Mark Hertling: Background and Career Overview

Military Service and Achievements

Mark Hertling is a retired United States Army lieutenant general who served for over 37 years. His career spans significant leadership roles, including commanding U.S. Army Europe and Seventh Army. Hertling's expertise covers areas such as strategy, combat operations, and international military cooperation. Known for his commitment to service, he has received numerous awards, including the Distinguished Service Medal and the Legion of Merit. His experiences in Iraq, Europe, and the U.S. Army Training and Doctrine Command have shaped his insights on military leadership, security, and public policy.

Post-Military Career and Public Influence

After retiring from the Army, Mark Hertling became a respected commentator and analyst on national security, military affairs, and leadership strategies. He has contributed to

major news networks, authored books, and delivered lectures on topics ranging from military readiness to ethical leadership. Hertling's transition to civilian life allowed him to engage with broader policy discussions, making his perspectives valuable to both political and military communities. His public statements and writings often address the intersection of security and democratic values, further fueling interest in his political stance.

Political Affiliation: Is Mark Hertling a Democrat?

Clarifying Mark Hertling's Political Position

The question of "mark hertling democrat" frequently arises due to his outspoken views on governance, leadership, and national defense. Hertling has not officially declared affiliation with the Democratic Party. However, his commentary often aligns with democratic ideals, such as transparency, accountability, and support for strong civilian oversight of the military. He advocates for bipartisan cooperation and emphasizes the importance of democratic principles in shaping military policy. His approach is rooted in professional integrity rather than partisan advocacy, making him a respected voice across political lines.

Factors Influencing Perceptions of His Affiliation

Several factors contribute to the perception that Mark Hertling is a Democrat. His frequent engagement with media outlets known for progressive viewpoints, such as CNN, and his advocacy for policies like expanded veteran support and responsible defense spending, mirror many positions held by Democratic leaders. Additionally, Hertling's criticism of certain partisan practices and emphasis on ethical governance further align him with democratic priorities. Nonetheless, he maintains that his focus is on pragmatic solutions and effective leadership rather than strict party alignment.

Mark Hertling's Views on Democratic Issues

National Security and Defense Policy

Mark Hertling's expertise in national security informs his support for robust defense policies that align with democratic values. He advocates for strategic alliances, intelligent investment in military technology, and collaborative approaches to global threats. Hertling emphasizes the importance of diplomacy and multilateral cooperation, often echoing positions favored by Democratic policymakers. His stance on defense spending prioritizes efficiency, oversight, and long-term security over partisan interests.

Veterans Affairs and Support Programs

Hertling is a vocal supporter of comprehensive veterans' services, including healthcare, education, and transition programs. He argues that honoring service members requires bipartisan commitment to improving benefits and support structures. His views align with Democratic initiatives aimed at expanding access to mental health care, job training, and housing for veterans. Hertling's advocacy reflects a belief in the government's responsibility to uphold the welfare of those who have served.

Leadership, Ethics, and Civil-Military Relations

A central theme in Hertling's public comments is the need for ethical leadership and strong civil-military relations. He supports civilian control of the military, transparency in decision-making, and adherence to constitutional principles. These positions are consistent with democratic governance and reflect his commitment to upholding the rule of law. Hertling often critiques political polarization, urging leaders to prioritize national interests over partisan agendas.

- Support for bipartisan defense reforms
- Advocacy for comprehensive veterans' healthcare
- Promotion of ethical leadership in government and the military
- Emphasis on transparency and accountability
- Endorsement of strong civil-military relations

Impact on Democratic Discourse and Leadership

Influence on Policy and Public Debate

Mark Hertling's perspectives contribute significantly to democratic discourse, particularly on issues of national security and ethical governance. His analysis is frequently cited in discussions about U.S. foreign policy, military readiness, and defense reform. Hertling's willingness to question established norms and advocate for change resonates with those seeking pragmatic solutions within the democratic framework. His influence extends to policymakers, journalists, and civic leaders who view his insights as valuable for shaping informed debates.

