morrison novel free: Toni Morrison's Fiction Jan Furman, 2014-05-19 In this revised introduction to Nobel Laureate Toni Morrison's novels, Jan Furman extends and updates her critical commentary. New chapters on four novels following the publication of *Jazz* in 1992 continue Furman's explorations of Morrison's themes and narrative strategies. In all Furman surveys ten works that include the trilogy novels, a short story, and a book of criticism to identify Morrison's recurrent concern with the destructive tensions that define human experience: the clash of gender and authority, the individual and community, race and national identity, culture and authenticity, and the self and other. As Furman demonstrates, Morrison more often than not renders meaning for characters and readers through an unflinching inquiry, if not resolution, of these enduring conflicts. She is not interested in tidy solutions. Enlightened self-love, knowledge, and struggle, even without the promise of salvation, are the moral measure of Morrison's characters, fiction, and literary imagination. Tracing Morrison's developing art and her career as a public intellectual, Furman examines the novels in order of publication. She also decodes their collective narrative chronology, which begins in the late seventeenth century and ends in the late twentieth century, as Morrison delineates three hundred years of African American experience. In Furman's view Morrison tells new and difficult stories of old, familiar histories such as the making of Colonial America and the racing of American society. In the final chapters Furman pays particular attention to form, noting Morrison's continuing practice of the kind of deep novelistic structure that transcends plot and imparts much of a novel's meaning. Furman demonstrates, through her helpful analyses, how engaging such innovations can be.

morrison novel free: Toni Morrison's Fiction David L. Middleton, 2016-01-28 This collection of contemporary criticism explores her concern with racial and gender issues and analyzes her in relation to other major modern authors, her philosophical and religious speculations, and her preoccupation with the process of fiction-making. These classics provide a broad look at critical

argument about Toni Morrison's meanings and significance during the past 10 years. From the formative effects of learning one's Otherness as a result of majority perception, to the apocalyptic implications of racial memory, to the moral and psychologically constructive act of storytelling, to the structural function served by improvisational jazz music, to the imagery associated with both flight and naming, to the uniquely female experience of community-major issues raised by Morrison's body of work are explicated here.

morrison novel free: Love and Narrative Form in Toni Morrison's Later Novels Jean Wyatt, 2017-03-01 In *Love and Narrative Form in Toni Morrison's Later Novels*, Jean Wyatt explores the interaction among ideas of love, narrative innovation, and reader response in Toni Morrison's seven later novels. Love comes in a new and surprising shape in each of the later novels; for example, Love presents it as the deep friendship between little girls; in Home it acts as a disruptive force producing deep changes in subjectivity; and in Jazz it becomes something one innovates and recreates each moment—like jazz itself. Each novel's unconventional idea of love requires a new experimental narrative form. Wyatt analyzes the stylistic and structural innovations of each novel, showing how disturbances in narrative chronology, surprise endings, and gaps mirror the dislocated temporality and distorted emotional responses of the novels' troubled characters and demand that the reader situate the present-day problems of the characters in relation to a traumatic African American past. The narrative surprises and gaps require the reader to become an active participant in making meaning. And the texts' complex narrative strategies draw out the reader's convictions about love, about gender, about race—and then prompt the reader to reexamine them, so that reading becomes an active ethical dialogue between text and reader. Wyatt uses psychoanalytic concepts to analyze Morrison's narrative structures and how they work on readers. *Love and Narrative Form* devotes a chapter to each of Morrison's later novels: *Beloved*, *Jazz*, *Paradise*, *Love*, *A Mercy*, *Home*, and *God Help the Child*.

morrison novel free: Relational Psychoanalysis, Volume 4 Lewis Aron, Adrienne Harris, 2014-01-27 Building on the success and importance of three previous volumes, *Relational Psychoanalysis* continues to expand and develop the relational turn. Under the keen editorship of Lewis Aron and Adrienne Harris, and comprised of the contributions of many of the leading voices in the relational world, Volume 4 carries on the legacy of this rich and diversified psychoanalytic approach by taking a fresh look at recent developments in relational theory. Included here are chapters on sexuality and gender, race and class, identity and self, thirdness, the transitional subject, the body, and more. Thoughtful, capacious, and integrative, this new volume places the leading edge of relational thought close at hand, and pushes the boundaries of the relational turn that much closer to the horizon. Contributors: Neil Altman, Jessica Benjamin, Emanuel Berman, Jeanne Wolff Bernstein, Susan Coates, Ken Corbett, Muriel Dimen, Martin Stephen Frommer, Jill Gentile, Samuel Gerson, Virginia Goldner, Sue Grand, Hazel Ipp, Kimberlyn Leary, Jonathan Slavin, Malcolm Owen Slavin, Charles Spezzano, Ruth Stein, Melanie Suchet.

