monster hunting guide download: *Monsters and Angels* Kevin Hunter, 2018-07-22 Every person on the planet is capable of being empathic and sensitive, to becoming an energy vampire or toxic monster. No one is exempt from displaying the darker sides of their ego. The easiest and most efficient way to spread any kind of energy is online. Every time you log onto the Internet, there is a larger chance that you're going to see something related to the news, media, or gossip areas thrown in front of you, even if you attempt to avoid it as much as possible. You're absorbing everything that your consciousness faces, including the ugly and the wicked, which has its own consequences. This tempestuous energy is tossed into the Universe ultimately creating a flame-throwing battleground inside and around you. *Monsters and Angels* discusses how technology, media, and social media have an immense power in distributing both positive and negative influences far and wide. This is about being mindful of what can negatively affect your state of being, and how to counter and avoid that when and wherever possible. This is why it's beneficial to govern yourself, your life, and your surroundings like a strict disciplined executive. Some of the topics discussed include: Energy vampires, toxic monsters, sensitive angels, and empaths, the technological craze, being sensitive in a technical driven world, connecting through technical means, the insanity of the ego, steering clear of drama, finding balance in the media, technological detox tips, rising above the mundane and into the Divine, climbing beyond superficiality, and centering your inner light. It is inevitable that you will come across difficult personalities that don't align comfortably with yours. Everyone is different from one another even if there are mutual interests and disinterests. The entire planet of people have been thrown together on the same rock and forced to find a way to get along, peacefully, which seems like an unreasonable request seeing as how challenging it is for that to happen. How you navigate demanding circumstances with finesse can determine how difficult or smooth your Earthly life road trip can become. Part of that entails practicing emotional detachment and working on letting what you can go, so you're not carrying around any toxic feelings conjured up as a result of crossing paths with someone that rubs you the wrong way. An energy vampire is someone that governs their life primarily in a negative based state to the point and extent that it affects their well-being and those around them. The types of people that notice this undesirable behavior in others tend to be highly sensitive beings or Empaths. Empaths have extraordinarily empathic sensitive traits in being able to intuit what someone else is going through with minimal effort. Empaths sense every nuance around them to the point that it can drain their energy. Energy vampires symbolically or metaphorically behave like a real vampire and head straight to the empath to figuratively drink their blood. The blood is representative of someone's energy state. The energy vampire grows stronger when in the presence of an empath. The higher advantage for an empath is they are extremely sensitive, which gives them a larger degree of psychic intuition. If they move into the role of displaying energy vampire traits, they are able to intuit when they overstep their boundaries with someone, and can quickly modify their behavior back into the awesome light empath they are most of the time, whereas an authentic energy vampire is perpetually in that negative state around the clock. It is up to the empath to be firm and ferocious about their territory to ensure it is protected from the energy vampire.

After twenty years in New York, Beverley Green has had enough of big-city anonymity. Guthrie, the former capital of her home state of Oklahoma, seems like the perfect place to fulfill her dreams of owning chickens and opening an independent bookstore. But neither of those things pays the bills (yet), so she accepts a side gig as a reporter for the local paper. Trouble is, she's been instructed to cover a spate of Bigfoot sightings, which makes her question her boss' commitment to journalism ... and the sanity of the entire town. Because everyone—from her persnickety landlady to Guthrie's grumpy sheriff—seems to believe in Sasquatch. Beverley's convinced they're nuts, but if she proclaims herself as the only unbeliever, she risks being forever thought of as the resident outsider. And outsiders don't sell many books. Desperate for help with the article, Beverley enlists the local "Bigfoot expert" (and resident cute guy) Danny Cadence to take her on an overnight Sasquatch stakeout. The night results in more than one front-page-worthy story ... and as Beverley soon discovers, once you add in a nosey landlady, one cantankerous chicken, and, well, Bigfoot ... the simple life may not be so simple after all! *Beverley Green's First Adventure* is the first book in

the sassy and irreverent Beverley Green Adventures series. If you're looking to lose yourself in a lighthearted yarn, this is the novel for you! Publisher's Note: previously released as Beverley Green: Sasquatch Hunter
