mariam laila book: Understanding Religion: Some Approaches and Attitudes Bosudha Bandyopadhyay, 2023-03-29 The term religion lends itself to various meanings and interpretations depending upon the nature, education and the level of consciousness and conscience of a particular human being who actually harbors the idea or practices of his faith. It is evident therefore, that the concept of religion in human life and society appears to be most controversial and a complex thing which has variable meanings and significance to various human minds. It is indeed pitiful to observe that in the mountain maelstrom of materialism, man develops the tendency to ignore or undermine the edifying and enriching experience of religions and prefers to stay away from the path of the nourishment of his soul without which, both human existence and progress are seriously endangered. The practice of spiritual uplift is therefore, an indispensable condition of human progress and civilization, for a life conditioned by, and dependent on, mere material development is deemed to be fraught with utter futility. The essays chosen in this volume by and large have been written by scholars with a view, to unfolding either the virtues or shortcomings of many of the principles and practices of different religions. Some of the essays have sought to examine the causes and reasons behind the unhealthy views and superstitions and also to reveal a good and elevating virtues the cultivation of which may enlighten us for the realization of the noble ideas and ideals of life. The writers have made an honest attempt to look at the grim reality of some religious superstitions in order to find out the hidden light that rise beyond the boundary of blind beliefs and faiths. Such a quest is always worthwhile for a sincere seeker in quest of truth and light. The authors of the essays have taken pains to diagnose the deep-seated malady of blind belief, fanaticism and

dogmatisms.

mariam laila book: *A Novel Idea* Randee Lipson Lawrence, Patricia Cranton, 2015-06-25
Lawrence and Cranton present a unique research methodology involving fictional characters as research participants. Transformative learning themes are identified through a content analysis of six contemporary novels. The characters from these novels are invited to come to a virtual space, the Butterfly Café where they engage in a series of dialogues on the research themes related to their transformative learning experiences. Each of the dialogues is followed by a debriefing session to deepen the understanding of the original themes. Readers are given a window into Lawrence and Cranton's analysis and interpretive process as they engage in dialogue with Celie from the *Color Purple*, Macon from *Accidental Tourist*, Mariam and Laila from *A Thousand Splendid Suns*, and others. The dialogues become a story within the stories told in the novels. The end product is the introduction of a new model of transformative learning based on a metaphor of planting, cultivating, and growing seeds. Central to the model is becoming conscious, a process that appeared in each of the novels. Readers will find insights into transformative learning that are outside of the standard academic treatment of the topic. Moving the research into the realm of fiction provides the opportunity for a creative exploration of transformative learning. Yet, since fiction inevitably mirrors reality, readers will be able to relate the analysis, the dialogues, and the ensuing model to their own lives and to their adult education practice.
