jiang ji li autobiography: *Memory, Fluid Identity, and the Politics of Remembering* Li Li, 2016-06-21 The Chinese Cultural Revolution is the single most important internal social event in contemporary Chinese history. The plethora of history, literary, and artistic representations inspired by this event are critical to our understanding of the diversified, often contested, interpretations of contemporary China. Li Li's critical examination of autobiographic, filmic and fictional presentations in *Memory, Fluid Identity, and the Politics of Remembering: The Representations of the Chinese Cultural Revolution in English-speaking Countries* demonstrates that "memory works" not only reflect memories of those who lived through that period, but memories about their past, and, more importantly, about their identity remapping and artistic negotiation in a cross-cultural environment.

jiang ji li autobiography: The Art of Return James Meyer, 2019-09-11 More than any other decade, the sixties capture our collective cultural imagination. And while many Americans can immediately imagine the sound of Martin Luther King Jr. declaring "I have a dream!" or envision hippies placing flowers in gun barrels, the revolutionary sixties resonates around the world: China's communist government inaugurated a new cultural era, African nations won independence from colonial rule, and students across Europe took to the streets, calling for an end to capitalism, imperialism, and the Vietnam War. In this innovative work, James Meyer turns to art criticism, theory, memoir, and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe. Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s, including reenactments of civil rights, antiwar, and feminist marches, paintings, sculptures, photographs, novels, and films. Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed. These cases show us that the past becomes significant only in relation to our present, and our remembered history never perfectly replicates time past. This, Meyer argues, is precisely what makes our contemporary attachment to the past so important: it provides us a critical opportunity to examine our own relationship to history, memory, and nostalgia.

jiang ji li autobiography: Worth Writing About Jake Wizner, 2015 Who am I? This is the question that many adolescents ask during the turbulent middle and high school years. In *Worth Writing About: Exploring Memoir with Adolescents*, Jake Wizner addresses how searching for the answer to this question leads his students to reflection, to reading, and ultimately to deeper, more meaningful writing. Based on his experience teaching eighth-grade English for nearly two decades, Jake believes that a well-designed memoir unit not only aligns with the Common Core State Standards but also forges community in the classroom, encourages kids to read nonfiction, and works wonders with students who struggle with their writing--or with their lives. *Worth Writing About* addresses the most common challenges teachers face when teaching memoir writing: How do you help students who say that nothing interesting has happened in their lives? How do you help students balance what is meaningful with what is too personal to share? How do you help students overcome the I don't remember syndrome? Jake--who has published a young-adult novel and often shares his own writing with his students--also delves into the craft of writing, from using mentor texts to crafting leads and memorable endings. He uses student models from his own classroom to show the deep, important work his students produce during the memoir unit. The memoir unit gets kids to write about real stuff--the things that matter to them. In the process, Jake believes, they learn more about themselves, their relationships, the way they view the world, and how they want to move forward into the future.

jiang ji li autobiography: *Holocaust Memories* Claudia Moscovici, 2019-05-16 Nearly eighty years have passed since the Holocaust. There have been hundreds of memoirs, histories and novels written about it, yet many fear that this important event may fall into oblivion. As Holocaust survivors pass away, their legacy of suffering, tenacity and courage could be forgotten. It is up to each generation to commemorate the victims, preserve their life stories and hopefully help prevent such catastrophes. These were my main motivations in writing this book, *Holocaust Memories*, which includes reviews of memoirs, histories, biographies, novels and films about the Holocaust. It was difficult to choose among the multitude of books on the subject that deserve our attention. I made my selections based partly on the works that are considered to be the most important on the subject; partly on wishing to offer some historical background about the Holocaust in different countries and regions that were occupied by or allied themselves with Nazi Germany, and partly on my personal preferences, interests and knowledge. The Nazis targeted European Jews as their main victims, so my book focuses primarily on them. At the same time, since the Nazis also targeted other groups they considered dangerous and inferior, I also review books about the sufferings of the Gypsies, the Poles and other groups that fell victim to the Nazi regimes. In the last part, I review books that discuss other genocides and crimes against humanity, including the Stalinist mass purges, the Cambodian massacres by the Pol Pot regime and the Rwandan genocide. I want to emphasize that history can, indeed, repeat itself, even if in different forms and contexts. Just as the Jews of Europe were not the only targets of genocide, Fascist regimes were not its only perpetrators.

