leo grande family content: *The Borders of Empathy in Children’s Fiction* Macarena García-González, 2025-06-16 *The Borders of Empathy in Children’s Fiction* centres the question of how reading fiction develops our moral imagination and our capacities to think and feel with others. The question is approached with a good dose of scepticism, revising tensions between ethical,

aesthetical, and pedagogical dimensions when certain books, films, and other cultural materials are recommended for children. This volume examines how texts addressed to children are meant to assist socioemotional education and whether we put forward adultist assumptions around such conceptualisations of the emotional. The book is organised into nine chapters, with some of them focusing on difficult themes—such as violence, xenophobia, death, migration, as well as gender and social exclusions—and some others on more general relationships between emotions, media, and education. The chapters combine a textual analysis of recommended cultural materials for children with insights from empirical research and ethnographic approaches to children's cultures. A common thread throughout the book is the open question about the epistemic injustices in knowing children and childhood and how this may be overcome by shifting our research practices with posthumanist philosophies. leo grande family content: Living Together, Living Apart April Schueths, Jodie Lawston, 2015-11-02 Immigration reform remains one of the most contentious issues in the United States today. For mixed status families—families that include both citizens and noncitizens—this is more than a political issue: it's a deeply personal one. Undocumented family members and legal residents lack the rights and benefits of their family members who are US citizens, while family members and legal residents sometimes have their rights compromised by punitive immigration policies based on a strict citizen/noncitizen dichotomy. This collection of personal narratives and academic essays is the first to focus on the daily lives and experiences, as well as the broader social contexts, for mixed status families in the contemporary United States. Threats of raids, deportation, incarceration, and detention loom large over these families. At the same time, their lives are characterized by the resilience, perseverance, and resourcefulness necessary to maintain strong family bonds, both within the United States and across national boundaries.

In this book, the contributors explore how gender, culture, religion, masculinity, sport, and conservative politics intersect to perpetuate and resist gendered and sexual norms. The book presents a range of possibilities for disrupting and challenging these norms within early childhood educational contexts. Grounded in colonial and postcolonial discourses, the book emphasises the entanglement of gender and sexuality in ECE with legacies of colonisation and surrounding social and cultural dynamics, highlighting our responsibility to address gender inequalities and injustices. The book will appeal to researchers, faculty, and teacher educators with interests in gender and sexuality in education, international and comparative education, and early childhood education.

leo grande family content: We Are Cuba! Helen Yaffe, 2020-04-06 The extraordinary account

of the Cuban people's struggle for survival in a post-Soviet world In the aftermath of the fall of the Soviet Union, Cuba faced the start of a crisis that decimated its economy. Helen Yaffe examines the astonishing developments that took place during and beyond this period. Drawing on archival research and interviews with Cuban leaders, thinkers, and activists, this book tells for the first time the remarkable story of how Cuba survived while the rest of the Soviet bloc crumbled. Yaffe shows how Cuba has been gradually introducing select market reforms. While the government claims that these are necessary to sustain its socialist system, many others believe they herald a return to capitalism. Examining key domestic initiatives including the creation of one of the world's leading biotechnological industries, its energy revolution, and medical internationalism alongside recent economic reforms, Yaffe shows why the revolution will continue post-Castro. This is a fresh, compelling account of Cuba's socialist revolution and the challenges it faces today.

leo grande family content: Gentrification and Bilingual Education Suzanne García-Mateus, Deborah K. Palmer, 2022-12-13 This unique volume brings together findings from six separate but interconnected studies, carried out over seven years in the same small bilingual elementary school. During a period of rapid gentrification in Austin, Texas, Hillside Elementary transformed from a predominantly Latinx, under-resourced and under-enrolled neighborhood school with a transitional bilingual program to a two-way dual language bilingual education (TWBE) school with a waiting list of middle-class families from across the school district. Chapter authors entered the context as researchers at various points along the timeline, with varied theoretical lenses, research questions, and methodological approaches. Most authors have also been parents or teachers at the school, and all were deeply invested in the school community and the education of bilingual students. They come together to argue that in order for a TWBE school to serve marginalized bilingual and BIPOC children and families, it must work collectively toward critical consciousness. Educators, parents, and students must learn to center the cultural, linguistic and racial/ethnic identities of marginalized families, and engage in ongoing dialogue at every level. The culminating product is a theme with variations: one context, one phenomenon, multiple varied positionalities and perspectives.
