fragility and survival amidst the development of Darwinian theories of evolution and against a westward expanding American settler colonialism.

historical american writings ebook: *A History of American Literature (Classic Reprint)* William B. Cairns, 2018-02-06 Excerpt from *A History of American Literature* This book attempts to trace within reasonable compass the course of literary development in America, and to present the most significant facts regarding American authors and their works. It places greatest emphasis on general movements because American literature is first of all important as an expression of national life. There are few American writings that require careful analysis and merit intensive study as masterpieces. But in a nation where education has from the first been so generally diffused, literary attempts of slight artistic merit may reflect not only the obvious changes in national life and ideals, but subtler tendencies and aspirations. For this reason attention is given not only to the few greater writers, but to many others whose works, though less important in themselves, are sometimes even more significant. The plan of the book and the decision what to include and what to exclude have been influenced by the author's experiences with college classes but an attempt has been made to meet the wants of the general reader as well as those of the systematic student. In tracing tendencies and movements it has been necessary to adopt a geographical classification of authors; and this has sometimes been carried beyond the point where it is significant. It is a matter of the

greatest importance whether an author represents the Spirit of Puritan New England or the spirit of Cavalier Virginia; it is of little importance whether he chances to write in New Hampshire or in Vermont. For convenience, however, smaller as well as larger groupings have been made on the basis of residence. In adopting this plan the author wishes to disclaim any intention of over-emphasizing sectional differences. historical american writings ebook: *Resistance and the Sermon in American Literature* Matthew Smalley, 2024-05-30 With seemingly obsessive regularity, American authors, from the mid-nineteenth century to the present, evoke the sermon at culturally loaded moments in their works, deploying the form to underscore the cultural work they imagine their novels or poetry to perform. Examining this longstanding tradition of "literary preaching," this book draws on literary applications of design theory to provide a nuanced account of American literature's complex, anxious, and persistent engagement with the Protestant sermon. Analyzing literary preaching as a transhistorical form that simultaneously attracts and repels authors, Smalley demonstrates how major US writers—Ralph Waldo Emerson, Walt Whitman, Nathaniel Hawthorne, Rebecca Harding Davis, William Faulkner, Zora Neale Hurston, and Toni Morrison—have subverted the sermon's predominantly religious content in order to reimagine profound moments of reform in a political, cultural, and aesthetic mode. This study elucidates new lines of literary kinship, offers fresh readings of familiar works, and establishes literary preaching as an undertheorized but significant tradition in American literature.

historical american writings ebook: Minimalism and Affect in American Literature, 1970-2020 Oliver Haslam, 2024-09-05 Theorizes the development of a minimalist mode in American fiction since 1970, frequently seen to interrogate US postmodernity. *Minimalism and Affect in American Literature, 1970-2020* responds to existing studies of literary minimalism by pursuing three original and interrelated objectives. It provides a more inclusive and precise definition of minimalism that enables further inquiry into the mode. It also exposes the presence of minimalism beyond critical demarcations that attempt to limit the aesthetic to a particular school, medium, movement, form or decade. Finally, it argues that writers of American literary minimalism are uniquely privileged in their ability to formalize precarity and threatening cultural currents into the fragile construct that is ordinary life. Building upon theories of affect and the everyday, *Minimalism and Affect in American Literature, 1970-2020* analyses minimalist aesthetics within the works of canonical minimalists alongside writers more frequently associated with other movements. Through readings of Ernest Hemingway, Joan Didion, Raymond Carver, Paul Auster and Don DeLillo, among others, and cultural phenomena ranging from sedation to telephony, this book exposes the persistence and political importance of minimalism within American literature from the 20th century into the 21st.

historical american writings ebook: Studying and Teaching W.C. Faulkner, William Faulkner, and Digital Literacy Koichi Fujino, 2017-11-22 This book explores the ways to teach the literary works of William Clark Falkner and William Faulkner to ESL (English as a Second Language) students in today's digital environment. William Faulkner's great-grandfather, William Clark Falkner, wrote romantic literary works, and William Faulkner critically uses the motifs of his great-grandfather's works to establish his literary world. Applying Mikhail Bakhtin's dialogical theory, this book theoretically explains how these two authors imagine the social formations of the American South differently in their literary works. The coined term, social combination—which is defined as the individuals' mutual effort to have equal relationships for a certain time—is used as a key term to examine how these two authors depict the characters' personal relationships. William Faulkner employs his characters' social combination as a resistance against the American South's romantic illusions that are represented by William Clark Falkner's literary works. William Faulkner's historical perspective is beneficial for today's ESL students, who explore their new egalitarian formations in their digitally expanded world. The last part of this study outlines how an American literary teacher can connect the works of William Clark Falkner and William Faulkner when teaching ESL students by using today's digital environment. Using three digital platforms—Moodle, WordPress, and Google Drive—a teacher composes egalitarian relationships among class members and inspires students' autonomous discussion on these two authors' works. Through these activities, ESL students are expected to comprehend that the literature of the American South is not only the historical development of the foreign region, but the phenomenon that is connected to their own social formations.
