immigrant identity book online: Migration im karolingischen Italien Paul Predatsch, 2021-05-10 Obwohl die Auffassung, Ethnien seien rein soziale Gebilde, in der Forschung allgemein affirmiert wird, gehen Untersuchungen oft unbelegt von ihrer großen Bedeutung für die Sozialverhältnisse des Frühmittelalters aus. Im Zuge der karolingischen Eroberungen des 8. Jahrhunderts in Italien sowie der Erschließung jener Regionen etwa kamen sicher viele Menschen nach Italien, von denen einige geistliche oder weltliche Ämter erhielten oder in unterschiedlichen Formen einen neuen Lebensmittelpunkt fanden. Die verfügbaren Quellen zu diesen Prozessen sind nun mit verschiedenen qualitativen und quantitativen Methoden neu ausgewertet worden, darunter eine migrationssoziologisch ausgerichtete Prosopographie der italischen Eliten, Urkundenstatistik und Analyse der Landübertragungen zwischen Landbesitzenden der Lucchesia und dem Bistum von Lucca oder eine Verbindung aus Historischer Mikrosemantik und Corpuslinguistik. In den Sozialverhältnissen vor Ort, so zeigt sich, interagierten Personen unterschiedlicher Herkunft auf ganz verschiedene Weise, ethnische Zuordnungen und auch die Migration selbst erweisen sich dabei jedoch als nachrangig gegenüber der Einbindung in Herrschaftszusammenhänge und der lokalen Dynamik der Sozialverhältnisse.

immigrant identity book online: Migration and Identity Linda Hill, AI, 2025-02-27 Migration and Identity explores how the movement of people, particularly indigenous populations, across borders reshapes their cultural and personal identities. It examines the profound impact of migration as a catalyst for cultural transformation, leading to both resilience and displacement. The book highlights the disruption of traditional social structures and the emergence of hybrid identities, demonstrating that while migration inevitably alters cultural landscapes, indigenous communities actively negotiate their identities through adaptation, resistance, and reinvention. The book is structured to provide a comprehensive understanding of the effects of migration beginning with core concepts, exploring historical contexts, and focusing on specific case studies. For example, diasporic communities often employ strategies to maintain their cultural heritage through language, art, and rituals. The book uses ethnographic fieldwork, oral histories, archival documents, and demographic data to provide a nuanced understanding of cultural preservation. What makes this book valuable is its focus on the agency of indigenous peoples, highlighting their resilience in adapting to new environments. It fosters interdisciplinary connections across fields such as anthropology, sociology, and history, offering a holistic perspective in an increasingly globalized world. This approach provides insights relevant to policy-making and organizations supporting indigenous communities, addressing ongoing debates surrounding cultural appropriation and the ethics of migration policies.

immigrant identity book online: Migration, Identity, and Belonging Margaret Franz, Kumarini Silva, 2020-02-17 This volume responds to the question: How do you know when you belong to a country? In other words, when is the nation-state a homeland? The boundaries and borders defining who belongs and who does not proliferate in the age of globalization, although they may not coincide with national jurisdictions. Contributors to this collection engage with how these boundaries are made and sustained, examining how belonging is mediated by material relations of power, capital, and circuits of communication technology on the one side and representations of identity, nation, and homeland on the other. The authors' diverse methodologies, ranging from archival research, oral histories, literary criticism, and ethnography attend to these contradictions by studying how the practices of migration and identification, procured and produced through global exchanges of bodies and goods that cross borders, foreclose those borders to (re)produce, and (re)imagine the homeland and its boundaries.

immigrant identity book online: Internet und Migration Uwe Hunger, Kathrin Kissau, 2009-10-08 Die Information und Interaktion von Migranten findet inzwischen immer häufiger über das Internet statt. Auf Websites, in Foren und Chats informieren sie sich über soziale und politische Themen beider Länder, diskutieren und nehmen an Online-Petitionen, Abstimmungen oder virtuellen Veranstaltungen teil. Hierdurch bilden sich zum Teil neue ethnische, diasporische bzw. transnationale Online-Gemeinschaften. Insgesamt übernimmt das Internet und dessen

Nutzungsmöglichkeiten so eine wichtige Funktion für die gesellschaftliche Partizipation von Migranten im Aufnahmeland und auch für die Entwicklung ihrer Herkunftsländer.

