The Importance of Literary Analysis in Modern Criticism

literary analysis megaphone: Kierkegaard and the Question Concerning Technology
Christopher B. Barnett, 2019-08-22 Over the last several decades, technology has emerged as an important area of interest for both philosophers and theologians. Yet, despite his status as one of modernity's seminal thinkers, Søren Kierkegaard is not often seen as one who contributed to the field. Kierkegaard and the Question Concerning Technology argues otherwise. Christopher B. Barnett shows that many of Kierkegaard's criticisms of the present age relate to the increasing dominance of technology in the West, and he puts Kierkegaard's thought in conversation with subsequent thinkers who grappled with technological issues, from Martin Heidegger to Thomas Merton. Barnett shows that Kierkegaard's writing, with its marked emphases on personal upbuilding, stands as a place where deeper, non-technical modes of thinking are both commended and nurtured. In doing so, Barnett presents a Kierkegaard who remains relevant--perhaps all too relevant--in today's digital age.

Bourdaghs, Richi Sakakibara, Hirokazu Toeda, 2017-05-09 In the wake of its defeat in World War II, as Japan was forced to remake itself from "empire" to "nation" in the face of an uncertain global situation, literature and literary criticism emerged as highly contested sites. Today, this remarkable period holds rich potential for opening new dialogue between scholars in Japan and North America as we rethink the historical and contemporary significance of a number of important issues, including the meaning of the American occupation both inside and outside of Japan, the shifting semiotics of "literature" and "politics," and the origins of crucial ideological weapons of the cultural Cold War. This collection features works by Japanese intellectuals written in the immediate postwar period. These writings—many appearing in English for the first time—offer explorations into the social, political, and philosophical debates among Japanese literary elites that shaped the country's literary culture in the aftermath of defeat.

This volume of essays celebrates his scholarship and legacy. Contributed by language, linguistic and literary scholars, the essays in the collection cover a wide range of issues in core and applied linguistics. Some of the essays pick up the discussion on issues relating to colonial language dominance and language attitudes in Africa, while some examine syntactic, semantic and rhetorical aspects of indigenous Nigerian languages and African literatures. The book's thrust is interdisciplinary. It will undoubtedly appeal to a cross-section of scholars in pragmatics, linguistics, applied linguistics, language and literature.
