joanna tulsa photography: Merce Cunningham Carrie Noland, 2020-01-23 One of the most influential choreographers of the twentieth century, Merce Cunningham is known for introducing chance to dance. Far too often, however, accounts of Cunningham's work have neglected its full scope, focusing on his collaborations with the visionary composer John Cage or insisting that randomness was the singular goal of his choreography. In this book, the first dedicated to the complete arc of Cunningham's career, Carrie Noland brings new insight to this transformative artist's philosophy and work, providing a fresh perspective on his artistic process while exploring aspects of his choreographic practice never studied before. Examining a rich and previously unseen archive that includes photographs, film footage, and unpublished writing by Cunningham, Noland counters prior understandings of Cunningham's influential embrace of the unintended, demonstrating that Cunningham in fact set limits on the role chance played in his dances. Drawing on Cunningham's written and performed work, Noland reveals that Cunningham introduced variables before the chance procedure was applied and later shaped and modified the chance results. Chapters explore his relation not only to Cage, but also Marcel Duchamp, Robert Rauschenberg, James Joyce, and Bill T. Jones. Ultimately, Noland shows that Cunningham approached movement as more than "movement in itself," and that his work enacted archetypal human dramas. This remarkable book will forever change our appreciation of the choreographer's work and legacy.

joanna tulsa photography: *Touching Photographs* Margaret Olin, 2012-05-21 Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to "touch" us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.

joanna tulsa photography: *The WPA Oklahoma Slave Narratives* T. Lindsay Baker, Julie Philips Baker, 1996 I never talk to nobody 'bout this was the response of one aged African American when asked by a Works Project Administration field worker to share memories of his life in slavery and after emancipation. He and other ex-slaves were uncomfortable with the memories of a time when black and white lives were interwoven through human bondage. Yet the WPA field workers overcame the old people's reticence, and American West scholars T. Lindsay Baker and Julie P. Baker have collected all the known WPA Oklahoma slave narratives in this volume for the first time - including fourteen never published before. Their careful editorial notes detail what is known about the interviewers and the process of preparing the narratives.

joanna tulsa photography: *Social Problems* Anna Leon-Guerrero, 2018-07-10 Empower your students to become part of the solution. The new Sixth Edition of Anna Leon-Guerrero's *Social Problems: Community, Policy, and Social Action* goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions. With a clear and upbeat tone, this thought-provoking text challenges readers to see the social and structural forces that determine our social problems; to consider various policies and programs that attempt to address these problems; and to recognize and learn how they can be part of the solution to social problems in their own

community. New to This Edition Many of the social policy discussions (including immigration, LGBTQ rights, the Affordable Care Act, and Internet neutrality) have been updated to reflect the most recent government actions and debates. More recent data, and new data sources, have been incorporated throughout, both in the main narrative and in the Exploring Social Problems features. New "Voices in the Community" subjects on gender, work and the economy, and war and terrorism appear in several chapters. New "In Focus" topics include Black Lives Matters, assault weapons, and college drug problems. The chapter on gender has been substantially updated with new or expanded coverage of binary/cisgender/transgender identification, gender nonconformity discrimination, sexual misconduct on college campuses, and the rights of trans and intersex individuals. Other new or expanded coverage elsewhere includes economic anxiety, robotization in the workplace, white nationalists, feminist theories about race, "fake" news, net neutrality, community policing, gentrification and segregation in U.S. cities, and the immigration and environmental policies of the Trump administration.

joanna tulsa photography: Movie Roadshows Kim R. Holston, 2013-01-01 This work examines a film distribution system paralleling the rise of early features and persisting until 1972, when Man of La Mancha was the final roadshow to require reserved seating. Synonymous with Hollywood's star-studded premieres, roadshows were longer and cost more than regular features, making the experience similar to attending the legitimate theater. Roadshows, often epic in subject matter, played selected (usually only one) theaters in major urban centers until demand decreased. De rigueur by the 1960s were musical overtures, intermissions, entre'acte and exit music and souvenir programs for sale in the lobby. Throughout the text are recollections by people who attended roadshows, including actor John Kerr and actresses Barbara Eden and Ingrid Pitt. The focus is on roadshows released in the United States but an appendix identifies international roadshows and films forecast but not released as roadshows. Included are plots, contemporary critical reaction, premiere dates, production background, and methods of promotion--i.e., the ballyhoo.

