latest publication pdf: **Water Matters** Abhijit Mukherjee, 2024-09-05 Water Matters:

Achieving the Sustainable Development Goals presents a compilation of water scenarios and their relationship to multiple facets of life, as water forms a nexus with food security and energy resources, thereby forming one of the fundamental pillars of sustainable development. The thematic topics focus on studies of achieving individual sustainable development goals, primarily on safe and sustainable drinking water availability, the role of water in sanitation, transboundary water, and water in the ecosystem. Each chapter presents a case study to enable a holistic review of the topic and provide insight for further research. Water Matters: Achieving the Sustainable Development Goals integrates the knowledge on global-scale water reviews to local-scale case-studies, ideal for hydrologists, hydrogeologists and water managers in environmental and Earth sciences. - Provides interdisciplinary content that bridges the knowledge from water availability to sustainability through reviews of current technologies for clean water and water security - Includes global and regional reviews and case studies, building a bridge between broad reviews of water related issues by domain experts as well as detailed case studies - Identifies pathways for transforming water knowledge to achieve sustainable development goals to policy and governance of water, food, and energy security and sustainability

latest publication pdf: **American Jewish Year Book 2013** Arnold Dashefsky, Ira Sheskin, 2013-11-25 This book, in its 113th year, provides insight into major trends in the North American Jewish community, examining Jewish education, New York Jewry, national and Jewish communal affairs, and the US and world Jewish population. It also acts as an important resource with its lists of Jewish Institutions, Jewish periodicals, and academic resources as well as Jewish honorees, obituaries, and major recent events. It should prove useful to social scientists and historians of the American Jewish community, Jewish communal workers, and the press, among others. For more than a century, the American Jewish Year Book has remained and continues to serve, even in the Internet age, as the leading reference work on contemporary Jewish life. This year's volume, with its special reports on Jewish education and the New York community and its updates on Jewish population statistics, Jewish institutions, and the major Jewish figures who passed in the year past, continues this splendid tradition. Pamela S. Nadell, Chair, Department of History, American University and Co-editor, Making Women's Histories: Beyond National Perspectives The 2013 volume of the American Jewish Year Book impressively demonstrates that Arnold Dashefsky and Ira Sheskin have restored this important resource in all its former glory. Bruce A. Phillips, Professor of Sociology and Jewish Communal Service, Hebrew Union College-Jewish Institute of Religion, Los Angeles Having a current American Jewish Year Book on my shelf is like having a panel of experts on American Jewish life at the ready, prepared to give me thoughtful, accurate answers and observations on the key issues, trends and statistics that define our continental Jewish community today. Well into its second century, the American Jewish Year Book continues to be an essential resource for serious leaders, practitioners and students who seek to ground their work in solid research and up-to-date data. latest publication pdf: **WMD Arms Control in the Middle East** Harald Müller, 2016-02-17

The Middle East is a hot spot of proliferation. It contains one state assumed to possess nuclear weapons, several states that tried and failed to develop a military nuclear capability, one state under suspicion of trying to do so, and it is the world region that witnessed the most frequent and severe employment of chemical weapons since the end of World War I. Notwithstanding, not a single arms

control regime concerning weapons of mass destruction (WMD) covers the region as a whole. Instead we have seen several proliferation-related military operations which have rather contributed to destabilization than served non-proliferation. This volume, written under the auspices of the EU Consortium for Non-Proliferation and Disarmament determines the current state of diplomatic efforts to establish a WMD free zone in the Middle East. In doing so, it provides insights into central actors' conflicting political positions, thereby explaining the stalemate of efforts to negotiate a WMD-free zone. Chapters written by renowned experts from academia and policy-oriented think tanks, as well as by next-generation Middle East and arms control experts, introduce the subject to the reader, give background information about arms control initiatives, provide technical expertise, and endeavour to make proposals for arms control measures in support of the creation of a Middle East WMD-free zone.

