In *A Character Named Cervantes*, Howard Mancing and Tatevik Gyulamiryan explore how Cervantes's life is depicted in biographies and fiction and how he, as a (bio)fictional character, contributes to our understanding of reality and fiction, fact and invention, history and imagination, and above all, our perceptions of these concepts. The book reveals that Cervantes's life was unlike anyone else's. Characterized by an array of extraordinary experiences – both triumphant and tumultuous, adventurous and misfortunate, impassioned and disillusioned – his life events mirror the quixotic spirit he famously imbued in his iconic character. Despite the wealth of documented events, a lot about Cervantes remains uncovered, which allows for human imagination, interpretation, and creation to intervene, attempting to provide a more comprehensive biography. The book highlights how Cervantes's life has inspired multiple interpretations and recreations by historians, biographers, and novelists alike. It emphasizes the crucial role of human imagination in the crafting of biographies, particularly within literary and scholarly traditions. Ultimately, *A Character Named Cervantes* examines Cervantes through the dual lenses of fiction and fictionalized history.

literary analysis housekeeper professor: Linguistic Representations of Gender in Children's Literature Sally Hunt, 2025-02-25 This book examines how aspects of gender and identity are represented in some of the best-selling children's book series published in English over the last 100 years. Combining the quantitative methods of corpus linguistics with Critical Discourse Analytic interpretation, the author's analysis shows how gendered constructions of identity are built on uneven patterns of representation. Stories, and the characters who inhabit them, not only provide child readers with entertainment, but also the building blocks of their identities: linguistic choices construct representations of how to be a girl or how to be a boy, often in binary, mutually exclusive terms. Hunt's critical corpus linguistic approach uncovers patterns of representation beyond the fiction author's awareness, which reveal their assumptions about how girls and women behave, or should behave, or what boys and men do, or should do. Chapters cover the gendered patterns found in how characters speak, how they express emotion and how they act on the world, as well as those characters who contradict these patterns and perform their genders in different ways. The detailed analysis and its implications will be relevant to teachers of literature, both at school and at university level, media researchers, lecturers and students of linguistics or gender studies, and anyone interested in child development and the fiction written for children.
