john wayne movie text: Structured Writing Mark Baker, 2018-09-10 Structured writing has never been more important or more confusing. We keep trying to do more and more with content, but we give ourselves less and less time to do it. Structured content can help keep your rhetoric on track and your processes efficient. But how does it do that and what is the relationship between rhetoric and process? It is easy to get lost in sea of acronyms and buzz words: semantics, XML, metadata, DITA, structure, DocBook, hypertext, Markdown, topics, XSLT, reuse, LaTeX, silos, HTML. Structured Writing cuts through the noise, explaining what structured writing is (you have been doing it all along) and how you can use different structures to achieve different purposes. It focuses on how you can partition and manage the complexity of the content creation process using structured writing techniques to ensure that everything is handled by the person or process with the skills, time, and resources to handle it effectively. Most importantly, this book shows you how the right structured writing techniques can improve the quality of your content and, at the same time, make your content processes more efficient without sacrificing quality for efficiency or vice versa. There are so many options available in the structured writing space today. This book will show you where each of them fits and help you choose the approach that is optimal for your content.

john wayne movie text: *John Wayne's World* Russell Meeuf, 2013-09-01 In a film career that spanned five decades, John Wayne became a U.S. icon of heroic individualism and rugged masculinity. His widespread popularity, however, was not limited to the United States: he was beloved among moviegoers in Asia, Africa, Latin America, and Europe. In *John Wayne's World*, Russell Meeuf considers the actor's global popularity and makes the case that Wayne's depictions of masculinity in his most popular films of the 1950s reflected the turbulent social disruptions of global capitalism and modernization taking place in that decade. *John Wayne's World* places Wayne at the center of gender- and nation-based ideologies, opening a dialogue between film history, gender studies, political and economic history, and popular culture. Moving chronologically, Meeuf provides new readings of *Fort Apache*, *Red River*, *Hondo*, *The Searchers*, *Rio Bravo*, and *The Alamo* and

connects Wayne's characters with a modern, transnational masculinity being reimagined after World War II. Considering Wayne's international productions, such as *Legend of the Lost* and *The Barbarian and the Geisha*, Meeuf shows how they resonated with U.S. ideological positions about Africa and Asia. Meeuf concludes that, in his later films, Wayne's star text shifted to one of grandfatherly nostalgia for the past, as his earlier brand of heroic masculinity became incompatible with the changing world of the 1960s and 1970s. The first academic book-length study of John Wayne in more than twenty years, *John Wayne's World* reveals a frequently overlooked history behind one of Hollywood's most iconic stars.

john wayne movie text: *The Films of the Eighties* William J. Palmer, 1995 In this remarkable sequel to his *Films of the Seventies: A Social History*, William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon, and generate discussion about major events, issues, and social trends of the eighties. Palmer defines the dialectic between film art and social history, taking as his theoretical model the holograph of history that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations, neoconservative feminism, and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River*, *Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills*, and *Fatal Attraction*. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

john wayne movie text: Friendly Fire Katherine Kinney, 2000-11-02 Hundreds of memoirs, novels, plays, and movies have been devoted to the American war in Vietnam. In spite of the great variety of media, political perspectives and the degrees of seriousness with which the war has been treated, Katherine Kinney argues that the vast majority of these works share a single story: that of Americans killing Americans in Vietnam. *Friendly Fire*, in this instance, refers not merely to a tragic error of war, it also refers to America's war with itself during the Vietnam years. Starting from this point, this book considers the concept of friendly fire from multiple vantage points, and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered—pitting soldiers against superiors, doves against hawks, feminism against patriarchy, racial fear against racial tolerance. Through the use of extensive evidence from the film and popular fiction of Vietnam (e.g. Kovic's *Born on the Fourth of July*, Didion's *Democracy*, O'Brien's *Going After Cacciato*, Rabe's *Sticks and Bones* and *Streamers*), Kinney draws a powerful picture of a nation politically, culturally, and socially divided, and a war that has been memorialized as a contested site of art, media, politics, and ideology.

