korean romance legal series: Romantic Tales from Old Korea Brother Anthony of Taizé, 2016-06-16 Korea's most widely loved romantic tales : Chunhyang and Sim Cheong There are not many old Korean love tales, but everyone knows the story of Chunhyang. In 1892, the first Korean to visit Paris, Hong Jong-u, helped publish a French version of the story of Chunhyang. Titled "Fragrant Springtime" (the meaning of "Chunhyang"), it is the first Korean story ever published in a western language. A couple of years later, a second, more developed novel set in Korea was published, "A Dead Tree Blossoms." It includes parts of the story of Sim Cheong and her blind father, but is very different in many unexpected ways. In 1919 an English translation of it was published in the US, but nobody noticed it. In this new book, the French version of "Chunhyang" has been translated into English and is published with the 1919 English text of "A Dead Tree Blossoms" and a couple of other Korean love tales translated a hundred or more years ago. Interestingly, the two main stories both express sharp criticism of corrupt officials and a strong concern for social justice.

korean romance legal series: The Spirit of Korean Law Marie Kim, 2015-11-02 This is the first book on Korean legal history in English written by a group of leading scholars from around the world. The chapters set forth the developments of Korean law from the Chosŏn to colonial and modern periods through the examination of codified laws, legal theories and practices, and jurisprudence. The contributors' shared premise is that the evolution of Korean law can be best understood when viewed in terms of its interactions with outside laws. Each chapter integrates literature in Korean, Japanese, Chinese, and Western languages into comprehensive analyses to make up-to-date research available to readers both inside and outside Korea. This volume provides a solid framework from which to approach Korean legal history in the perspective of comparative legal traditions.

korean romance legal series: Love and Romance in China Pan Wang, 2025-09-04 Love and Romance in China examines love, affection, and emotions in China from Maoist to contemporary China, focusing on the intersections with politics, economics, gender, class, race and technology. From the founding of the People's Republic of China to the end of the Cultural Revolution, political ideology and class struggle dominated everyday life, and love was subordinated to the communist revolution and socialism. During the Cultural Revolution, this turbulent period witnessed the paradoxical existence of self-abstinence and self-indulgence. Since China changed its political ideology in 1979 and shifted to a market-oriented economy, the country embraced the idea of romantic love. This "emotional turn" fostered opportunities for diverse intimate relationships

characterized by the growth of cross-cultural love, LGBTQI+ love, and the emergence of a “sexual revolution” (Zhang 2011; Jeffreys and Yu 2015). The new dynamic was linked to contested discourses of (fantasised, eroticized, and racialized) foreign love intertwined with nationalist sentiments and ongoing tensions between sexual minorities and the government. The new millennium has witnessed love crises characterised by growing concerns about “leftover” men and women, high divorce rates, declining marriage and birth rates, and other relationship problems. The deepening of the market economy and technological advances have turned love into a “fast food” commodity for mass consumption, manifested in dating shows, digital platforms and intimacy between humans and AI/dolls. Wang draws on a wide range of texts, including government statistics on marriages and divorces, legal documents, Maoist folk songs, poems, posters, love letters, media texts, popular discourses, online dating websites, and ethnographic observations and interviews.

korean romance legal series: Women, Television and Everyday Life in Korea Youna Kim, 2012-07-26 Fusing audience research and ethnography, the book presents a compelling account of women’s changing lives and identities in relation to the impact of the most popular media culture in everyday life: television. Within the historically-specific social conditions of Korean modernity, Youna Kim analyzes how Korean women of varying age and class group cope with the new environment of changing economical structure and social relations. The book argues that television is an important resource for women, stimulating them to research their own lives and identities. Youna Kim reveals Korean women as creative, energetic and critical audiences in their responses to evolving modernity and the impact of the West. Based on original empirical research, the book explores the hopes, aspirations, frustrations and dilemmas of Korean women as they try to cope with life beyond traditional grounds. Going beyond the traditional Anglo-American view of media and culture, this text will appeal to students and scholars of both Korean area studies and media and communications studies.

korean romance legal series: *Korean Attitudes Toward the United States* David I. Steinberg, 2005 Dealing with the crucial and troubled relationship between Korea and the United States, this title examines the various historical, political cultural, and psychological aspects of Korean-American relations in the context of American global and East Asian relationships, especially with Japan.