Engagement with Democratic Values

Hertling's commitment to democratic values is evident in his emphasis on accountability,

rule of law, and public service. He encourages leaders to engage in respectful dialogue, seek common ground, and protect constitutional rights. His public appearances often highlight the importance of unity and shared responsibility in addressing national challenges. While not officially a Democrat, Hertling's advocacy for these principles enhances his standing among those who champion democratic ideals.

Public Perception and Media Presence

Media Roles and Public Statements

Mark Hertling's visibility in the media has shaped public perception of his political leanings. He regularly appears on television networks, participates in panel discussions, and provides analysis on current events related to national security, defense, and leadership. His articulate and informed commentary leads many to associate him with democratic viewpoints, especially when he critiques policies from a perspective rooted in ethics and accountability. However, Hertling consistently frames his arguments in terms of best practices and principled leadership rather than political allegiance.

Recognition and Influence Among Democratic Audiences

Hertling enjoys a strong following among audiences who value democratic governance and responsible policymaking. His reputation as a nonpartisan expert attracts attention from both sides of the political spectrum, but his alignment with key democratic priorities increases his influence in progressive circles. Civic organizations, academic institutions, and advocacy groups often invite Hertling to speak on topics related to leadership, ethics, and national service, further solidifying his role as an influential voice in democratic discourse.

mark hertling democrat: You're Fired Paul Begala, 2020-08-04 Donald Trump became famous bellowing, "You're fired!" on TV in a make-believe boardroom. Now, millions of Americans want to yell it right back at him—but Trump has seemed to almost defy the laws of political physics. Paul Begala, one of America's greatest political talents, lays out the strategy that will defeat Trump and send him and his industrial-strength spray-on tan machine back to Mar-a-Lago. In You're Fired, Paul Begala tells us how Trump uses division to distract from the actual reality of his record. Distraction, he argues, is Trump's superpower. And this book is Kryptonite. In it, the man who helped elect Bill Clinton and reelect Barack Obama, details: —The special weapons and tactics needed in the unconventional war against this most unconventional politician —How to drive a wedge—or, rather, a pickup truck—between Trump and many of his supporters, especially blue-collar workers and farmers —Where the votes to defeat Trump will come from, and how the Rising American Electorate can catch Trump flat-footed —How Democrats can run on issues ranging from Coronavirus and healthcare to the economy, as well as climate change and Trump's long-term plan to dominate the federal judiciary —There is one chapter called simply, "This Chapter Will Beat Trump." Find out why Begala is so confident and what issue he says will sink the Trumphantic Full of memorable advice and Begala's trademark wit, You're Fired focuses on the lessons we can learn from the party's successes and failures—and the crucial tools Democrats need to beat Trump.

mark hertling democrat: For Love of Country Tulsi Gabbard, 2024-04-30 **#4 on the New

York Times bestseller list** Tulsi Gabbard was the rising star of the Democrat Party. But the growing wokeness, fomenting racism, and intolerance were more than she could stomach, and she left. This is her story and a call to action to Americans who love our country and cherish peace and freedom. Today's Democrat Party is controlled by an elitist cabal of warmongers driven by woke ideology and racializing everything. They are a clear and present threat to the God-given freedoms enshrined in the Constitution. A soldier, former member of Congress, and a former presidential candidate, Tulsi loves her country: "I answered the call to serve and swore an oath, dedicating my life to supporting and defending the Constitution, both in uniform and in public office. I have always been an independent-minded person but became a Democrat when I first ran for office because I saw a party that stood up for the little guy, free speech, and civil liberties. That party is no more." Today that party is unrecognizable: undermining free speech, antagonistic to people of faith, hostile to the police and law and order, suspicious of law-abiding Americans, supporting open borders, and using our national security apparatus to target political opponents. Now an Independent, Tulsi calls on those who love America to stand up for peace, defend freedom, and protect our democratic republic from those seeking to undermine it at every turn. It's time to leave the Democrat Party behind.

