Introduction to Hanafi Fiqh in English

The Hanafi school of Islamic jurisprudence, known as Hanafi Fiqh, is the most widespread among the four major Sunni schools. For English-speaking Muslims, the demand for accessible and authentic Hanafi Fiqh guidance has grown significantly. Hanafi Fiqh English resources serve as a bridge for those who seek understanding but may not have knowledge of Arabic or Urdu. This section explores the importance of making Hanafi legal principles available in English, the role these resources play in educating the global Muslim community, and the challenges faced in translation and interpretation.

Historical Background of the Hanafi School

The Hanafi school derives its name from Imam Abu Hanifa (699–767 CE), one of the earliest and most influential Islamic jurists. Born in Kufa, Iraq, Imam Abu Hanifa was renowned for his analytical reasoning and systematic approach to jurisprudence. The Hanafi school quickly spread across regions

such as Central Asia, the Indian subcontinent, Turkey, and the Balkans, becoming the predominant school in these areas. The school's development was shaped by the cultural and social diversity of the Muslim world, allowing it to adapt over centuries while maintaining its core legal methodology. The historical spread of Hanafi Fiqh contributed to its vast literature, much of which has been translated into English for global accessibility.

Core Principles and Methodology of Hanafi Fiqh

Hanafi Fiqh is distinguished by its structured methodology in deriving legal rulings. It emphasizes the use of reason, analogy, and consensus within the boundaries of the Qur'an and Sunnah. Understanding these principles is essential for anyone studying Hanafi Fiqh in English.

Sources of Hanafi Law

The Hanafi school relies on a hierarchy of sources to formulate legal judgments:

- The Qur'an: The primary and most authoritative source.
- The Sunnah: Traditions and practices of the Prophet Muhammad (peace be upon him).
- Ijma (Consensus): Agreement among qualified scholars of the Muslim community.
- Qiyas (Analogical Reasoning): Applying established laws to new cases using analogy.
- Istihsan (Juristic Preference): Departing from strict analogy for public interest or fairness.
- Urf (Custom): Recognizing local customs not contradicting Islamic principles.

Characteristics of Hanafi Legal Reasoning

Hanafi jurists are known for their flexibility and inclusiveness. Their approach often accommodates diverse circumstances and new challenges, making the school adaptable in different regions and eras. The school prioritizes public welfare and consistently reviews established practices in light of changing social realities.

Key Areas of Hanafi Jurisprudence

Hanafi Fiqh encompasses a wide range of subjects, offering detailed guidance for all aspects of religious and social life. English texts on Hanafi Fiqh help clarify these topics for global audiences.

Worship (Ibadah)

This includes rules related to purification, prayer, fasting, zakat (charity), and pilgrimage. The Hanafi approach details the conditions, pillars, and recommended practices for each act of worship.

Personal and Family Law

Hanafi Fiqh outlines marriage, divorce, inheritance, child custody, and related matters. These rulings focus on preserving family integrity and social justice, with clear protocols for resolving disputes.

Commercial Transactions (Muamalat)

The school offers comprehensive guidelines on trade, contracts, business ethics, loans, and financial dealings. The principles ensure transparency, honesty, and mutual benefit in economic activities.

Criminal Law and Ethics

Hanafi legal tradition addresses criminal offenses, penalties, and codes of conduct. Emphasis is placed on evidence, due process, and the protection of individual rights.

Comparing Hanafi Fiqh to Other Sunni Schools

The Hanafi school is one of four major Sunni traditions, alongside Maliki, Shafi'i, and Hanbali. Each school has unique characteristics, but all share the core sources of Islamic law. Understanding the distinctions between these schools helps contextualize Hanafi Fiqh and its global prevalence.

Distinctive Features of the Hanafi School

- Greater use of analogical reasoning (qiyas) and juristic preference (istihsan).
- Wider acceptance of local customs (urf) in legal rulings.
- Flexibility in ritual practices to accommodate diverse communities.
- Historical influence on legal systems in South Asia, Central Asia, and the Ottoman Empire.

