john savage columbine interview: Wij zijn maar wij zijn niet geschift Tim Krabbe, 2012-04-07 Op 20 april 1999 schoten twee jongens op Columbine High School in Littleton, Colorado, een leraar, twaalf leerlingen en zichzelf dood. Het wordt in Amerika nog steeds gevoeld als een nationale schoffering in de orde van Pearl Harbor en 9/11, en het leeft wereldwijd voort in fictie en non-fictie, en in nieuwe schietpartijen. Toen Tim Krabbé zich in 2007 voor 'Columbine' ging interesseren ontdekte hij dat wat hij dacht te weten (twee gepeste jongens namen wraak; ze schoten kinderen dood die Ja hadden gezegd op de vraag of ze in God geloofden; ze waren die ochtend eerst gaan bowlen) niet klopte _ en dat de werkelijkheid veel vreemder en griezeliger was. Krabbé las tienduizenden bladzijden getuigenverklaringen, rapporten, dossiers, krantenstukken, en de schoolopstellen, websites en dagboeken van de daders, Eric Harris en Dylan Klebold; intelligente jongens uit liefdevolle, hoogopgeleide gezinnen. Hij vond details die nog door niemand waren gezien, en ontdekte dat er geen enkel boek was waarin de hele zaak gedetailleerd, nauwkeurig en open wordt geanalyseerd en verteld. Dat boek schreef hij. Wij zijn maar wij zijn niet geschift heeft terecht de pretentie het definitieve boek over Columbine te zijn. Krabbé weerlegt de gangbare opvatting dat Eric een psychopatisch meesterbrein was en Dylan zijn depressieve, willoze volgeling. Hij laat zien dat het een filosofische misdaad was waarbij de verhouding tussen de twee heel anders lag en veel interessanter was dan altijd wordt aangenomen.

john savage columbine interview: Godwired Rachel Wagner, 2012-03-12 Godwired

offers an engaging exploration of religious practice in the digital age. It considers how virtual experiences, like stories, games and rituals, are forms of world-building or cosmos construction that serve as a means of making sense of our own world. Such creative and interactive activity is, arguably, patently religious. This book examines: the nature of sacred space in virtual contexts technology as a vehicle for sacred texts who we are when we go online what rituals have in common with games and how they work online what happens to community when people worship online how religious worlds and virtual worlds nurture similar desires. Rachel Wagner suggests that whilst our engagement with virtual reality can be viewed as a form of religious activity, today's virtual religion marks a radical departure from traditional religious practice – it is ephemeral, transient, rapid, disposable, hyper-individualized, hybrid, and in an ongoing state of flux.

john savage columbine interview: Claiming Sacred Ground Adrian J. Ivakhiv, 2001-07-26 Claiming Sacred Ground Pilgrims and Politics at Glastonbury and Sedona Adrian J. Ivakhiv A study of people and politics at two New Age spiritual sites. In this richly textured account, Adrian Ivakhiv focuses on the activities of pilgrim-migrants to Glastonbury, England and Sedona, Arizona. He discusses their efforts to encounter and experience the spirit or energy of the land and to mark out its significance by investing it with sacred meanings. Their endeavors are presented against a broad canvas of cultural and environmental struggles associated with the incorporation of such geographically marginal places into an expanding global cultural economy. Ivakhiv sees these contested and heterotopic landscapes as the nexus of a complex web of interest and longings: from millennial anxieties and nostalgic re-imaginings of history and prehistory; to real-estate power grabs; contending religious visions; and the free play of ideas from science, pseudo-science, and popular culture. Looming over all this is the nonhuman life of these landscapes, another that alternately reveals and conceals itself behind a pageant of beliefs, images, and place-myths. A significant contribution to scholarship on alternative spirituality, sacred space, and the politics of natural landscapes, *Claiming Sacred Ground* will interest scholars and students of environmental and cultural studies, and the sociology of religious movements and pilgrimage. Non-specialist readers will be stimulated by the cultural, ecological, and spiritual dimensions of extraordinary natural landscapes. Adrian Ivakhiv teaches in the Faculty of Environmental Studies at York University in Toronto, and is President of the Environmental Studies Association of Canada. April 2001 384 pages, 24 b&w photos, 2 figs., 9 maps, 6 1/8 x 9 1/4, index, append. cloth 0-253-33899-9 \$37.40 s / £28.50 Contents I DEPARTURES 1 Power and Desire in Earth's Tangled Web 2 Reimagining Earth 3 Orchestrating Sacred Space II Glastonbury 4 Stage, Props, and Players of Avalon 5 Many Glastonburys: Place-Myths and Contested Spaces III SEDONA 6 Red Rocks to Real Estate 7 New Agers, Vortexes, and the Sacred Landscape IV ARRIVALS 8 Practices of Place: Nature and Heterotopia Beyond the New Age