korean romance legal series: *From Networks to Netflix* Derek Johnson, 2022-07-26 Now in a second edition, this textbook surveys the channels, platforms, and programming through which television distribution operates, with a diverse selection of contributors providing thorough explorations of global media industries in flux. Even as legacy media industries experience significant disruption in the face of streaming and online delivery, the power of the television channel persists. Far from disappearing, television channels have multiplied and adapted to meet the needs of old and new industry players alike. Television viewers now navigate complex choices among broadcast, cable, and streaming services across a host of different devices. From Networks to Netflix guides students, instructors, and scholars through that complex and transformed channel landscape to reveal how these industry changes unfold and why they matter. This second edition features new players like Disney+, HBO Max, Crunchyroll, Hotstar, and more, increasing attention to TV services across the world. korean romance legal series: *Rules of the House* Sungyun Lim, 2018-12-18 At publication date, a free ebook version of this title will be available through Luminos, University of California Press’s Open Access publishing program. Visit www.luminosoa.org to learn more. Rules of the House offers a dynamic revisionist account of the Japanese colonial rule of Korea (1910-1945) by examining the roles of women in the civil courts. Challenging the dominant view that women were victimized by the Japanese family laws and its patriarchal biases, Sungyun Lim argues that Korean women had to struggle equally against Korean patriarchal interests. Moreover, women were not passive victims;

instead, they proactively struggled to expand their rights by participating in the Japanese colonial legal system. In turn, the Japanese doctrine of promoting progressive legal rights would prove advantageous to them. Following female plaintiffs and their civil disputes from the precolonial Choson dynasty through colonial times and into postcolonial reforms, this book presents a new and groundbreaking story about Korean women's legal struggles, revealing their surprising collaborative relationship with the colonial state.

korean romance legal series: *Confucianism, Law, and Democracy in Contemporary Korea* Sungmoon Kim, 2015-03-26 Comparative political theory has grown into a recognized discipline in its own right in the last two decades. Yet little has been done to explore how political theory engages with the actual social, legal, and political reality of a particular polity. East Asians are complexly conditioned by traditional Confucian norms and habits, despite significant social, economic, and political changes in their contemporary lives. This volume seeks to address this important issue by developing a specifically Confucian political and legal theory. The volume focuses on South Korea, whose traditional society was and remains the most Confucianized among pre-modern East Asian countries. It offers an interesting case for thinking about Confucian democracy and constitutionalism because its liberal-democratic institutions are compatible with and profoundly influenced by the Confucian habit of the heart. The book wrestles with the practical meaning of liberal rights under the Korean Confucian societal culture and illuminates a way in which traditional Confucianism can be transformed through legal and political processes into a new Confucianism relevant to democratic practices in contemporary Korea.

korean romance legal series: *Rediscovering Korean Cinema* Sangjoon Lee, 2019-12-12 South Korean cinema is a striking example of non-Western contemporary cinematic success. Thanks to the increasing numbers of moviegoers and domestic films produced, South Korea has become one of the world's major film markets. In 2001, the South Korean film industry became the first in recent history to reclaim its domestic market from Hollywood and continues to maintain around a 50 percent market share today. High-quality South Korean films are increasingly entering global film markets and connecting with international audiences in commercial cinemas and art theatres, and at major international film festivals. Despite this growing recognition of the films themselves, Korean cinema's rich heritage has not heretofore received significant scholarly attention in English-language publications. This groundbreaking collection of thirty-five essays by a wide range of academic specialists situates current scholarship on Korean cinema within the ongoing theoretical debates in contemporary global film studies. Chapters explore key films of Korean cinema, from *Sweet Dream*, *Madame Freedom*, *The Housemaid*, and *The March of Fools* to *Oldboy*, *The Host*, and *Train to Busan*, as well as major directors such as Shin Sang-ok, Kim Ki-young, Im Kwon-taek, Bong Joon-ho, Hong Sang-soo, Park Chan-wook, and Lee Chang-dong. While the chapters provide in-depth analyses of particular films, together they cohere into a detailed and multidimensional presentation of Korean cinema's cumulative history and broader significance. With its historical and critical scope, abundance of new research, and detailed discussion of important individual films, *Rediscovering Korean Cinema* is at once an accessible classroom text and a deeply informative compendium for scholars of Korean and East Asian studies, cinema and media studies, and communications. It will also be an essential resource for film industry professionals and anyone interested in international cinema.

