In March 2020, K-12 schools and institutions of higher education were forced to pivot quickly to online and remote teaching. This new paradigm resulted in many teachers, regardless of content area, being unprepared. In the field of second language teaching and learning, world language and TESOL educators require the investigation of techniques used during the global pandemic to ensure continued success in online teaching practice. The Handbook of Research on Effective Online Language Teaching in a Disruptive Environment provides strong and cogent guidance in the use of pedagogically sound methods of online language instruction. This book builds an innovative knowledge base about teaching during disruptive times in the context of K-20 language learning that is supported with empirical evidence. Er greift gesellschaftliche und kulturelle Transformationsprozesse auf, die u.a. durch die Begriffe cultural turn und visual culture beschrieben werden, und betont die Relevanz hybrider Kulturbegriffe als Grundlage für eine Neuausrichtung inter- und transkulturellen Lernens. Ziel ist es, Lernende auf eine globalisierte, diversifizierte Welt vorzubereiten. Neben theoretischen Überlegungen zur Einbindung von Pop- und

Alltagskultur im Französischunterricht rückt der Sammelband empirische Untersuchungen und unterrichtspraktische Ansätze in den Mittelpunkt. Die auf Deutsch und Französisch verfassten Beiträge widmen sich der Analyse von Lehrmaterialien, der Rolle von Social Media in der Sprach- und Kulturvermittlung sowie der Förderung der interkulturellen Kompetenz. Auch die Beziehung zwischen literarischen Klassikern, die traditionell der Hochkultur zugerechnet werden, und Zugängen zu selbigen mittels zeitgemäßer Formate wie Comics oder Hashtag-Analysen steht im Fokus. Die Autor:innen erörtern, wie populärkulturelle Inhalte im Rahmen globaler Bildungskonzepte wie der Bildung für nachhaltige Entwicklung oder Demokratiebildung genutzt werden können. Themen wie Esskultur, Medien und Migration verdeutlichen die enge Verknüpfung zwischen kulturellem Lernen, der Reflexion von Alltagspraktiken und gesellschaftlichen Herausforderungen.

learn french ebook pdf: *Digital Media in Teaching and its Added Value* David F. Conway, Stefanie Hillen, Melodee Landis, Mary T. Schlegelmilch, Peter Wolcott, 2015 This book project was initiated in fall 2013 at the University of Nebraska at Omaha (UNO), Nebraska during a Global Engagement Research and Teaching Workshop between faculty from UNO and the University of Agder (UiA), Norway. The anthology presents articles that center on the application of digital technologies that add value to the teaching and learning process in a globalized context. learn french ebook pdf: *Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies* Keengwe, Jared, 2022-12-28 Digital content and learning technologies are now the norm at all levels of education. However, there is evidence to suggest that this digital shift is on a spectrum and the spectrum impacts learners in different ways. This means that some instructors who seek to integrate digital content may do so using traditional teaching methods while others use innovative practices to engage learners. Those who integrate innovative digital practices align their instructional practice with theories to facilitate student-centered pedagogies that support and improve the depth and scope of student learning. A primary characteristic of student-centered learning is facilitating collaborative learning using digital content and learning technologies to engage students as well as to enhance meaningful learning. The Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies provides K-20 educators with alternative pedagogical and andragogical models that are innovative and incorporate digital content and learning technologies that promote constructive learning. Further, this book explores the relationship between constructivist learning, digital content, and learning technologies. A primary argument in this book is that constructivist teaching strategies such as collaborative learning coupled with digital content and purposeful learning technologies could benefit student learning in ways that are different from those practiced in traditional, non-digital learning environments. Covering topics such as instructional design, self-efficacy, and library engagement, this major reference work is an essential resource for pre-service teachers, teacher educators, faculty and administrators of K-20 education, librarians, researchers, and academicians.

learn french ebook pdf: English Learning in the Digital Age Shuang Zeng, 2018-11-23
Moving beyond the 'Web 2.0' and 'digital native' rhetoric, this book addresses the complex experiences of learners of English as a foreign language (EFL) in a world embedded with interactive and participatory technologies. Adopting a sociocultural perspective, it investigates EFL learners' behaviours concerning digital technology, and guides exploration into their contextually mediated choices and learning practices in the '2.0' era. The argument is developed on the basis of the findings of a mixed sequential study that focused on 1485 Chinese undergraduates' use and non-use of online tools and applications outside the English classroom. Particular attention is paid to the role

of context and agency when understanding their learning choices and behaviours in the context of digital technology. In particular, the book acknowledges the explanatory power of agency in the minority instances of 'good practices' among these EFL learners. At the same time it demonstrates that for most learners, use of the current web is limited and mostly non-interactive. The barriers to '2.0' transfer are largely contextual and the so-called 'communicative opportunities' and 'participatory culture' in particular did not fit into the learners' sociocultural context of (language) learning. Overall, the compelling argument proposes that the technology-facilitated changes in EFL practices are a 'bottom up' process that is taking place in day-to-day situations and constrained by the learning context within which the learner is situated. Based on these arguments, the book provides a framework that challenges the existing beliefs about (language) learning with online technology, and that contributes to our understanding of how context mediates EFL learners' behaviours surrounding digital technologies. It is a valuable resource for teachers, researchers and policy makers, providing them with insights into using digital technology to stimulate 'good learning practices' outside the classroom.