Similarities and Differences with Other Schools

All four Sunni schools agree on the essential beliefs and pillars of Islam. However, they may differ in secondary details, such as prayer methodologies, inheritance rules, or contract requirements. These differences enrich Islamic jurisprudence and reflect the diversity of the Muslim world.

Accessing Hanafi Fiqh Resources in English

hanafi fiqh english: *Al - Hidayah (The Guidance)* Burhan Ad-Din Al-Farghani Al-Marghinani, 2020-10-19 The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslims jurist to issue authentic and reliable rulings on Islamic law according to the school of Imam Abu Hanifa (d 150H/767CE). The Hidayah commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated into English by Charles Hamilton in 1791. Around 70 huge commentaries, some spread over more than a dozen volumes have been written on it. The number of explanatory glosses is in thousands. Comprehensive in content and conveniently organized, with the publication of this all previous works that discussed Islamic jurisprudence according to the Hanafi law become outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the Hidayah. This landmark publication of the Hidayah not only has been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written. The author, Shaykh Al Islam, Burhan Al-Din Marghanani (d 593 AH/ 1197 CE) was considered to be the leading jurist of the Muslim world in his times. The hidayah is justly celebrated as the most practical and useful summary compilation of Hanafi jurisprudence. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated by Charles Hamilton in 1791. A new translation into modern English has been long overdue. This translation by Imran Ahsan Khan Nyazee is both precise and straight forward. With his knowledge of Islamic law and jurisprudence combined with his command of both the Arabic and English languages, he has conveyed the meaning of the original with great clarity. The hidayah is a dense work, intended for use in teaching Hanafi

hanafi fiqh english: The Paradox of Islamic Finance Ryan Calder, 2024-08-06 How the booming Islamic finance industry became an ultramodern hybrid of religion and markets In just fifty years, Islamic finance has grown from a tiny experiment operated from a Volkswagen van to a thriving global industry worth more than the entire financial sector of India, South America, or Eastern Europe. You can now shop with an Islamic credit card, invest in Islamic bonds, and buy Islamic derivatives. But how has this spectacular growth been possible, given Islam's strictures against interest? In *The Paradox of Islamic Finance*, Ryan Calder examines the Islamic finance boom, arguing that shariah scholars—experts in Islamic law who certify financial products as truly Islamic—have made the industry a profitable, if controversial, hybrid of religion and markets. Critics say Islamic finance merely reproduces conventional interest-based finance, with the shariah scholars' blessing. From an economic perspective, they are right: the most popular Islamic products act like conventional interest-bearing ones, earning healthy profits for Islamic banks and global financial heavyweights like Deutsche Bank and Goldman Sachs. Yet as Calder shows by delving into the shariah scholars' day-to-day work, what seem like high-tech work-arounds to outsiders carry deep and nuanced meaning to the scholars—and to the hundreds of millions of Muslims who respect their expertise. He argues that shariah scholars' conception of Islamic finance is perfectly suited to the age of financialization and the global efflorescence of shariah-minded Islam.

hanafi fiqh english: Defining Islam for the Egyptian State Jacob Skovgaard-Petersen, 2021-10-11 This book traces the history of the Dār al-Iftā, the Egyptian State Mufti's administration, from its inception in the 1890s to the present. Often uncomfortably positioned between a state bureaucracy and an emerging Muslim public concerned with the transmission of Islamic values, the various State Muftis have been striving to reinterpret Islamic law and demonstrate its relevance in the modern age. The history of the Dār al-Iftā thus provides a rare insight into major themes of 20th-century Islamic thinking. Four case studies demonstrate how fatwas can be used as sources for

legal, social, intellectual and mentality history. Defining Islam for the Egyptian State will be of great interest to students of Islamic law and social and intellectual history of the modern Middle East.

An-Na'im explores the practice of the Shari'a, commonly known as Islamic Family Law. An-Na'im shows that the practical application of Shari'a principles is often modified by theological differences of interpretation, a country's particular customary practices, and state policy and law.