korean romance legal series: *Hate Speech in Asia and Europe* Myungkoo Kang, Marie-Orange Rivé-Lasan, Wooja Kim, Philippa Hall, 2020-03-16 This edited collection provides a timely review of the current state of hate speech research in Asia and Europe, through the comparative examples of Korea, Japan and France. Extending the study of hate speech studies beyond the largely western emphasis on European and US contexts dominant in the field, this book's comparative framework aims to examine hate speech as a global phenomenon spanning Asian and European contexts. An innovative range of nuanced empirical case studies explore hate speech by

analyzing gendered hate speech and nationality, French cartoon humour, official counter radicalization narratives and the use of international law to inform domestic legislation in the Philippines and Japan. A fresh perspective on Asian and European hate speech, this book's evaluation of current of hate speech research also identifies future directions for the development of theory and method. Filling a critical gap in the literature, Hate Speech in Asia and Europe will appeal to students and scholars of law, politics, religion, history, social policy and social science more broadly, as well as Asian Studies.

korean romance legal series: South Korea in Transition Kyung-Sup Chang, 2017-07-05 South Korea has continued to impress the world in the way it has harnessed social modernization, economic development, political democratization and, most recently, multi-faceted globalization. Relying on both established and inventive citizenship perspectives, the authors in this volume collectively show that all these diverse societal transformations and achievements can be concretely and systematically comprehended in conjunction with citizens' reshaping identities, rights, and duties in civil society and national polity. South Koreans' eye-catching traits and trends of educational zeal, economic development, civil activism, nationalism, and neoliberal globalization are analyzed here as diverse yet often interconnected manifestations of citizenship politics. As shown comprehensively in this volume, the necessity of such citizenship-focused analyses is particularly evident in recent years as South Korea has been undergoing a condensed transition from class politics to citizenship politics. This book is a highly inclusive yet incisive account of modern and late modern Korea, utilizing citizenship as a powerful theoretical and analytical tool. Such judicious theoretical and analytical use of citizenship in respect to modern Korean history and society will in turn enable a meaningful expansion of theoretical and methodological utility of citizenship in contemporary global social sciences. This book was based on a special issue of Citizenship Studies.

korean romance legal series: Modern Korea and Its Others Vladimir Tikhonov, 2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea, during which understandings of modernity were largely shaped by the images of Korea's neighbours to the east, west and north. China, Japan and Russia represented at some moments modern threats, but also denoted a range of alternative modernity possibilities, and ultimately provided a model for Korea's pre-colonial and colonial modernity. This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945. It shows that Korea's modern nationalism was at the same time internationalist in its orientation, as the vision of Korea's ideal place in the world and brighter national future was often linked to the examples (positive and negative), threats (perceived and real) and allies abroad. Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms, it offers nuance to the existing picture of the international connections and environment of the Korean national movements. It shows that the picture of Japan inside the anti-Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders: modern achievements of Japan were admired even by anti-colonial nationalists as a possible model for Korea. The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum. Introducing new sources presented in English for the first time, and including themes such as race and ethnicity, global revolution, and gender, this book will be of great interest to students and scholars of Korean, East Asian and Russian history, as well as historians of the colonial/modern era more generally.

korean romance legal series: Redefining Multicultural Families in South Korea Minjeong Kim, Hyeyoung Woo, 2022-06-17 Redefining Multicultural Families in South Korea provides an in-depth look at the lives of families in Korea that include immigrants. Ten original chapters in this volume, written by scholars in multiple social science disciplines and covering different methodological approaches, aim to reinvigorate contemporary discussions about these multicultural families. Specially, the volume expands the scope of "multicultural families" by examining the diverse configurations of families with immigrants who crossed the Korean border during and after the 1990s, such as the families of undocumented migrant workers, divorced

marriage immigrants, and the families of Korean women with Muslim immigrant husbands. Second, instead of looking at immigrants as newcomers, the volume takes a discursive turn, viewing them as settlers or first-generation immigrants in Korea whose post-migration lives have evolved and whose membership in Korean society has matured, by examining immigrants' identities, need for political representation, their fights through the court system, and the aspirations of second-generation immigrants.

korean romance legal series: *Laughing North Koreans* Immanuel Kim, 2020-06-22 This study analyzes North Korean comedy films from the late 1960s to present day. It examines the most iconic comedy films and comedians to show how North Koreans have enjoyed themselves and have established a culture of humor that challenges, subverts, and, at times, reinforces the dominant political ideology. The author argues that comedy films, popular comedians, and the viewers have an intricate interdependent relationship that shaped the film culture—the pre/post production of filmmaking, film-watching experience, and the legacies of actors—in North Korea.
