jackie chung actress: Divine Work, Japanese Colonial Cinema and its Legacy Kate Taylor-Jones, 2017-08-24 For many East Asian nations, cinema and Japanese Imperialism arrived within a few years of each other. Exploring topics such as landscape, gender, modernity and military recruitment, this study details how the respective national cinemas of Japan's territories struggled under, but also engaged with, the Japanese Imperial structures. Japan was ostensibly committed to an ethos of pan-Asianism and this study explores how this sense of the transnational was conveyed cinematically across the occupied lands. Taylor-Jones traces how cinema in the region post-1945 needs to be understood not only in terms of past colonial relationships, but also in relation to how the post-colonial has engaged with shifting political alliances, the opportunities for technological advancement and knowledge, the promise of larger consumer markets, and specific historical conditions of each decade.

Lisa Funnell examines the impact of the 1997 transfer of Hong Kong from British to Chinese rule on the representation of Chinese identities—Hong Kong Chinese, mainland Chinese, Chinese American, Chinese Canadian—in action films produced domestically in Hong Kong and, increasingly, in cooperation with mainland China and Hollywood. Hong Kong cinema has offered space for the development of transnational Chinese screen identities that challenge the racial stereotypes historically associated with the Asian female body in the West. The ethnic/national differentiation of transnational Chinese female stars—such as Pei Pei Cheng, Charlene Choi, Gong Li, Lucy Liu, Shu Qi, Michelle Yeoh, and Zhang Ziyi—is considered part of the ongoing negotiation of social, cultural, and geopolitical identities in the Chinese-speaking world.

jackie chung actress: Reel Women Jane Sloan, 2007-03-26 In the last several decades, the

number of films featuring female protagonists has increased significantly. Many of these films reflect the vast cultural and sociological changes that have taken place since the early 1960s, highlighting not only a wide spectrum of female characters depicted onscreen, but the creative work of women behind the camera as well. In Reel Women: An International Directory of Contemporary Feature Films about Women, media librarian Jane Sloan has assembled an impressive list of more than 2400 films from nearly 100 countries that feature female protagonists. Each entry includes a brief description of the film and cites key artistic personnel, particularly female directors, producers, and screenwriters involved in its production. Reel Women also contains a critical survey in which Sloan charts the changes women have undergone both on screen and off, as moviemaking and audience sensibilities have evolved in the last forty-plus years. Listing many more films on the subject of women than can be found in any other source, this reference brings together important titles from area studies and genre markets along with titles associated with women's cinema and feminist film. In addition to title and actor indexes, the book contains a subject index that provides detailed access to place names, historical characters, time periods, and storylines, as well as the backgrounds religious, racial, and ethnic of the main characters. This directory is an ideal reference tool for researchers studying the evolution of female characters in films around the world, from Afghanistan to Zimbabwe. It is also a resource for casual viewers who are looking for films that reflect the diversity of women's roles that can be found in independent and national cinemas as well as commercial blockbusters.

A copious appendix contains filmographies of prominent directors, actors, and writers. With coverage of blockbusters and program fillers from Going Straight (US 1916) to Broken City (US 2013) via Nora Inu (Japan 1949), O Anthropos tou Trainou (Greece 1958), El Less Wal Kilab (Egypt 1962), Reportaje a la Muerte (Peru 1993), Zift (Bulgaria 2008), and thousands more, A Comprehensive Encyclopedia of Film Noir is an engrossing and essential reference work that should be on the shelves of every cinephile.

**jackie chung actress:** Southeast Asian Personalities of Chinese Descent Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business, including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the

past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have, in one way or another, made their homes in, or made some difference to, Southeast Asia. I believe that, when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service. - Professor Wang Gungwu, National University of Singapore