Die Forschung der Arbeitsgruppe ist von der Grundannahme geleitet, dass Formen und Funktionen der Unterrichtung islamischer Theologie nicht bereits in ihr selbst angelegt sind, sondern vor dem Hintergrund der breiteren geistigen, gesellschaftlichen und politischen Rahmenbedingungen ausdifferenziert werden. Die Beiträge beleuchten die Lehr- und Lernformen islamischer Theologie in Geschichte und Gegenwart aus unterschiedlichen Perspektiven. Zum einen sollen dadurch die unterschiedlichen Kontexte, Ressourcen und Praktiken der theologischen Unterweisung und des Lernens herausgearbeitet werden, zum anderen wird ein Beitrag zur Herausbildung eines reflektierten Selbstverständnisses der Islamischen Theologie in Deutschland geleistet. Dabei kommen muslimische Theologinnen und Theologen unterschiedlichster Ausrichtung ebenso zu Wort wie Islam- und Sozialwissenschaftler/innen. In unterschiedlichen Fallstudien werden Grundlagen von Bildung und Wissen, die Übertragbarkeit islamischer Lehr- und Lernkulturen in das deutsche Wissenschaftssystem, Formen und Funktionen des neuen Faches sowie (politische) Erwartungen daran thematisiert.

hanafi fiqh english: *Islamic Wealth Management* Mohamed Ariff, Shamsheer Mohamad, 2017-12-29 From an Islamic perspective, although the ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

hanafi fiqh english: *Islamic Algorithms* Gary R. Bunt, 2024-04-04 This book examines how Islam is digitally mediated at a time of technological change, enhanced digital literacy and proactive engagement in Islamic online content by authorities and influencers. What is the impact of this on societies, believers and understandings of Islam? *Islamic Algorithms* provides a thorough exploration of Cyber Islamic Environments (CIEs) through representations of significant historical and religious influences across contexts and diversities. This ranges from jinn and angels through to contemporary influencers. Gary R. Bunt raises issues of how digital content is embedded in contemporary understandings of Islam and their dissemination. Bunt shows how the interpretation of pivotal figures in Islam – including Muhammad and his family, scholars and imams – can be informed by new generations of digital influences, such as apps and social networking, which have become primary sources of information for many Muslims globally.

hanafi fiqh english: *Routledge Handbook of Islamic Ritual and Practice* Oliver Leaman, 2022-06-08 Ritual and practice are one of the most distinctive features of religion, and they are linked with its central beliefs. Islam is no exception here, and this Handbook covers many aspects of those beliefs and practices. It describes the variety of what takes place but mainly why, and what the implications of both the theory and practice have for our understanding of Islam. The book includes accounts of prayer, food, pilgrimage, mosques, and the various legal and doctrinal schools that exist within Islam, with the focus on how they influence practice. The volume is organized in terms of texts, groups, practices, places, and others. An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today.

hanafi fiqh english: *The Language of Secular Islam* Kavita Datla, 2013-01-31 During the turbulent period prior to colonial India's partition and independence, Muslim intellectuals in Hyderabad sought to secularize and reformulate their linguistic, historical, religious, and literary traditions for the sake of a newly conceived national public. Responding to the model of secular education introduced to South Asia by the British, Indian academics launched a spirited debate about the reform of Islamic education, the importance of education in the spoken languages of the country, the shape of Urdu and its past, and the significance of the histories of Islam and India for their present. *The Language of Secular Islam* pursues an alternative account of the political disagreements between Hindus and Muslims in South Asia, conflicts too often described as the product of primordial and unchanging attachments to religion. The author suggests that the political struggles of India in the 1930s, the very decade in which the demand for Pakistan began to be articulated, should not be understood as the product of an inadequate or incomplete secularism, but as the clashing of competing secular agendas. Her work explores negotiations over language, education, and religion at Osmania University, the first university in India to use a modern Indian language (Urdu) as its medium of instruction, and sheds light on questions of colonial displacement and national belonging. Grounded in close attention to historical evidence, *The Language of Secular Islam* has broad ramifications for some of the most difficult issues currently debated in the humanities and social sciences: the significance and legacies of European colonialism, the inclusions and exclusions enacted by nationalist projects, the place of minorities in the forging of nationalism, and the relationship between religion and modern politics. It will be of interest to historians of colonial India, scholars of Islam, and anyone who follows the politics of Urdu.