jiang ji li autobiography: *Begin Here* Rocio G. Davis, 2007-01-31 An analytically innovative work, *Begin Here* widens the current critical focus of Asian North American literary studies by proposing an integrated thematic and narratological approach to the practice of autobiography. It demonstrates how Asian North American memoirs of childhood challenge the construction and performative potential of national experiences. This understanding influences theoretical approaches to ethnic life writing, expanding the boundaries of traditional autobiography by negotiating narrative techniques and genre and raising complex questions about self-representation

and the construction of cultural memory. By examining the artistic project of some fifty Asian North American writers who deploy their childhood narratives in the representation of the individual processes of self-identification and negotiation of cultural and national affiliation, this work provides a comprehensive overview of Asian North American autobiographies of childhood published over the last century. Importantly, it also attends to new ways of writing autobiographies, employing comics, blending verse, prose, diaries, and life writing for children, and using relational approaches to self-identification, among others.

jiang ji li autobiography: *Asian American Fiction, History and Life Writing* Helena Grice, 2012-11-12 The last ten years have witnessed an enormous growth in American interest in Asia and Asian/American history. In particular, a set of key Asian historical moments have recently become the subject of intense American cultural scrutiny, namely China's Cultural Revolution and its aftermath; the Korean American war and its legacy; the era of Japanese geisha culture and its subsequent decline; and China's one-child policy and the rise of transracial, international adoption in its wake. Grice examines and accounts for this cultural and literary preoccupation, exploring the corresponding historical-political situations that have both circumscribed and enabled greater cultural and political contact between Asia and America.

jiang ji li autobiography: *Studies Of China And Chineseness Since The Cultural Revolution - Volume 2: Micro Intellectual History Through De-central Lenses* Chih-yu Shih, Mariko Tanigaki, Tina Clemente, 2023-01-04 Studies of China and Chineseness since the Cultural Revolution Volume 1: Reinterpreting Ideologies and Ideological Reinterpretations How did the Great Proletarian Cultural Revolution affect everyone's lives? Why did people re/negotiate their identities to adopt revolutionary roles and duties? How did people, who lived with different self-understandings and social relations, inevitably acquire and practice revolutionary identities, each in their own light? This book plunges into the contexts of these concerns to seek different relations that reveal the Revolution's different meanings. Furthermore, this book shows that scholars of the Cultural Revolution encountered emotional and intellectual challenges as they cared about the real people who owned an identity resource that could trigger an imagined thread of solidarity in their minds. The authors believe that the Revolution's magnitude and pervasive scope always resulted in individualized engagements that have significant and differing consequences for those struggling in their micro-context. It has impacted a future with unpredictable collective implications in terms of ethnicity, gender, memory, scholarship, or career. The Cultural Revolution is, therefore, an evolving relation beneath the rise of China that will neither fade away nor sanction integrative paths.

jiang ji li autobiography: *A Family of Readers* Martha V. Parravano, Roger Sutton, 2012-10-09 Two of the most trusted reviewers in the field join with top authors, illustrators, and critics in a definitive guide to choosing books for children—and nurturing their love of reading. A FAMILY OF READERS is the definitive resource for parents interested in enriching the reading lives of their children. It's divided into four sections: 1. Reading to Them: Choosing and sharing board books and picture books with babies and very young children. 2. Reading with Them: Launching the new reader with easy readers and chapter books. 3. Reading on Their Own: Exploring what children read—and how they read—by genre and gender. 4. Leaving Them Alone: Respecting the reading privacy of the young adult. Roger Sutton knows how and why children read. He must, as the editor in chief of THE HORN BOOK, which since 1924 has been America's best source for reviews of books for young readers. But for many parents, selecting books for their children can make them feel lost. Now, in this essential resource, Roger Sutton and Martha V. Parravano, executive editor at the magazine, offer thoughtful essays that consider how books are read to (and then by) young people. They invite such leading authors and artists as Maurice Sendak, Katherine Paterson, Margaret Mahy, and Jon Scieszka, as well as a selection of top critics, to add their voices about the genres they know best. The result is an indispensable readers' companion to everything from wordless board books to the most complex and daring young adult novels.
