language of composition ebook: Assessing Student's Digital Writing Troy Hicks, 2015 In this book, Troy Hicks—a leader in the teaching of digital writing—collaborates with seven National Writing Project teacher consultants to provide a protocol for assessing students' digital writing. This collection highlights six case studies centered on evidence the authors have uncovered through teacher inquiry and structured conversations about students' digital writing. Beginning with a digital writing sample, each teacher offers an analysis of a student's work and a reflection on how collaborative assessment affected his or her teaching. Because the authors include teachers from kindergarten to college, this book provides opportunities for vertical discussions of digital writing development, as well as grade-level conversations about high-quality digital writing. The collection also includes an introduction and conclusion, written by Hicks, that provides context for the inquiry group's work and recommendations for assessment of digital writing. Book Features: An adaptation of the Collaborative Assessment Conference protocol to help professional learning communities examine students' digital work. Detailed descriptions of students' digital writing, including the assessment process and implications for instruction. Links to the samples of student digital writing available online for further review and to be used as digital mentor texts. "Building on his foundational work in helping us to embrace digital writing in the classroom, Hicks and his collaborators help us take the next step to becoming teachers who practice authentic assessment that supports students to learn through digital writing. This is the book (and the thinking) that advances our field." —Sara Kajder, Clinical Assistant Professor, Department of Language and Literacy Education, University of Georgia

language of composition ebook: *Schreiben im Zwiegespräch / Writing as Dialogue* Johanne Mohs, Katrin Zimmermann, Marie Caffari, 2019-01-25 Obwohl Praktiken des Lektorats und des Mentorats zum alltäglichen Bestandteil schriftstellerischer Tätigkeiten gehören, wurden sie von den Literaturwissenschaften bislang kaum untersucht. Der bilinguale Band versammelt Akteure aus dem literarischen Feld sowie der Autorschafts- und Schreibprozess-theorie, welche die Öffnung des Schreibprozesses grundlegend reflektieren. Ihre Beiträge umfassen nicht nur Erfahrungsberichte von Autor_innen, Lektor_innen und Mentor_innen sowie Einblicke in Lehrmethoden des literarischen Schreibens an Hochschulen in verschiedenen Ländern Europas, sondern auch theoretische Ansätze zu einer intersubjektiven literarischen Praxis sowie Entwürfe für dialogische Literaturbegriffe im Zeitalter des Publizierens im Internet. Although practices of editing and mentoring are part of an author's daily activities, they have previously been largely neglected by the literary studies. The bilingual volume therefore assembles players from the fields of literary production and theories of authorship and the writing process, who discuss the development towards an opening up of the creative writing process. Their contributions encompass not only reports of experiences made by authors, editors, and mentors and insights into teaching methods applied in creative writing classes at higher education institutions in different European countries. They also explore theoretical approaches to an intersubjective literary practice as well as suggestions for the definition of a dialogic notion of literature in the age of online publishing.

language of composition ebook: *Developing and Validating an Analytic Rating Scale for Large-Scale EFL Writing Assessment* Shaoyan Zou, 2025-10-21 The debate between holistic and analytical scoring methods in second language assessment has long persisted. This book addresses

the effectiveness and validity of the holistic rating scale used in China's high-stakes CET-4 (College English Test Band 4) writing tests via systematic case study analysis. Using a multi-phase, mixed-methods research methodology, the author creates and validates a new analytical rating scale that redefines and operationalizes critical aspects of writing assessment. Through extensive empirical evidence, including rater cognition studies, expert reviews, and Rasch-based descriptor calibration, the author reveals the limitations of holistic scoring systems and demonstrates the necessity and validity of analytical methods. The author convincingly argues that this new scoring method translates to a more transparent, fair, and diagnostic model for large-scale EFL writing assessment. This book is an essential reference for researchers in applied linguistics, language assessment, and English language education. It also offers valuable insights for assessment specialists, test developers, and language policymakers seeking more effective evaluation frameworks.

language of composition ebook: *Stumme Medien* Roberto Simanowski, 2018-03-28 Der digitale Wandel der Gesellschaft wird von konzeptlosen Politikern und gewinnorientierten Unternehmern diskussionslos durchgewunken und vorangetrieben. Die gelegentliche Kritik an Fake News, Filterblasen und dem Verlust der Privatsphäre trifft nur die Symptome einer viel grundsätzlicheren Gefahr für das Fortbestehen unserer Demokratie. Auch die Schulen und Universitäten entziehen sich ihrer gesellschaftlichen Verantwortung, wenn sie nur vermitteln, wie man die neuen Medien sicher nutzen und effektiv in der Forschung einsetzen kann, statt auch die kulturstiftende Funktion des Computers zu betrachten. Roberto Simanowski plädiert in seiner Streitschrift für eine neue Medienbildung, die kritisch operiert statt affirmativ. Nicht allein die Anwendungskompetenz muss im Zentrum der Bildung stehen, sondern die Frage, wie die neuen Medien unser Leben und unsere Weltwahrnehmung ändern.

language of composition ebook: *Social Media and Digital Politics* James Jaehoon Lee, Jeffrey Layne Blevins, 2024-08-29 Informed by critical theory, this book employs Social Network Analysis (SNA) to examine the ever-increasing impact that social media has on politics and contemporary civic discourse. In just the past decade, social media platforms have been at the forefront of political discord that played out in the January 6th insurrection, the expulsion of a US President from major social media platforms, the attempted regulation of social media in various states, and the takeover of Twitter (now "X") by one of the richest and (arguably) most financially influential persons in the world. This book examines these phenomena through a comprehensive and in-depth exploration of their meaning and implication for democratic society. Informed by SNA, James Jaehoon Lee and Jeffrey Layne Blevins examine several types of social and political commentary on one of the most influential social media networks and argue that the use of emotional appeals in these posts about social and political topics degrades the quality of civic discourse and encourages the abandonment of reasoning in democratic self-governance. A timely and vital text for upper-level students and

scholars in a variety of disciplines from media and communication studies, journalism, and digital humanities to social network analysis, political science, and sociology. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.
