jason kelce political views: SOCIAL MEDIA MUSINGS George Waas, 2024-02-08 Since the attack on the Capitol on January 6, 2021, I have posted numerous essays and other commentaries on Facebook. They are of varying length on matters of politics, law, history, personal matters, and other subjects as well. My first book on social musings contains 142 Facebook posts. My second book is a continuation of my posts, an additional 118. My third book adds another 104 to my list. My fourth book adds 78 more. My fifth book adds another 85. My sixth book includes another 116. Book 7 adds 106 more; Book 8 adds another 82 for a combined total of 834 essays, commentaries, notes, etc., all taken together as social media musings. As I've said throughout this series of books, I believe in an informed citizenry that relies on facts, logic, critical thinking, and reasoned judgment. At a time when too many people rely too heavily on social media and the misinformation from those sources; at a time when anger and rage too often replace common sense and critical thinking, it is hoped that the essays and social commentaries in this series of books on social media musings will inspire dialogue and further citizen involvement in their communities.

jason kelce political views: TURMOIL IN USA Mundiayath Venugopalan, 2024-12-04 In this book we try to describe what created the turmoil: the changing American family, children's education, employment, open borders and illegals in the millions, impact of crime and proxy wars, taxation and spending in the trillions increasing national debt, disputed elections, two failed assassination attempts on former president Trump, a coupe on sitting president Biden by Demo elites, and losing our greatness. Average Americans can only impact the direction of the country by voting in elections, but now there is too much money in our elections for the less competent to get elected making it dangerous to the overwhelming share of we the people. Common people going to a supermarket find grocery prices up by 20% though wages after taxation have been down nearly 5%. Biden's DEIA and "woke" government has created new race problems in our schools and universities. We don't want Biden's sweeping Title IX proposal that would bring in gender identity and sexual orientation in schools just as financier George Soros aimed for biological males to compete in girls' sports and use bathrooms and locker rooms that correspond with their "gender identity." We need to reorganize the departments involved in educating our children and the educational foundations in schools and colleges at all levels. President Biden's open border policy brought in several million strangers of unknown value and utility for us taxpayers to support. Family structure the country was proud of since inception was destroyed. Starting new proxy wars with weak woke military and financing them on taxpayer dime, at the same time not caring for citizen safety from crime and drug proliferation became undesirable to many citizens. Worst of all these, playing Mother Nature on climate and proxy wars with huge amounts of our money has not been rewarding. Certainly, we don't want four more years of Biden's taxing and spending that would increase the federal debt for our children immensely. Having lost people support Biden withdrew his nomination and Harris was chosen to oppose former president Trump. We prayed that America become safe soon after the 2024 election with a Trump victory. People want to be prideful in this country again. People want a cheerleader for this nation, not the one without redeeming value we now have sleeping most of the time on the beach. And we don't have much hope if flip-flop giggling Vice-president Harris with "no change in value" gets elected with "Joy." To our surprise former President Trump painted USA Republican red defeating Harris badly by midnight on election night.