joanna tulsa photography: The Art of Knife Fighting for Stage and Screen Erick Vaughn Wolfe, 2022-02-07 The Art of Knife Fighting for Stage and Screen: An Actor's and Director's Guide to Staged Violence provides detailed information for the safe use of knives and daggers in a theatrical setting and an in-depth understanding of safe theatrical weapons. The book starts with an extensive safety review, then moves on to the basic techniques of dagger fighting, starting with grip and body postures. Readers will then learn about the basic actions of cuts, parries, blocks, and disarms. During this process, they will explore the connection between body and weapon and start learning the elements of storytelling through choreography. Special attention is given to suicides, threats, and murder and how directors, choreographers, performers, teachers, and students can approach these techniques in a way that is physically and mentally safe. The book also covers the use of throwing knives, knife flips, and other tricks to help add a little flair to your fight. The Art of Knife Fighting for Stage and Screen teaches the safe theatrical use of the knife for directors, performers, educators, and students of stage combat.

joanna tulsa photography: Native American Art in the Twentieth Century W. Jackson Rushing III, 2013-09-27 This illuminating and provocative book is the first anthology devoted to Twentieth Century Native American and First Nation art. Native American Art brings together anthropologists, art historians, curators, critics and distinguished Native artists to discuss pottery, painting, sculpture, printmaking, photography and performance art by some of the most celebrated Native American and Canadian First Nation artists of our time The contributors use new theoretical

and critical approaches to address key issues for Native American art, including symbolism and spirituality, the role of patronage and museum practices, the politics of art criticism and the aesthetic power of indigenous knowledge. The artist contributors, who represent several Native nations - including Cherokee, Lakota, Plains Cree, and those of the Plateau country - emphasise the importance of traditional stories, mythologies and ceremonies in the production of contemporary art. Within great poignancy, they write about recent art in terms of home, homeland and aboriginal sovereignty. Tracing the continued resistance of Native artists to dominant orthodoxies of the art market and art history, *Native American Art in the Twentieth Century* argues forcefully for Native art's place in modern art history.

joanna tulsa photography: Science Fiction, Fantasy and Horror Film Sequels, Series and Remakes Kim R. Holston, Tom Winchester, 2018-02-12 Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries feature cast and credits, detailed synopsis, critics' reviews, and original analysis.

joanna tulsa photography: Biilaachia-White Swan Rodney G. Thomas, 2022-11-17 The story of the Apsaalooke (Crow) men who scouted for the Seventh United States Cavalry in 1876 has been told by historians, with details sometimes distorted or fabricated. Biilaachia--better known as White Swan--survived the Battle of Little Bighorn despite severe wounds. One soldier recalled him standing beside his horse, firing at the Sioux: He would not mount up and try to get away but stood and fought. White Swan continued to scout off-and-on for the U.S. Army until 1881 and recorded his 22 combat actions in 37 paintings and drawings. Done in traditional Plains warrior biographic style, his complete body of work is presented here for the first time, along with the history behind each depiction. His life is detailed in photographs, some never before published, and four little-known interviews, as well as extensive research about the Apsaalooke people.

joanna tulsa photography: Variety and Daily Variety Television Reviews, 1993-1994 Prouty, 1996-10 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors*. Miola's edited work also features a comprehensive critical history, coupled with a full bibliography and photographs of major productions of the play from around the world. In the collection, there are five previously unpublished essays. The topics covered in these new essays are women in the play, the play's debt to contemporary theater, its critical and performance histories in Germany and Japan, the metrical variety of the play, and the distinctly modern perspective on the play as containing dark and disturbing elements. To compliment these new essays, the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals, newspapers, and other sources. This collection brings together these essays for the first time.