john wayne movie text: From Hanoi to Hollywood Linda Dittmar, Gene Michaud, 1990 This volume is about power. It is about the power to make war and to destroy lives. It is also about

another kind of power-the power to make images that may distort, displace, and destroy knowledge of the times in which those lives were lived. Many of the nineteen essays gathered in this volume are about the interrelationships between these two types of power. They demonstrate, as well, yet another type of power, the power of critical thinking to challenge dangerous myths and to confront prevailing ideologies. The title of this anthology calls attention to the process whereby aspects of the Vietnam War have been appropriated by the American cultural industry. Probing the large body of emotion-laden, controversial films, *From Hanoi to Hollywood* is concerned with the retelling of history and the retrospection that such a process involves. In this anthology, an awareness of film as a cultural artifact that molds beliefs and guides action is emphasized, an awareness that the contributors bring to a variety of films. Their essays span over one hundred documentary and fiction films, and include in-depth analyses of major commercial films, ranging from *Apocalypse Now* to *Platoon*, *Rambo: First Blood Part II*, and *Full Metal Jacket*, and documentaries from *In the Year of the Pig* to *Dear America: Letters Home from Vietnam*. The essays in this volume deal with representations of the Vietnam war in documentary film and television reporting, examining the ways the power of film is used to deliver political messages. There are surprises here, new readings, and important insights on the ways we as a society have attempted to come to terms with the experiences of the Vietnam era. The book also contains two appendixes-a detailed chronology charting the relationship between major historical events and the release of American war films from 1954 through 1988, and a filmography listing information on over four hundred American and foreign films about the Vietnam War.

john wayne movie text: *The Duke, the Longhorns, and Chairman Mao* Steven Travers, 2014-04-07 In September of 1966, John Wayne was in Texas filming *War Wagon* while the integrated Trojans of the University of Southern California arrived in Austin to do battle with a powerhouse of equal stature, the all-white Texas Longhorns. *The Duke*, a one-time pulling guard for coach Howard Jones at USC, was there, accompanied by sycophants, and according to rumor, with spurs on. This book is a fly-on-the-wall exploration of this wild weekend and an immersion into the John Wayne mythology: his politics, his inspirations, the plots to assassinate him, his connections to Stalin, Khrushchev, and Chairman Mao, and the death of the Western.

john wayne movie text: *Myth of the Western* Carter Matthew Carter, 2018-09-17 What is the nature of the relationship between the Hollywood Western and American frontier mythology? How have Western films helped develop cultural and historical perceptions, attitudes and beliefs towards the frontier? Is there still a place for the genre in light of revisionist histories of the American West? *Myth of the Western* re-invigorates the debate surrounding the relationship between the Western and frontier mythology, arguing for the importance of the genre's socio-cultural, historical and political dimensions. Taking a number of critical-theoretical and philosophical approaches, Matthew Carter applies them to prominent forms of frontier historiography. He also considers the historiographic element of the Western by exploring the different ways in which the genre has responded to the issues raised by the frontier. Carter skilfully argues that the genre has - and continues to reveal - the complexities and contradictions at the heart of US society. With its clear analyses of and intellectual challenges to the film scholarship that has developed around the Western over a 65-year period, this book adds new depth to our understanding of specific film texts and of the genre as a whole - a welcome resource for students and scholars in both Film Studies and American Studies.

john wayne movie text: *The Cinema of Steven Spielberg* Nigel Morris, 2007-02-13 Cinema's most successful director is a commercial and cultural force demanding serious consideration. Not just triumphant marketing, this international popularity is partly a function of the movies themselves. Polarised critical attitudes largely overlook this, and evidence either unquestioning adulation or vilification often vitriolic for epitomising contemporary Hollywood. Detailed textual analyses reveal that alongside conventional commercial appeal, Spielberg's movies function consistently as a self-reflexive commentary on cinema. Rather than straightforwardly consumed realism or fantasy, they invite divergent readings and self-conscious spectatorship which contradict

assumptions about their ideological tendencies. Exercising powerful emotional appeal, their ambiguities are profitably advantageous in maximising audiences and generating media attention.

john wayne movie text: The Film Photonovel Jan Baetens, 2019-04-15 Discarded by archivists and disregarded by scholars despite its cultural impact on post-World War II Europe, the film photonovel represents a unique crossroads. This hybrid medium presented popular films in a magazine format that joined film stills or set pictures with captions and dialogue balloons to re-create a cinematic story, producing a tremendously popular blend of cinema and text that supported more than two dozen weekly or monthly publications. Illuminating a long-overlooked ‘lowbrow’ medium with a significant social impact, The Film Photonovel studies the history of the format as a hybrid of film novelizations, drawn novels, and nonfilm photonovels. While the field of adaptation studies has tended to focus on literary adaptations, this book explores how the juxtaposition of words and pictures functioned in this format and how page layout and photo cropping could affect reading. Finally, the book follows the film photonovel's brief history in Latin America and the United States. Adding an important dimension to the interactions between filmmakers and their audiences, this work fills a gap in the study of transnational movie culture.
