music appreciation textbook pdf: Musical Gentrification Petter Dyndahl, Sidsel Karlsen, Ruth Wright, 2020-09-02 Musical Gentrification is an exploration of the role of popular music in processes of socio-cultural inclusion and exclusion in a variety of contexts. Twelve chapters by international scholars reveal how cultural objects of relatively lower status, in this case popular musics, are made objects of acquisition by subjects or institutions of higher social status, thereby playing an important role in social elevation, mobility and distinction. The phenomenon of musical gentrification is approached from a variety of angles: theoretically, methodologically and with reference to a number of key issues in popular music, from class, gender and ethnicity to cultural consumption, activism, hegemony and musical agency. Drawing on a wide range of case studies, empirical examples and ethnographic data, this is a valuable study for scholars and researchers of Music Education, Ethnomusicology, Cultural Studies and Cultural Sociology. music appreciation textbook pdf: Teaching Difficult Topics Olivia R. Lucas, Laura Moore Pruett, 2024-10-14 Teaching Difficult Topics provides a series of on-the-ground reflections from

college music instructors working in a wide variety of institutional settings about their approaches to inclusive, supportive pedagogy in the music classroom. Although some imagine the music classroom to be an apolitical space, instructors find themselves increasingly in need of resources for incorporating issues of race and ethnicity, gender and sexuality, and historical trauma into their classrooms in ways that support student learning and safeguard their classroom communities. The teaching reflections in *Teaching Difficult Topics* examine difficult themes that fall into three primary categories: subjects that instructors sense to be controversial or emotionally challenging to discuss, those that derive from or intersect with real-world events that are difficult to process, and bigger-picture discussions of how music studies often focuses on dominant narratives while overlooking other perspectives. Some chapters offer practical guidance, lesson plans, and teaching materials to enable instructors to build discussions of race, gender, sexuality, and traumatic histories into their own classrooms; others take a more global view, reflecting on the importance and relevance of teaching these difficult topics and on how to respond in the music classroom when external events disrupt daily life.

music appreciation textbook pdf: *A Passionate Life* Randall S. Beach, 2022-09-01 Finalist for the 2022 Foreword INDIES Book of the Year Award in the Biography Category One hundred fifty years ago, the Adirondack Mountains were overrun. Thousands of middle-class urbanites from Boston and New York City abandoned the comfort of their homes and rushed into the unknown, northern wilderness, believing they would find great restorative and even curative powers. These would-be adventurers were informed by one man, William Henry Harrison Murray, a preacher from Boston. *A Passionate Life* is the first comprehensive biography of Murray, a man who has been described as the father of the American outdoor movement and the modern vacation. While he is best known for his promotion of the Adirondacks in the late nineteenth century, Murray was a complex character who was driven to promote his many passions. From the 1860s until his early twentieth-century death, Murray was a famous preacher, popular writer and lecturer, an equine enthusiast, patent owner, publisher, businessman, lumberman, temperance advocate, free lover, women's rights advocate and advocate for educational reform. In many ways, Murray's passions followed the progressive movements within nineteenth-century America and attempted to address questions still relevant to today's society.