hanafi fiqh english: *The Madrasa in Asia* Farish A. Noor, Yoginder Sikand, Martin van Bruinessen, 2008 Summary: Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan.--Publisher description.

hanafi fiqh english: *New Approaches to the Analysis of Jihadism* Rüdiger Lohker, 2012 Jihadism has been an important issue of public discussions since 9/11. Internet media have been used by Jihadis as means of communication, propaganda, recruitment, and even training purposes. In this volume, the processes of interaction on Jihadi internet sites are analysed. Particular attention lays on the mechanisms of spreading propaganda via the internet by diverse technical means. The process of transformation of Islamic knowledge into Jihadi knowledge, the rhetorics of videos, the development of South Asian Jihadi organisations and some conceptual issues are discussed.

hanafi fiqh english: *Governance of Islam in Pakistan* Sarah Holz, 2022-10-15 Modern states increasingly seek to regulate religious expression, practice and discourse. This is profoundly evident at many levels of Islamic policy interaction: from debates about the banning of the Muslim face-veil in Europe to civic re-education programmes for Muslim citizens in China. *Governance of Islam in Pakistan* provides a systematic account of how interactions between multiple public and private bodies direct the regulation and standardisation of Islam in one of the largest Muslim-majority states in the world. Analysis centres on the institutional development of the Council of Islamic Ideology, a constitutional body tasked with issuing advice to the executive and legislature about the compatibility of laws with Islamic principles. Based on archival material that has been subject to little scholarly attention, and interviews with Council members and staff of other state bodies, Sarah Holz proposes governance as an analytical framework to study the negotiation of religious expression, practice and discourse. In contrast to the established Islamisation narrative which generally labels such religious institutions as mere rubberstamps in the process of policy-making, the study of governance offers an alternative approach that enables examination of the dynamic competition and cooperation among multiple actors. Through collective interaction the Council and

other relevant bodies are active players in the governance of Islam. Insights gained from analysis of the ideational, structural and functional evolution of the Council offers a Global South perspective on liberal democratic ideas about the functionality of the modern state and its institutional structure. Issues of economic, cultural and local/international political influence bear strongly in governance analysis. Engagement with the governance policy tool has applicability across the social sciences, but is particularly relevant for South Asian/Near and Middle East Studies.

hanafi fiqh english: Shari'ah M. Haris Z Deen, 2015-08-27 Muslims form one-fifth of the world population, yet people know very little about Muslims, their culture, religion, and history. This is not a textbook on Islamic law the Shariah but it analyzes the Shariah in its correct perspective as a way of life that a Muslim is required to follow in order to gain the pleasure of God, seeking His rewards and avoiding the punishments, thus introducing to those non-Muslims the correct understanding of the Shariah. After 9/11 and 7/7, Shariah, in any form, has become very suspicious, and a new word, Islamophobia, has entered the English lexicon. Against this background, this book examines the concept of Islamic law that can be safely accommodated within the British legal system. A strong case has been made for legal pluralism that can be introduced without affecting human rights, and a robust case has been made for allowing Muslim matrimonial and family matters to be settled using the British Arbitration Act of 1996

hanafi fiqh english: Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times. Through the entire twentieth century this philosophy unfolded and flourished, following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge, transforming our way of seeing the world, our actions toward others, and our lives. Phenomenology's universal spread has, however, oftentimes diluted its original sense, even beyond recognition, and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology, to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology, we propose returning to its foundational source in Husserl's project of a 'universal science', unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld, and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy, to the phenomenological life engagements so vigorously advocated by Husserl, to the life-significant issues phenomenology addresses and to how it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned, horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.