mark hertling democrat: Dangerous Instrument Michael A. Robinson, 2023 As increasingly contentious politics in the United States raise concerns over the politicization of traditionally non-partisan institutions, many have turned their attention to how the American military has been--and will be--affected by this trend. Since a low point following the end of the Vietnam War, the U.S. military has experienced a dramatic reversal of public opinion, becoming one of the most trusted institutions in American society. However, this trend is more complicated than it appears: just as individuals have become fonder of their military, they have also become increasingly polarized from one another along partisan lines. The result is a new political environment rife with challenges to traditional civil-military norms. In a data-driven analysis of contemporary American attitudes, *Dangerous Instrument* examines the current state of U.S. civil-military affairs, probing how the public views their military and the effect that partisan tribalism may have on that relationship in the future. Michael A. Robinson studies the sources and potential limits of American trust in the armed services, focusing on the interplay of the public, political parties, media outlets, and the military itself on the prospect of politicization and its associated challenges. As democratic institutions face persistent pressure worldwide, *Dangerous Instrument* provides important insights into the contemporary arc of American civil-military affairs and delivers recommendations on ways to preserve a non-partisan military.

mark hertling democrat: A Peaceful Superpower David Cortright, 2023-02-14 A definitive analysis of the impacts of the Iraq antiwar movement As the Bush administration prepared to wage war against Iraq, millions of people in the United States and around the world took to the streets to warn against the impending disaster. It was the largest wave of antiwar protest in history. This is the story of those dramatic events, told by distinguished peace scholar and activist David Cortright. This revealing account offers an insider view of the emergence of the movement and its political and communications strategies in attempting to prevent the attack. It reviews the arrogance of power as senior officials rejected public and expert opinion and rushed ahead with their ill-fated invasion. The book traces efforts by opponents of the war to end the worsening conflict and win Congressional approval for the withdrawal of troops. Cortright explores the role of the Iraq issue and the impact of antiwar networks in propelling Barack Obama to the White House, and the frustrations many activists felt in navigating the limitations of conventional politics. Readable, insightful and passionately argued, *A Peaceful Superpower* provides a definitive analysis of the impacts of the Iraq antiwar movement and a hopeful look at the power of civil society to shape the course of history.

mark hertling democrat: To Start a War Robert Draper, 2020-07-28 One of BookPage's Best

Books of 2020 “The detailed, nuanced, gripping account of that strange and complex journey offered in Robert Draper’s *To Start a War: How the Bush Administration Took America Into Iraq* is essential reading—now, especially now . . . Draper’s account [is] one for the ages . . . A must-read for all who care about presidential power.” —The Washington Post From the author of the New York Times bestseller *Dead Certain* comes the definitive, revelatory reckoning with arguably the most consequential decision in the history of American foreign policy--the decision to invade Iraq. Even now, after more than fifteen years, it is hard to see the invasion of Iraq through the cool, considered gaze of history. For too many people, the damage is still too palpable, and still unfolding. Most of the major players in that decision are still with us, and few of them are not haunted by it, in one way or another. Perhaps it's that combination, the passage of the years and the still unresolved trauma, that explains why so many protagonists opened up so fully for the first time to Robert Draper. Draper's prodigious reporting has yielded scores of consequential new revelations, from the important to the merely absurd. As a whole, the book paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with *idées fixes* who gamed the process relentlessly. Everything was believed; nothing was true. The intelligence failure was comprehensive. Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, *To Start A War* will stand as the definitive account of a collective process that arrived at evidence that would prove to be not just dubious but entirely false, driven by imagination rather than a quest for truth--evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.

mark hertling democrat: *Not to Yield* Paul M Ruden, 2024-10-20 This raw, provocative book of essays adapted from the blog *ShiningSeaUSA* pulls back the curtain on the Trump presidency, providing a panoramic view of his turbulent time in office, the legal implications of his actions, and the inactions of those surrounding him, enabling him, or standing by. The book includes memoir about life in New York City, legal analyses of major political developments since Donald Trump emerged, deep dives into what went wrong in the Mueller investigation, Trump’s mishandling of the COVID pandemic, and the threat to American democracy from Trump, the Republican Party he has captured, and the “conservative” Supreme Court. *Not to Yield* exposes the corruption and incompetence that dominated Trump’s presidency, his denial of his 2020 election loss, the January 6 attack on the Capitol and Trump’s attempt to return to power, all observed through a legal lens that spotlights blatant disregard for the law of the land and our democratic system.

