Frank M. Conaway, Jr., 2013-06 In my first cipher text titled Baptist Gnostic Christian Eubonic Kundalini Spiritual Ki Do Hermeneutic Metaphysics, ISBN #0595206780, I discussed the Biblical science of the brazen serpent passed down through Moses in the science of the Nehushtan. In this text, I decipher several pieces of Egyptian artwork found in the Eternal Egypt exhibit. I provide this to show that I have knowledge and understanding of the Egyptian sacred priesthood knowledge. I use the symbolic language as the standard. I also give a deciphered meaning to the Egyptian art piece Stela 55001 which Egyptologists have secretly unsuccessfully been trying to decipher for over thirty years. I offer you the findings of my research and many terms that may not be in your vocabulary. Maybe you should look them up! I relate this to a hidden explanation of the Book of the Revelation that I found. I am talking about the mystery found in The Bible at Revelation 13:18. I reveal what I think the bolt of brama nidi is in Kundalini yoga.

lulu lioness solutions: A BLIND EYE DIANE EAGLE, 2025-01-31 To those of us back home, the Vietnam War is a blurred black and white newsprint image. For Ellie Ketcham, a neophyte photojournalist in 1968 Saigon, the noise and brutality of war pulsate in full color. Smart and instinctive, Ellie traveled to Saigon to interview journalists about their war coverage experience and was mesmerized by every nuance of battleground reporting. Through the Tet Offensive and search and rescue missions, she plunged headlong into documenting battles and secret sites through her camera lens. It's a story of intrigue, war, and betrayal, not to mention the currency of war in Southeast Asia . . . opium. Will Ellie make her way through the complex maze of battlefields unscathed while dancing on a knife edge of adventure?

lulu lioness solutions: God Gametes and The Planet of the Butterfly Queen Robert Jameson, 2010-02-08 The God Gametes theory is a refreshing look at what may be both the meaning of life and the reason for its creation. It argues that life on earth and in fact our human consciousness, are universal entities. A model is presented that assumes our universe is a tiny part of a multiverse, arguing that the multiverse is a hierarchical structure, each level a reproductive system of intelligent living systems on the next higher level. We take a fictional look at our parent species on that next higher level to find they are far more complex creatures than us but their universe is older and will soon run out of fuel, to then die. Parent species know that to preserve their life and the billions of years of heritage they created they must reproduce on a lower multiverse level. This, we believe, is why humans have developed many features such as a large brain that make our survival on earth more difficult. Yet these features have evolved because they are needed by the reproductive system of the parent species. -- from lulu.com.

lulu lioness solutions: *The Island of Avalon: Volume 1* Francis Lot, 2015-06-12 La matiere de Bretagne is a name given collectively to the body of medieval literature and legendary material associated with Great Britain; especially King Arthur and his knights and their association to the Grail. It is the link between the Grail stories and the legends of both King Arthur and Joseph of Arimathea and their connection to Glastonbury, the Island of Avalon, which is central to this investigation. The legend of King Arthur at Glastonbury is primarily derived from Geoffrey of Monmouth's mention of King Arthur's arrival at the Island of Avalon after his fatal fight with Mordred. It is the later bogus disinterment of King Arthur's manufactured grave at Glastonbury, which establishes Glastonbury's synonymy with Avalon. This volume sets out to show how the abbot of Glastonbury, Henry Blois, used Geoffrey of Monmouth as a nom de plume and concocted the epic tale from Brutus to Arthur which is now known as the 'History of the Kings of Britain' and was responsible for composing the Prophecies of Merlin

Then, they began talking about how to hike the 2,160-mile-long Georgia-to-Maine Appalachian Trail.
