international sunday school lesson pdf: *Discovery Teaching Like Jesus* Kathy Hoppe, Jeff Hoppe, 2020-04-29 *Discovery Teaching Like Jesus* critiques the current assumptions, models, and delivery methods of adult religious education. Based on a constructivist theory, it examines the unique ways in which Jesus proclaimed his message to followers and then applies that to current teaching practices in religious settings. It focuses on adult learning theory (andragogy) and transformative learning while applying the discovery teaching methods in adult spiritual formation classes and groups. The authors identify four ways that Jesus implements constructivist methods: he creates teachable moments, he employs powerful narratives, he sparks curiosity, and he makes his listeners think. Using these techniques as a framework, the authors demonstrate how to use these in adult religious education settings. In the final section, the authors offer suggestions for excellence in teaching through recruiting, training, and supporting reflective teachers. Included in this final section are ways that adult facilitators can use self-reflection and examination to enhance their teaching ability.

international sunday school lesson pdf: Digital Learning in High-Needs Schools Heejung An, David A. Fuentes, 2023-06-21 *Digital Learning in High-Needs Schools* examines the challenges and affordances that arise when high-needs school communities integrate educational technologies into their unique settings. Although remote, blended, and networked learning are ubiquitous today, a number of cultural, economic, and political realities—from the digital divide and digital literacy to poverty and language barriers—affect our most vulnerable and underresourced teachers and students. This book uses critical theory to compassionately scrutinize and unpack the systemic issues that impact high-needs schools' implementation of digital learning tools. Incisive sociocultural analyses across fifteen original chapters explore the intersection of society, technology, people, politics, and education in high-needs school contexts. Informed by real-world cases pertaining to technology infrastructure, formative feedback, Universal Design for Learning, and more, these chapters illuminate how best practices emerge from culturally responsive and context-specific foundations.

international sunday school lesson pdf: Researching Development NGOs Susannah Pickering-Saqqa, 2023-05-23 This book offers a critical insight into how the study of NGOs can be more theoretically grounded and methodologically creative. The role of NGOs in global development has been the focus of considerable research and scholarship for the last four decades. More recently, scholars and NGO practitioners have begun to explore their relationships and how research can better inform practice and vice versa. This book addresses questions arising from such research, including: how different theoretical perspectives can be applied to the study of NGOs; what kinds of data can be used when trying to better understand NGOs; and what methods can be used in studying NGOs. Rather than evaluating the impact of NGO work, this is a book about how researchers and practitioners can better understand what NGOs do and how they operate. Bringing together work from a range of NGO researchers working across diverse disciplines and at varied stages of their academic careers, the collection is supported by recent case studies in the field as well as 'dilemma boxes' and discussion questions in every chapter. As such, *Researching Development NGOs* is an essential resource for postgraduate students of Research Methods in Development Studies, NGOs and Development Management as well as practitioners wanting to find out more about the sector.

international sunday school lesson pdf: The Bloomsbury Handbook of Religious Education in the Global South Yonah Hisbon Matemba, Bruce A. Collet, 2022-02-10 *The Bloomsbury Handbook of Religious Education in the Global South* presents new comparative perspectives on Religious Education (RE) across the Global South. Including 23 chapters written by scholars from the Global North and South, this is the first authoritative reference work on the subject. The handbook is thematically organised into seven sections. The first three sections deal with provision, response to

changes in contemporary society, and decolonizing RE. The next four sections explore young people and RE, perspectives on teachers, RE in higher education, and finally, challenges and opportunities for RE. The term 'Global South' is used here primarily to signify the deep economic divide with the Global North, but the concept is also examined in historical, geographical, political, social and cultural terms, including the indelible influence of religion in all four broadly defined regions. Exploring RE from local, cross-national as well as regional and sub-regional perspectives, the handbook examines RE from its diverse past, present realities, and envisioned future revealing not only tensions, contestations, injustices and inequalities of power, but importantly, how inclusive forms of RE can help solve these problems.