john savage columbine interview: Just Call Me Dad James W. Minton Sr. Jim, 2019-02-05 Do kids come with an owner's manual? This book is about Jim Minton's journey of figuring out how to raise his kids and learning a lot about himself in the process. When Jim's children were born, he focused on raising Division I athletes who would make him look good. He started off as that obnoxious dad we have all witnessed at sporting events. He ended up with thirteen principles for improving himself, plus three amazing kids who bring him great joy as they walk in the truth. Jim loves good quotes. He kept a list on the refrigerator as his kids grew up, many of them coming from legendary basketball coach John Wooden. Jim knew his kids were going to find the bad stuff on their phones and in the culture; it was up to him to get the good stuff in front of them. Along the way, Jim discovered that the Bible is the owner's manual he was looking for.

john savage columbine interview: The Science of Good and Evil Michael Shermer, 2025-09-23 From bestselling author Michael Shermer, an investigation of the evolution of morality that is a paragon of popularized science and philosophy The Sun (Baltimore) A

century and a half after Darwin first proposed an evolutionary ethics, science has begun to tackle the roots of morality. Just as evolutionary biologists study why we are hungry (to motivate us to eat) or why sex is enjoyable (to motivate us to procreate), they are now searching for the very nature of humanity. In *The Science of Good and Evil*, science historian Michael Shermer explores how humans evolved from social primates to moral primates; how and why morality motivates the human animal; and how the foundation of moral principles can be built upon empirical evidence. Along the way he explains the implications of scientific findings for fate and free will, the existence of pure good and pure evil, and the development of early moral sentiments among the first humans. As he closes the divide between science and morality, Shermer draws on stories from the Yanamamö, infamously known as the fierce people of the tropical rain forest, to the Stanford studies on jailers' behavior in prisons. *The Science of Good and Evil* is ultimately a profound look at the moral animal, belief, and the scientific pursuit of truth .

john savage columbine interview: *Dark Dreams 2.0* Charles Derry, 2009-11-12 Greatly expanded and updated from the 1977 original, this new edition explores the evolution of the modern horror film, particularly as it reflects anxieties associated with the atomic bomb, the Cold War, 1960s violence, sexual liberation, the Reagan revolution, 9/11 and the Iraq War. It divides modern horror into three varieties (psychological, demonic and apocalyptic) and demonstrates how horror cinema represents the popular expression of everyday fears while revealing the forces that influence American ideological and political values. Directors given a close reading include Alfred Hitchcock, Brian De Palma, David Cronenberg, Guillermo Del Toro, Michael Haneke, Robert Aldrich, Mel Gibson and George A. Romero. Additional material discusses postmodern remakes, horror franchises and Asian millennial horror. This book also contains more than 950 frame grabs and a very extensive filmography.

john savage columbine interview: *American Film History* Cynthia Lucia, Roy Grundmann, Art Simon, 2015-06-25 From the American underground film to the blockbuster superhero, this authoritative collection of introductory and specialized readings explores the core issues and developments in American cinematic history during the second half of the twentieth-century through the present day. Considers essential subjects that have shaped the American film industry—from the impact of television and CGI to the rise of independent and underground film; from the impact of the civil rights, feminist and LGBT movements to that of 9/11. Features a student-friendly structure dividing coverage into the periods 1960-1975, 1976-1990, and 1991 to the present day, each of which opens with an historical overview. Brings together a rich and varied selection of contributions by established film scholars, combining broad historical, social, and political contexts with detailed analysis of individual films, including *Midnight Cowboy*, *Nashville*, *Cat Ballou*, *Chicago*, *Back to the Future*, *Killer of Sheep*, *Daughters of the Dust*, *Nothing But a Man*, *Ali*, *Easy Rider*, *The Conversation*, *The Texas Chain Saw Massacre*, *Longtime Companion*, *The Matrix*, *The War Tapes*, the Batman films, and selected avant-garde and documentary films, among many others. Additional online resources, such as sample syllabi, which include suggested readings and filmographies, for both general and specialized courses, will be available online. May be used alongside *American Film History: Selected Readings, Origins to 1960* to provide an authoritative study of American cinema from its earliest days through the new millennium
