jenius training: For Blood and Money: Billionaires, Biotech, and the Quest for a Blockbuster Drug Nathan Vardi, 2023-01-10 A master class in the machinations of modern drug development. —Adrian Woolfson, *Science* A gripping business narrative and scientific thriller about what it takes to bring a wonder drug to market—and save countless lives. *For Blood and Money* tells the little-known story of how an upstart biotechnology company created a one-in-a-million cancer drug, and how the core team—denied their share of the profits—went and did it again. In this epic saga of money and science, veteran financial journalist Nathan Vardi explains how the invention of two of the biggest cancer drugs in history became (for their backers) two of the greatest Wall Street bets of all time. In the multibillion-dollar business of biotech, where pharmaceutical companies, the government, hedge funds, and venture capitalists have spent billions on funding, experimentation,

and treatments, a single molecule can stop cancer in its tracks—and make the people who find that rare molecule astonishingly rich. *For Blood and Money* follows a small team at a biotech start-up in California, who have found one of these rare molecules. Their compound, known as a BTK inhibitor, seems to work on a vicious type of leukemia. When patients start rising from their hospice beds, the team knows they're onto something big. What follows is a story of genius, pathos, and drama, in which vivid characters navigate a world of corporate intrigue and ambiguous morality. Vardi's narrative immerses readers in the recent explosion of biotech start-ups. He describes the scientists, doctors, and investors who are risking everything to develop new, life-saving treatments, and introduces suffering patients for whom the stakes are life-or-death. A gripping nonfiction read, *For Blood and Money* illustrates why it's so hard to bring new drugs to market, explains why they are so expensive, and examines how profit-driven venture capitalists are shaping the future of medicine.

jenius training: *The Forerunner* Charlotte Perkins Gilman, 2022-07-19 Should we not laugh to see a horse in corsets? The time is coming when we shall so laugh to see a woman. - The Forerunner Volume 1 (1909-1910) by Charlotte Perkins Gilman. In this anthology collection of key writings by prominent humanitarian and pro-equality writer, Charlotte Perkins Gilman, the reader is afforded a fascinating insight into the lives and societal challenges of women in the early 20th century. Through a selection of expertly written poems, essays, and fictional stories as well as non-fiction narratives, the monthly magazine excerpts include lesser-known works such as 'Our Androcentric Culture; or, The Man-Made World', the poem 'Then This', and an essay entitled 'A Small God And a Large Goddess'. The original writing showcases a progressive thinker with a strong female voice, who was ahead of her time in terms of feminism and women's rights, in this selection of politically-inspired pieces from 1909. Charlotte Perkins Gilman, also known as Charlotte Perkins Stetson, was born on 3rd July 1860 in Connecticut, USA. Her early family life was troubled, with her father abandoning his wife and family; a move which strongly influenced her feminist political leanings and advocator of women's rights. After working as a tutor and painter, Perkins - a self-declared humanist and tomboy - began to work as a writer of short stories, novels, non-fiction pieces, and poetry. Her best-known work is her semi-autobiographical short story, inspired by her post-natal depression, entitled 'The Yellow Wallpaper', which was published in 1892 and made into a film in 2011. Charlotte Perkins Gilman was a member of the American National Women's Hall of Fame and strongly believed that the domestic environment oppressed women through the patriarchal beliefs upheld by society. A believer in euthanasia, she was diagnosed with incurable breast cancer in January 1932 and subsequently took her own life in August 1935, writing in her

suicide note that she chose chloroform over cancer.

jenius training: *As The Father Has Sent Me* Rod Culbertson, 2018-10-26 Have you ever read (or tried to read) the Bible and wondered if it makes any sense? Often, when we read about God's plan for the world in the Bible, we are confused and uncertain about what he is actually doing. We read the books (or parts of them) that we find in the Bible, attempt to piece together the different names and events, and often do so without clarity of understanding, or any concept of the historical situation and/or Bible characters. We look at all of the oblique parts of the Bible and cannot grasp the big picture or the grand storyline that is ultimately unfolding before our very eyes. How can we put together this complicated puzzle? As the Father Has Sent Me: God's Progress of Redemption is the answer for our confusion. This book will help the reader put the pieces of the Bible reading puzzle together, while discovering the unity of God's story for the world. See how the grand story of God's redemptive plan unfolds and begin to cherish his gracious involvement in our world of need!

jenius training: The Impossibility of Motherhood Patrice DiQuinzio, 1999 An adequate analysis of experiences and situations specific to women, especially mothering, requires consideration of women's difference. A focus on women's difference, however, jeopardizes feminism's claims of women's equal individualist subjectivity, and risks recuperating the inequality and oppression of women, especially the view that all women should be mothers, want to be mothers, and are most happy being mothers. This book considers how thinkers including de Beauvoir, Kristeva, Chodorow and Rich struggle to negotiate this dilemma of difference in analyzing mothering, encompassing the paradoxes concerning embodiment, gender and representation they encounter. Patrice DiQuinzio shows that mothering has been and will continue to be an intractable problem for feminist theory, and argues for a reconceptualization of feminist theory itself, and suggests the political usefulness of an explicitly paradoxical politics of mothering.