international sunday school lesson pdf: James Farmer Jr. Ben Voth, 2017-04-13 James Farmer Jr.: The Great Debater provides a rhetorical and biographical guide to how the American Civil Rights Movement came into being. It details James Farmer Jr.'s intellectual emergence as a young debater at an HBCU in Marshall, Texas and ultimately chronicles how this led to the emergence of the first non-violent sit-in against segregation in 1942 in Chicago. Farmer was a key founder of the Congress of Racial Equality [CORE] that pioneered the non-violent strategies that would later be used by Martin Luther King. He debated important figures like Malcolm X to provide a powerful advocacy grounded in the praxis of argumentation. Ben Voth demonstrates the ongoing relevance of Farmer's successful debate methodology in resolving contemporary race problems in the 21st century such as Black Lives Matter.

international sunday school lesson pdf: *CURRICULUM REFORM IN PAKISTAN* Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system. The book examines the questions: Why and how has a small elite class come to rule Pakistan? And how has their rule worsened the country's problems? The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society. The book represents the fusion of my experiences in Pakistan with extensive literature analysis, interviews, and textbook analysis. This research began when I came to the United States in January 2015 through the SAR program. I wanted to know the answers to profoundly unsettling questions. How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western-educated scholars with traditional insular thoughts are not only appreciated but flourishing? I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed. Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky-high inflation. The influential religious leaders mostly belong to the elite class while their followers are mostly lower class. Ruling families and social classes mostly control appointed positions. Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam? Why don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama (which literally means "those who possess knowledge [ilm], particularly of Islam") maintain a tight hierarchical system in the madrasa (Islamic seminary) community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities? Book Review: Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance and conflicts. Dr. Amna Afreen documents the political, socio-economic and religious causes-limited government funding, widespread poverty and illiteracy and the poor training and performance of teachers- that have produced a failed educational system at urban and rural government and religious schools (madrasa) and offers a series of potential solutions and reforms. -- John L. Esposito, University Professor and Founding Director of The Alwaleed Center for Muslim-Christian Understanding, Georgetown University.

international sunday school lesson pdf: *Christian Education Curriculum for the Digital*

Generation Jong Soo Park, 2015-02-16 This book is about exploring and presenting a model of digital-based curriculum for Christian education suitable for the digital ways of learning, communicating, and thinking. Park discusses the limitations of analog-based curricula, most of current curricula, and necessities for digital-oriented ones. Then, he provides a new model of curriculum--curriculum as software. Curriculum as software is a curricular framework for embracing digital culture like open-flat network, service-centered management, interactive communication, and offline-online hybrid learning space. It consists of four spiral stages: analysis, design, simulation, and service. In the process of designing units, 4R Movement--a new learning theory--is utilized to encourage today's young people to construct their own knowledge after critically analyzing various resources of information. 4R-embedded courses are implemented in the four movements: reflection, reinterpretation, re-formation, and re-creation.

international sunday school lesson pdf: International Handbook of Virtual Learning Environments Joel Weiss, Jason Nolan, Jeremy Hunsinger, Peter Trifonas, 2007-11-24 Three issues are explored and used as organizers for The International Handbook of Virtual Learning Environments. First, a distinction is made between virtual learning and learning virtually. Second, since the focus is on learning, an educational framework is developed as a means of bringing coherence to the available literature. Third, learning is defined broadly as a process of knowledge creation for transforming experience to reflect different facets of the curriculum of life. The Handbook is divided into four sections: Foundations of Virtual Learning Environments; Schooling, Professional Learning and Knowledge Management; Out-of-School Learning Environments; and Challenges for Virtual Learning Environments. A variety of chapters representing different academic and professional fields are included. These chapters cover topics ranging from philosophical perspectives, historical, sociological, political and educational analyses, case studies from practical and research settings, as well as several provocative 'classics' originally published in other settings.

international sunday school lesson pdf: Encyclopedia of Christianity in the Global South Mark A. Lamport, 2018-06-01 Christianity has transformed many times in its 2,000-year history, from its roots in the Middle East to its presence around the world today. From the mid-twentieth century onward the presence of Christianity has increased dramatically in Asia, Africa, and Latin America, and the majority of the world's Christians are now nonwhite and non-Western. The Encyclopedia of Christianity in the Global South traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions. The volumes include maps, images, and a detailed timeline of key events. The phrases "Global Christianity" and "World Christianity" are inadequate to convey the complexity of the countries and regions involved--this encyclopedia, with its more than 500 entries, aims to offer rich perspectives on the varieties of Christianity where it is growing, how the spread of Christianity shapes the faith in various regions,

and how the faith is changing worldwide.
