long walk novel online: Late Book Culture in Argentina Craig Epplin, 2014-08-28 Modern literary culture depended on the medium of the print book. Today, with the advent of digital technologies, it is far from apparent that print is, or should be, the vehicle of choice for contemporary writers. Print has been placed in relief, as the book becomes a site of experimentation with new platforms for writing. Among Latin American countries, none has been as crucial player in the world of print as Argentina. Argentine presses were the channel for many of the great modern literary experiments in Latin America. As such, it comes as no surprise that today, when those same presses have been gobbled up by transnational media conglomerates and digital technologies abound, Argentine writers would be attentive to the shifting media of literature. *Late Book Culture in Argentina* chronicles that shift. Epplin offers readings of some of the most innovative Argentine writers and collective projects of recent years: Osvaldo Lamborghini, César Aira, the cardboard publishing house Eloísa Cartonera, the poetry project Estación Pringles, Sergio Chejfec, and Pablo Katchadjian. This corpus provides a lens through which to understand the numerous experiments with literary formats in Argentina today. These experiments take on a number of forms-digital, artisanal, and collective-and they provide the ferment for some of Argentina's most audacious contemporary literature. As such they deserve critical attention and theoretical examination.

long walk novel online: The Concatenator Carlo van Vliet, 2016-11-14 The Concatenator is a philosophical journey through human development. It is based on and developed by taking an analytical approach towards the everyday world. It describes and explains the development of

human behaviour through time, and asks questions such as: what are the processes that influence the world in which we live? What is at the core of every human being? Why do we keep doing the things we do the way we do them? By poking holes into the delusions covering the humdrum of our daily lives, this book sheds a light on the core of human behaviour. By concatenating different ideas and insights the processes that influence social, religious and political developments are analysed, and a stab in the dark is given on our possible future.

long walk novel online: *Conflict and Colonialism in 21st Century Romantic Historical Fiction* Hsu-Ming Teo, Paloma Fresno-Calleja, 2024-06-13 This book explores how postmillennial Anglophone women writers use romantic narrativisations of history to explore, revise, repurpose and challenge the past in their novels, exposing the extent to which past societies were damaging to women by instead imagining alternative histories. The novelists discussed employ the generic conventions of romance to narrate their understanding of historical and contemporary injustice and to reflect upon women's achievements and the price they paid for autonomy and a life of public purpose. The volume seeks, firstly, to discuss the work of revision or reparation being performed by romantic historical fiction and, secondly, to analyse how the past is being repurposed for use in the present. It contends that the discourses and genre of romance work to provide a reparative reading of the past, but there are limitations and entrenched problems in such readings.

long walk novel online: *World Changers* John A. Byrne, 2011-12-08 What if you could sit down with some of the world's most influential entrepreneurs and gain their knowledge and insights on how to create a game changing business? Imagine having the chance to listen to a John Mackey (Whole Foods) or a Fred Smith (FedEx) on the most important things they've learned from their experiences. Or having the benefit of the self-reflection of Howard Schultz of Starbucks, who had to come back to the company he originally built to reinvent it and himself? Of course it's not possible to deliver these rock star entrepreneurs to your dinner table. But John A. Byrne offers the next best thing: he spoke with many who have changed the face of business. In *World Changers* he captures the most important lessons they've learned, the biggest challenges they've tackled, and the most valuable advice they can offer others who have an entrepreneurial dream. You'll learn the inspiring stories of how these world changers discovered their disruptive ideas, then made them a reality; overcame a variety of obstacles; and created sustainable enterprises. You'll get the firsthand accounts of how: Bernie Marcus and Arthur Blank got the confidence to start The Home Depot after being fired from their jobs. Reed Hastings turned a forty-dollar video late fee into a disruptive upstart called Netflix. Herb Kohler, the reluctant prince of porcelain, came back to the family business and made it number one in its industry again. Narayana Murthy, after one fateful train ride and wrongful incarceration, converted from communist to capitalist and cofounded one of the most successful entrepreneurial ventures in India. *World Changers* is an inspiration for those who want to create something meaningful on their own. It serves as both a celebration of entrepreneurial achievement as well as a practical handbook for everyone who dreams of starting his or her own world-changing business.