immigrant identity book online: Museums, Migration and Identity in Europe Christopher Whitehead, Susannah Eckersley, Katherine Lloyd, Rhiannon Mason, 2016-03-09 The imperatives surrounding museum representations of place have shifted from the late eighteenth century to today. The political significance of place itself has changed and continues to change at all scales, from local, civic, regional to national and supranational. At the same time, changes in population flows, migration patterns and demographic movement now underscore both cultural and political practice, be it in the accommodation of 'diversity' in cultural and social policy, scholarly explorations of hybridity or in state immigration controls. This book investigates the historical and contemporary relationships between museums, places and identities. It brings together contributions from international scholars, academics, practitioners from museums and public institutions, policymakers, and representatives of associations and migrant communities to explore all these issues.

immigrant identity book online: Migration, Education and Translation Vivienne Anderson, Henry Johnson, 2019-11-08 This multidisciplinary collection examines the connections between education, migration and translation across school and higher education sectors, and a broad range of socio-geographical contexts. Organised around the themes of knowledge, language, mobility, and practice, it brings together studies from around the world to offer a timely critique of existing practices that privilege some ways of knowing and communicating over others. With attention to issues of internationalisation, forced migration, minorities and indigenous education, this volume asks how the dominance of English in education might be challenged, how educational contexts that privilege bi- and multi-lingualism might be re-imagined, what we might learn from existing educational practices that privilege minority or indigenous languages, and how we might exercise 'linguistic hospitality' in a world marked by high levels of forced migration and educational mobility. As such, it will appeal to scholars across the social sciences with interests in education, migration and intercultural communication.

immigrant identity book online: The Discursive Construction of Migrant Identities Charlotte Taylor, Simon Goodman, Stuart Dunmore, 2025-01-23 This edited volume explores how migrant identities are created and constructed in discourse both by migrants themselves and by others. The contributors reveal how migrant identities are discursively constructed by those with lived experiences of mobility and those who view themselves as part of the 'host' population. This dual focus responds to a lack of previous research examining migration representation from both perspectives. Readers will discover how the discursive constructions of migrant identities in different domains relate to one another. The case studies include a broad range of text types from film, government documents and narrative accounts to newspapers and Twitter. They also cover a wide range of contexts including Argentina, Australia, Italy, Romania, and UK, making this is a more comprehensive account of the framing of migration than has been previously accomplished. The chapters all follow the same structure to help the reader learn how to investigate migration discourses using qualitative and quantitative (critical) discourse analytic approaches.

immigrant identity book online: Migration und Traditionsbildung Ursula Apitzsch,

2013-07-01 Der Blick auf Tradition ist in der in Bewegung geratenen Geschichte nach dem Ende des Kalten Krieges, der Neukonstitution Europas und der universalen Globalisierung weniger ein Blick auf Konserviertes oder Überkommenes, sondern ein plötzliches Innwerden der Notwendigkeit des steten Tradierens der akkumulierten Kulturgüter und damit auch auf die Möglichkeit für einen neuartigen Zugang neuer Kulturträger (im Sinne Karl Mannheims). Dies bedingen nicht nur der kontinuierliche Generationenwechsel und das Auf- und Absteigen neuer sozialer Gruppen, die den Prozeß des Tradierens zu allen Zeiten prägten, sondern vor allem die seit dem Zweiten Weltkrieg andauernden und sich verändernden Migrationsprozesse.

immigrant identity book online: Asian Women, Identity and Migration Nish Belford, Reshmi Lahiri-Roy, 2020-12-29 This book explores the influence which education and migration experiences have on women of Indian origin in Australia and the United Kingdom when (re)negotiating their identities. The intersections of migration and transnationalism are critically examined through multiple theoretical lenses across three thematic domains encompassing socio-historical discourses, postcolonial theory, theories on intersectionality and interceptionality, emotional reflexivity and affects. In doing so, the book highlights the ambiguities around gendered access and equity to education, migration experiences, the acculturation process, dilemmas surrounding transnationality and negotiation of identities, belonging and struggles inherent in simultaneously maintaining ties with home and new social fields. Chapters highlight the practical, methodological, and substantive aspects of affective dimensions and voice with a critical understanding of different tensions, challenges, complexities and conflicts underlining the stories. The book raises the question of voice and agency in advocating emotion-based writing in recalibrating conditions representing gendered subjective multivocality of women in breaking silences. Presenting non-Western perspectives through fragmented and often marginalised accounts within transnational and global spaces, this book will be of interest to researchers in the fields of Sociology, Gender Studies, Migration, Transnational and Diaspora studies, Sociology of Education, Feminist Studies, Cultural Studies, Literature and Cultural Geographies.