latest publication pdf: International Licensing Agreements Michala Meiselles, Hugo Wharton, 2018-10-02 Like any contract, an international licensing agreement spells out the rights and obligations of the contracting parties, manages potential risks and supplies a contingency plan for each party in the event the contractual relationship breaks down. However, international licensing of intellectual property, software or technology confronts the contracting parties with its own distinct challenges. When planning, drafting and negotiating such agreements, it is imperative to know exactly what core issues need to be addressed. This book provides this know-how in an easy-to-use, clear and concise fashion. This expert guide to the complex world of international licensing agreements brings together all the essential materials needed when dealing with such agreements and covers the following: • business models that may be used by the contracting parties; • standard provisions encountered in an array of international licensing agreements; • analysis of the key clauses in various international licensing agreements inter alia trademark, software, franchise and technology licences with provisions as affected by jurisdiction; • effect of competition law in a variety of jurisdictions; • ensuring trademark protection at both national and international levels; • clear explanation of key franchising terminology and disclosure rules; and • effect of international dispute resolution rules in a range of jurisdictions. Alongside detailed contract analysis, the book details numerous case studies from an array of industries, with detailed commentary. Practitioners operating within or representing medium to large firms who normally have to prepare or provide advice on international licence arrangements will quickly find this reference material indispensable. The book's thorough analysis of this complex area will also be welcomed by professionals working for universities, industry, interest groups, government departments and international organisations.

latest publication pdf: Navigating the Return-to-Work Experience for New Parents Maria Karanika-Murray, Cary Cooper, 2020-02-18 Parenthood can be one of the most fulfilling, altering, and challenging life events. This book is set within the background of the reality of many parents' return-to-work experience, the task of re-engaging with work and maintaining a job or a career, and the difficulties that parenthood poses for balancing the demands of a new family with the demands of work. It helps us understand this reality, give voice to new parents, and offer relief in the knowledge that we know a lot about these challenges and, most importantly, how we can start to address them. The book brings together a number of internationally recognized experts from research, practice, and policy to explore the issues and offer evidence-based solutions around return-to-work after having children. It takes a balanced approach to theory and practice to cover topics such as equality, stereotypes, work-family conflict, training and development, and workplace culture, among others, whilst integrating research and policy, and illustrating learnings with case studies from parents and examples from countries that lead the way. It will appeal to parents, researchers, and employers in any sector or economy across the world. Ultimately, it will help develop ways for new parents to re-engage with work successfully while maintaining their work-family well-being.

latest publication pdf: Risk Management and Public Service Reform Iniobong Enang, 2023-04-28 School education reform is a dynamic process. It takes place in the context of changing institutional structures including society, economy, politics, legislation, and technology. Yet, there can be poor awareness of risk, particularly social risk, and its management during this process and more widely, during public service reform (PSR). This book aims to promote new PSR understanding about social risk management. It utilizes in-depth case studies comprising two anonymous Scottish councils responsible for providing and reforming school education services. Drawing mainly on risk management and structuration theories with elements of complexity leadership and institutional theories, the book explains contextual issues around the reform of Scottish school education services (SSES). It illustrates that social risks associated with reform can be used to explain emerging threats. Furthermore, it demonstrates that agent-structure duality may be instrumental to the production and management of social risks. The book also shows how the concept of social risk can be used to improve policy making and implementation. Targeted at practitioners, researchers, policymakers, and students, this book will be of interest to those in the fields of public administration, public service management, and risk management more generally.

latest publication pdf: Global Environment Outlook - GEO-6: Healthy Planet, Healthy People UN Environment, 2019-06-06 Published to coincide with the Fourth United Nations Environmental Assembly, UN Environment's sixth Global Environment Outlook calls on decision makers to take bold and urgent action to address pressing environmental issues in order to protect the planet and human health. By bringing together hundreds of scientists, peer reviewers and collaborating institutions and partners, the GEO reports build on sound scientific knowledge to provide governments, local authorities, businesses and individual citizens with the information needed to guide societies to a truly sustainable world by 2050. GEO-6 outlines the current state of the environment, illustrates possible future environmental trends and analyses the effectiveness of policies. This flagship report shows how governments can put us on the path to a truly sustainable future - emphasising that urgent and inclusive action is needed to achieve a healthy planet with healthy people.