long walk novel online: *The Peacemakers* Bruce W. Jentleson, 2018-04-24 In the twentieth century, great leaders played vital roles in making the world a fairer and more peaceful place. How did they do it? What lessons can be drawn for the twenty-first-century global agenda? Those questions are at the heart of *The Peacemakers*, a kind of global edition of John F. Kennedy's *Profiles in Courage*. Writing at a time when peace seems elusive and conflict endemic, when tensions are running high among the major powers, when history has come roaring back, when democracy and human rights are yet again under siege, when climate change is moving from future to present tense, and when transformational statesmanship is so needed, Bruce W. Jentleson shows how twentieth-century leaders of a variety of types—national, international institutional, sociopolitical, nongovernmental—rewrote the zero-sum scripts they were handed and successfully made breakthroughs on issues long thought intractable. The stories are fascinating: Henry Kissinger, Zhou Enlai, and the U.S.-China opening; Mikhail Gorbachev and the end of the Cold War; Dag Hammarskjöld's exceptional effectiveness as United Nations secretary-general; Nelson Mandela and

South African reconciliation; Yitzhak Rabin seeking Arab-Israeli peace; Mahatma Gandhi as exemplar of anticolonialism and an apostle of nonviolence; Lech Walesa and ending Soviet bloc communism; Gro Harlem Brundtland and fostering global sustainability; and a number of others. While also taking into account other actors and factors, Jentleson tells us who each leader was as an individual, why they made the choices they did, how they pursued their goals, and what they were (and weren't) able to achieve. And not just fascinating, but also instructive. Jentleson draws out lessons across the twenty-first-century global agenda, making clear how difficult peacemaking is, while powerfully demonstrating that it has been possible—and urgently stressing how necessary it is today. An ambitious book for ambitious people, *The Peacemakers* seeks to contribute to motivating and shaping the breakthroughs on which our future so greatly depends.

long walk novel online: Legends Matthew Blackman, Nick Dall, 2023-09-29 We have a lot to be positive about in South Africa. With all our problems, it's easy to feel bleak. But hold those thoughts, because *Legends* might be just the tonic you need to drive off the gloom. This book tells the stories of a dozen remarkable people – some well known, others largely forgotten – who changed Mzansi for the better. Most South Africans are proud of Nelson Mandela – and rightly so. His life was truly astounding, but he's by no means the only person who should inspire us. There's King Moshoeshoe, whose humanity and diplomatic strategies put him head and shoulders above his contemporaries, both European and African. And John Fairbairn, who brought non-racial democracy to the Cape in 1854. Olive Schreiner was a bestselling international author who fought racism, corruption and chauvinism. And Gandhi spent twenty years here inventing a system of protest that would bring an Empire to its knees. *Legends* also celebrates Eugène Marais's startling contributions to literature and natural history (despite a lifelong morphine addiction); Sol Plaatje's wit, intelligence and tenacity in the face of racial zealots; Cissie Gool's lifetime fighting for justice and exposing bigots; and Sailor Malan's battles against fascists in the skies of Europe and on the streets of South Africa. *Legends* also celebrates Eugène Marais's startling contributions to literature and natural history (despite a lifelong morphine addiction); Sol Plaatje's wit, intelligence and tenacity in the face of racial zealots; Cissie Gool's lifetime fighting for justice and exposing bigots; and Sailor Malan's battles against fascists in the skies of Europe and on the streets of South Africa. And then there's Miriam Makeba, who began her life in prison and ended it as an international singing sensation; Steve Biko, who shifted the minds of an entire generation; and Thuli Madonsela (the book's only living legend), who gracefully felled the most powerful man in the land. Engagingly written and meticulously researched, *Legends* reminds South Africans that we have a helluva lot to be proud of.

long walk novel online: Developing Leadership Character Mary Crossan, Gerard Seijts, Jeffrey Gandz, 2015-12-22 This book focuses on the element of leadership that has largely been neglected in

the literature: character. Often thought to be a subjective construct, the book demonstrates the concrete behaviors associated with different character dimensions in order to illustrate how these behaviors can be developed, and character strengthened. Based on research involving over 300 senior leaders from different industries, sectors and countries, Crossan, Seijts, and Gandz developed a model for leadership character that focuses on eleven dimensions. The book begins by setting the context for the focus on character in business, asking what character is and whether it can be learned, developed, molded or changed. Next, the book focuses on each dimension of leadership character in turn, exploring its elements and the ways in which it can be applied in a business setting. The book concludes with a summary of the key insights, an exploration of the interactions between the character dimensions, and a call to the reader to reflect on how to develop one's own and others' leadership character. Bridging theory and management practice, *Developing Leadership Character* will interest students and practitioners alike. Readers will benefit not only from a new, robust theoretical framework for leadership character, but will also learn how character can be developed further.