immigrant identity book online: Negotiating Political Identities Daniel Faas, 2016-04-22 Globalization, European integration, and migration are challenging national identities and changing education across Europe. The nation-state no longer serves as the sole locus of civic participation and identity formation, ceasing to have the influence it once had over the implementation of policies. Drawing on rich empirical data from four schools in Germany and Britain this groundbreaking book is the first study of its kind to examine how schools mediate government policies and create distinct educational contexts to shape youth identity negotiation and integration processes. Negotiating Political Identities will appeal to educationists, sociologists and political scientists whose work concerns issues of migration, identity, citizenship and ethnicity. It will also be an invaluable source of evidence for policymakers and professionals concerned with balancing cultural diversity and

social cohesion in such a way as to promote more inclusive citizenship and educational policies in multiethnic, multifaith schools.

immigrant identity book online: Indian Transnationalism Online Ajaya Kumar Sahoo, Johannes G. de Kruijf, 2016-05-23 Present-day migration takes place in a world characterized by the compression of time and space, with cheaper air travel and the existence of new communication technologies - the internet in particular - making it easier to stay in contact with the places, people and cultures that one has left. This book investigates the online organization of, and exchanges within, the global Indian diaspora. Bringing together research from around the world and presenting studies drawn from the US, Europe and India, it engages with theoretical and methodological debates concerning the shaping and transformation of migrant culture in emerging sites of sociality, and explores issues such as religion, citizenship, nationalism, region and caste as they relate to Indian identity in global, transnational contexts. With detailed empirical case studies showing both how members of the Indian diaspora connect with one other and 'life at home' and how institutions in India maintain such links, Indian Transnationalism Online sheds light on the ways in which information and communication technology functions as both a catalyst and indicator of contemporary socio-cultural change. As such it will be of interest to sociologists, anthropologists, political scientists and studies of cultural studies working in the areas of migration, transnationalism and ethnic studies.

immigrant identity book online: Yārsān of Iran, Socio-Political Changes and Migration S. Behnaz Hosseini, 2020-02-07 This book examines how socio-political surroundings have affected the evolution of Yārsāni religious thought and why the Yārsāni religious belief, despite its fundamental disagreement with Islamic tenets, has been affiliated with Islam. It also considers the historical context and socio-religious milieu in which the Yārsāni belief appropriates religious forces to survive, how Yārsānis experience their religion in Islamic society, and what differences are significant in their lived experiences. The author explores how the experience of worship influences real life for the Yārsānis from the perspectives of sociology, behaviorism, content analysis, cultural studies and ethnography in Iran and diaspora with focus on Sweden. Yārsāni followers became known as those who "don't tell secrets," primarily because they were not allowed to promote and advertise their religion in public, but recently have started to reveal their religion, especially in social media. This book discovers the transformation of this religion, and in particular in which context an individual can change the content of religion, and bring about new ideas regarding religion and belief.

immigrant identity book online: Social Media in the Lives of Young Connected Migrants Xinyu Zhao, 2023-12-12 Digital media are a key part of everyday social life for international migrants. However, we don't know enough about how these migrants critically understand and cope with the cultures and infrastructures of ubiquitous connectivity while on the move. *Social Media in the Lives of Young Connected Migrants* explores and theorises what it means for young migrants to live in a digital age. Presenting a richly detailed analysis of Chinese international students' everyday social media practices, the book unravels the meanings of digital connectivity in general and how contemporary mobile young generations respond to such changes. Drawing on ethnographic and interview data, this book highlights the enabling aspects of connective media in migration journeys and shows how and why young Chinese migrants manage or even resist being connected. With close attention to diasporic, intercultural, family, and professional migrant identities and relationships, the author provides a nuanced account of living with digital media in everyday settings. Focusing on the boundary practices associated with social media, the book offers a unique analytical framework through which to capture the complex intersections of digital communication technologies and migrant social life. This volume will appeal to students and scholars interested in researching

Chinese diasporas, digital migration, and youth cultures.

immigrant identity book online: Public and Political Discourses of Migration Amanda Haynes, Martin J. Power, Eoin Devereux, Aileen Dillane, James Carr, 2016-04-14 Popular, political and media discourses frame the issue of migration and shape how and when it enters the public and political consciousness. These discourses are of crucial importance as they influence both the general public's perception of migration and the policies which regulate both the act of migration itself and migrant residents. Public and Political Discourses of Migration brings together an interdisciplinary group of established and emerging scholars, whose work interrogates the relationship between discourse and migration. Through the application of a variety of theoretical lenses drawn from the broad canon of discourse studies, each contribution unpicks the productive power of discourse in shaping the reality of migration, migration policy and migrant lives in the twenty-first century. The cases examined emerge, as do their authors, from a wide spectrum of national, political and cultural contexts. They are linked by their fundamental questioning of 'common sense' and ahistorical approaches to migration. They address the question of whose interests are served by prevailing discourses and the structures they underpin. Ultimately, they 'make strange' accepted 'truths' regarding migration in the twenty-first century.