mark hertling democrat: *Handbook of Research on War Policies, Strategies, and Cyber Wars* Özsungur, Fahri, 2023-05-05 In the new world order, conflicts between countries are increasing. Fluctuations in the economy and imbalances in the distribution of scarce resources to developing countries can result in wars. The effect of the recent COVID-19 pandemic and economic crisis has caused changes in the strategies and policies of countries. Technological changes and developments have also triggered cyber wars. Despite this, many countries prefer to fight on the field. The damage to the international economy of wars, which kills civilians and causes serious damage to developing countries, is a current issue. The *Handbook of Research on War Policies, Strategies, and Cyber Wars* examines the factors that lead to war and the damages caused by war strategies and policies. It is a guide for future generations to develop constructive policies and strategies for living in a peaceful world. Covering topics such as geopolitical consequences, civil liberty, and terrorism, this major reference work is a dynamic resource for policymakers, strategists, government officials, politicians, sociologists, students and educators of higher education, librarians, researchers, and academicians.

mark hertling democrat: Institutions And The Fate Of Democracy Michael H. Bernhard, 2010-06-15 As democracy has swept the globe, the question of why some democracies succeed while others fail has remained a pressing concern. In this theoretically innovative, richly historical study, Michael Bernhard looks at the process by which new democracies choose their political institutions, showing how these fundamental choices shape democracy's survival. Offering a new analytical framework that maps the process by which basic political institutions emerge, Bernhard investigates four paradigmatic episodes of democracy in two countries: Germany during the Weimar period and after World War II, and Poland between the world wars and after the fall of communism. Students of democracy will appreciate the broad applicability of Bernhard's findings, while area specialists will welcome the book's accessible and detailed historical accounts.

mark hertling democrat: The Shaping of Greenland's Resource Spaces Mark Nuttall, 2023-08-07 The book examines ideas about the making and shaping of Greenland's society, environment, and resource spaces. It discusses how Greenland's resources have been extracted at different points in its history, shows how acquiring knowledge of subsurface environments has been crucial for matters of securitisation, and explores how the country is being imagined as an emerging frontier with vast mineral reserves. The book delves into the history and contemporary practice of geological exploration and considers the politics and corporate activities that frame discussion about extractive industries and resource zones. It touches upon resource policies, the nature of social and environmental assessments, and permitting processes, while the environmental and social effects of extractive industries are considered, alongside an assessment of the status of current and planned resource projects. In its exploration of the nature and place of territory and the subterranean in political and economic narratives, the book shows how the making of Greenland has and continues to be bound up with the shaping of resource spaces and with ambitions to extract resources from them. Yet the book shows that plans for extractive industries remain controversial. It concludes by considering the prospects for future development and debates on conservation and Indigenous rights, with reflections on how and where Greenland is positioned in the geopolitics of environmental governance and geo-security in the Arctic. This book will be of great interest to students and scholars of environmental anthropology, geography, resource management, extractive industries, environmental governance, international relations, geopolitics, Arctic studies, and sustainable development.

mark hertling democrat: Germany and Austria 1814-2000 Mark Allinson, 2014-02-04 Written in an accessible style and assuming no prior knowledge, the books in this series address the specific needs of students on language courses. Approaching the study of history from an interest in contemporary culture and society, each book offers a clear historical narrative and sets its country into a wider European context. A knowledge of Germany and Austria's distinctive historical experience is essential for an understanding of these countries today. Beginning in 1814 with the Congress of Vienna, and ending in the 1990s with the consequences of German and European unification, this book focuses on political history and traces the development of liberal parliamentary democracy in Germany and Austria through to the modern Federal Republic of Germany and Second Austrian Republic. The eight chapters, each of which begins with a brief overview of the main developments in European history, are arranged chronologically. Within the chapters, the emphasis is on understanding major developments, their causes, and the relationships between them. Inserts embedded in the text provide details of key concepts, while short extracts from contemporary German texts in the original provide a flavour of the ideas developed. The text also includes topics for discussion on each chapter and a combined glossary of German terms/index.
