horror novel pdf: American Horror Fiction and Class David Simmons, 2017-09-15 In this book, Simmons argues that class, as much as race and gender, played a significant role in the development of Gothic and Horror fiction in a national context. From the classic texts of Edgar Allen Poe and Nathaniel Hawthorne right through to contemporary examples, such as the novels of Stephen King and Stephenie Meyer's Twilight Series, class remains an ever present though understudied element. This study will appeal to scholars of American Studies, English literature, Media and Cultural Studies interested in class representations in the horror genre from the nineteenth century to the present day.

horror novel pdf: Horror Culture in the New Millennium Daniel W. Powell, 2018-11-23 Horror Culture in the New Millennium: Digital Dissonance and Technohorror explores the myriad ways in which technology is altering the human experience as articulated in horrific storytelling. The text surveys a variety of emerging trends and story forms in the field, through both a series of critical essays and personal interviews with scholars, editors, authors, and artists now creating and refining horror stories in the new millennium. The project posits a rationale for the presence of technohorror as a defining concern in contemporary horror literature, marking a departure from the monstrous and spectral traditions of the twentieth century in its depictions of frightful narratives marked by the qualities of plausibility, mundanity, and surprise as we tell stories about what it means to be human. As our culture explores the dichotomies of the born/made, natural/artificial, and human/computer—all while subsumed within a paradigm shift predicated on the transition from the traditions of print to emerging digital communications practices—these changes form the basis for horrific speculations in our texts and technologies. Ultimately, Digital Dissonance: Horror Culture in the New Millennium explores that paradoxical human attraction for peering into the darkness as translated through our lived experiences in an era of rapidly evolving technologies.

horror novel pdf: All Kinds of Scary Jonina Anderson-Lopez, 2023-06-15 Horror fiction--in literature, film and television--display a wealth of potential, and appeal to diverse audiences. The trope of the black man always dies first still, however, haunts the genre. This book focuses on the latest cycle of diversity in horror fiction, starting with the release of *Get Out* in 2017, which inspired a new speculative turn for the genre. Using various critical frameworks like feminism and colonialism, the book also assesses diversity gaps in horror fictions, with an emphasis on marketing and storytelling methodology. Reviewing the canon and definitions of horror may point to influences for future implications of diversity, which has cyclically manifested in horror fictions throughout history. This book studies works from literature, film and television while acknowledging that each of the formats are distinct artforms that complement each other. The author compares diverse representation in novels like *The Castle of Otranto*, *Frankenstein*, *Fledgling*, *Broken Monsters* and *Mexican Gothic*. Horror films like *Bride of Frankenstein*, *It Comes at Night*, *Us* and *Get Out* are also examined. Lastly, the author emphasizes the diverse horror fictions in television, like *The Exorcist*, *Fear the Walking Dead*, *The Twilight Zone* and *Castle Rock*.

horror novel pdf: Clowns from Outer Space Michael Dahl, 2020-08 Ella does not like clowns, and Tia's backyard birthday party has way too many of them, and these clowns and their bouncy castle seem extra creepy; so Ella hides and she and Tia watch as the birthday castle, crammed with children and adults, turns into a rocket ship and takes off--leaving Ella wondering just how much Tia knew about this alien abduction.

horror novel pdf: Little Horrors T.S. Kord, 2016-08-08 Zombies, werewolves and chainsaw-wielding maniacs are tried-and-true staples of horror films. But none can match the

visceral dread evoked by a child with an innocent face and a diabolical stare. Cinema's evil children attack our cherished ideas of innocence and our innocent bystander status as the audience. A good horror film is a scary ride--a devil child movie is a guilt trip. This book examines 24 international films--with discussions of another 100--that in effect indict viewers for crimes of child abuse and abandonment, greed, social and ecological negligence, and political and war crimes, and for persistent denial of responsibility for them all. For 75 years evil children have ritually rebuked audiences and, in playing on our guilt, established a horror subgenre that might be described as a blood-spattered rampage on an ethical mission.

horror novel pdf: The Great Recession in Fiction, Film, and Television Kirk Boyle, Daniel Mrozowski, 2013-10-17 The Great Recession in Fiction, Film, and Television: Twenty-First-Century Bust Culture sheds light on how imaginary works of fiction, film, and television reflect, refract, and respond to the recessionary times specific to the twenty-first century, a sustained period of economic crisis that has earned the title the "Great Recession." This collection takes as its focus "Bust Culture," a concept that refers to post-crash popular culture, specifically the kind mass produced by multinational corporations in the age of media conglomeration, which is inflected by diminishment, influenced by scarcity, and infused with anxiety. The multidisciplinary contributors collected here examine mass culture not typically included in discussions of the financial meltdown, from disaster films to reality TV hoarders, the horror genre to reactionary representations of women, Christian right radio to Batman, television characters of color to graphic novels and literary fiction. The collected essays treat our busted culture as a seismograph that registers the traumas of collapse, and locate their pop artifacts along a spectrum of ideological fantasies, social erasures, and profound fears inspired by the Great Recession. What they discover from these unlikely indicators of the recession is a mix of regressive, progressive, and bemused texts in need of critical translation.
