macabre fiction pdf: *Folk Horror* Dawn Keetley, Ruth Heholt, 2023-04-15 While the undisputed heyday of folk horror was Britain in the 1960s and 1970s, the genre has not only a rich cinematic and literary prehistory, but directors and novelists around the world have also been reinventing folk horror for the contemporary moment. This study sets out to rethink the assumptions that have guided critical writing on the genre in the face of such expansions, with chapters exploring a range of subjects from the fiction of E. F. Benson to Scooby-Doo, video games, and community engagement with the Lancashire witches. In looking beyond Britain, the essays collected here extend folk horror's geographic terrain to map new conceptualisations of the genre now seen emerging from Italy, Ukraine, Thailand, Mexico and the Appalachian region of the US.

macabre fiction pdf: American Horror Fiction and Class David Simmons, 2017-09-15 In this book, Simmons argues that class, as much as race and gender, played a significant role in the development of Gothic and Horror fiction in a national context. From the classic texts of Edgar Allen Poe and Nathaniel Hawthorne right through to contemporary examples, such as the novels of Stephen King and Stephenie Meyer's Twilight Series, class remains an ever present though understudied element. This study will appeal to scholars of American Studies, English literature, Media and Cultural Studies interested in class representations in the horror genre from the nineteenth century to the present day.

macabre fiction pdf: Thomas Hardy and the Folk Horror Tradition Alan G. Smith, Robert Edgar, John Marland, 2023-05-04 Thomas Hardy and the Folk Horror Tradition takes the uncanny and unsettling fiction of Thomas Hardy as fundamental in examining the lineage of 'Hardyan Folk Horror'. Hardy's novels and his short fiction often delve into a world of folklore and what was, for Hardy the recent past. Hardy's Wessex plays out tensions between the rational and irrational, the pagan and the Christian, the past and the 'enlightened' future. Examining these tensions in Hardy's life and his work provides a foundation for exploring the themes that develop in the latter half of the 20th century and again in the 21st century into a definable genre, folk horror. This study analyses the subduing function of heritage drama via analysis of adaptations of Hardy's work to this financially lucrative film market. This is a market in which the inclusion of the weird and the eerie does not fit with the construction of a past and its function in creating a nostalgia of a safe and idyllic picture of England's rural past. However, there are some lesser-known adaptations from the 1970s that sit alongside the unholy trinity of folk horror: the adaptation for television of the Wessex Tales. From a consideration of the epistemological fissure that characterize Hardy's world, the book draws parallels between then and now and the manifestation of writing on conceptual borders. Through this comparative analysis, Thomas Hardy and the Folk Horror Tradition posits that we currently exist on a moment of fracture, when tradition sits as a seductive threat.

macabre fiction pdf: Global Indigenous Horror Naomi Simone Borwein, 2025-04-15 Contributions by Katrin Althans, Jayson Althofer, Naomi Simone Borwein, Persephone Braham, Krista Collier-Jarvis, Shane Hawk, Jade Jenkinson, June Scudeler, and Sabrina Zacharias Global Indigenous Horror is a collection of essays that positions Indigenous Horror as more than just a genre, but as a narrative space where the spectral and social converge, where the uncanny becomes a critique, and the monstrous mirrors the human. While contentions swirl around the genre category, this exploratory anthology is the first critical edited collection dedicated solely to ways of theorizing and analyzing Indigenous Horror literature. The essays, curated by scholar Naomi Simone Borwein, ask readers to consider what Global Indigenous Horror is—and to whom. The volume opens with a preface by international bestselling horror writer Shane Hawk (enrolled Cheyenne-Arapaho,

Hidatsa, and Potawatomi descent), followed by an overview of Global Indigenous Horror trends, aesthetics, and approaches. The carefully selected contributions explore Indigenous Horror literature and mixed-media narratives worldwide, unraveling the intricate dynamics between the local and global, traditional and contemporary, and human and monstrous. Contributor chapters are grouped not by geographical or cultural variation, but along a spectrum, from a strong emphasis on ways of knowing to a critical inspection of Horror through Indigenous Gothic aesthetics across cultural boundaries and against and beyond nation states.

macabre fiction pdf: Horror Culture in the New Millennium Daniel W. Powell, 2018-11-23 *Horror Culture in the New Millennium: Digital Dissonance and Technohorror* explores the myriad ways in which technology is altering the human experience as articulated in horrific storytelling. The text surveys a variety of emerging trends and story forms in the field, through both a series of critical essays and personal interviews with scholars, editors, authors, and artists now creating and refining horror stories in the new millennium. The project posits a rationale for the presence of technohorror as a defining concern in contemporary horror literature, marking a departure from the monstrous and spectral traditions of the twentieth century in its depictions of frightful narratives marked by the qualities of plausibility, mundanity, and surprise as we tell stories about what it means to be human. As our culture explores the dichotomies of the born/made, natural/artificial, and human/computer—all while subsumed within a paradigm shift predicated on the transition from the traditions of print to emerging digital communications practices—these changes form the basis for horrific speculations in our texts and technologies. Ultimately, *Digital Dissonance: Horror Culture in the New Millennium* explores that paradoxical human attraction for peering into the darkness as translated through our lived experiences in an era of rapidly evolving technologies.