morrison novel free: Contemporary American Women Writers Catherine Rainwater, William J. Scheick, 2014-10-17 Ann Beattie, Annie Dillard, Maxine Hong Kingston, Toni Morrison, Cynthia Ozick, Grace Paley, Marge Piercy, Anne Redmon, Anne Tyler, and Alice Walker all seem to be especially concerned with narrative management. The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience, vision, and expression. The contributors to this volume discover diverse narrative strategies. Beattie, Dillard, Paley, and Redmon in divergent ways rely heavily upon narrative gaps, surfaces, and silences, often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language. For Kingston and Walker, verbal assertiveness is the focus of narratives depicting the gradual empowerment of female protagonists who learn to speak themselves into existence. Ozick and Tyler disrupt conventional reader expectations of the anti-novel and the family novel, respectively. Finally, Morrison's and Piercy's works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes.

In examining the writings of these ten important women authors, this book illuminates a significant moment in literary history when women's voices are profoundly reshaping American literary tradition.

morrison novel free: Ethics and Aesthetics in Toni Morrison's Fiction Mariangela Palladino, 2018-01-22 Ethics and Aesthetics in Toni Morrison's Fiction investigates Morrison's aesthetics in terms of narrative's ethical import. Morrison's writing is concerned with ethically debatable issues and it offers a problematic representation of human experiences in African American history. Whilst previous critical studies consider ethics in relation to events in the story, Palladino explores its intersection with aesthetics. Narrativizing the moral law, Morrison's imperative is to relate the past, and to find ways to tell what is often unspeakable. The quest for ways to narrate horrific facts is a quest for an aesthetics which includes an appeal to the reader and thus necessarily engages with the ethical. This study foregrounds the equivocal as a key feature of narrative ethics.

morrison novel free: The Oxford Encyclopedia of African Thought Abiola Irele, 2010 From St. Augustine and early Ethiopian philosophers to the anti-colonialist movements of Pan-Africanism and Negritude, this encyclopedia offers a comprehensive view of African thought, covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe. The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse - philosophy, political thought, religion, literature, important social movements - that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience. The Encyclopedia is a large-scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements, producing a collection that is an essential resource for teaching, an invaluable companion to independent research, and a solid guide for further study.

morrison novel free: The Purposes of God G. Michael Zbaraschuk, 2015-06-29 The doctrine of providence is one that has fallen into theological oblivion in recent years. How can the words God and history still be said in the same sentence? This book surveys important contemporary attempts to talk about God and history, examines why they haven't been successful, and offers a contemporary doctrine of providence that is historically realistic, adequate to religious experience, and grounded in the Christian tradition. The author draws on the philosophical orientation of Alfred North Whitehead and brings it into conversation with liberation and ecological theologies.

morrison novel free: The Soul of Justice Cynthia Willett, 2018-05-31 Cynthia Willett brings together diverse insights from social psychology, classical and contemporary literature, and legal and justice theory to redefine the basis of the moral and legal person. Feminists, communitarians, and postmodern thinkers have made clear that classical liberalism, with its emphasis on individual autonomy and excessive rationalism, is severely limited. Although she is sympathetic with the liberal view, Willett finds it necessary to go further. For her, attention to the social dimensions of the family and civil society is critical if issues of race, gender, class, and sexuality are to be taken seriously. Interdependency, not autonomy, is of increasing significance in an era of globalization. Willett proposes an alternate normative theory that recognizes the impact of social forces on individual well-being. Citizenship in a democracy should not be defined solely on the basis of rights to autonomy, such as bare rights to property or free speech, she explains. Rather, citizenship should be defined first of all in terms of the rights, responsibilities, and capacities of the social person. It is within the African American tradition of political thought that Willett finds a more useful definition of human identity and political freedom. The African American experience offers a compelling vision of social change and a deeper understanding of what it means to be a social person. By focusing on everyday battles against racism, Willett contends, we can gain valuable insight into the meaning of justice.

Published in Australia, Canada, India, Nigeria, Puerto Rico and the United States between 1995 and 2005, the novels use fictional houses to criticize and unsettle home and homeland, depicting their linked oppressions and exclusions.

morrison novel free: *Contemporary Women's Fiction. Feminist Narratives in Selected Twentieth Century Women's Novels* Subashish Bhattacharjee, Dipak Barman, 2016-06 Women's writing in the twentieth century has shown a dramatic shift in its preoccupations and intentions. Rather than occupying itself with the trivialities of the social and domestic spheres, the writing by women in the latter half of the twentieth century and approaching the twenty-first century inheres concerns such as political, historical, questions of gender equity and rights, interrogations of normative and patriarchal practices and other such issues that have not been adequately addressed in women's writing thus far. The four essays in the present volume are certainly not exhaustive or adequate in this regard — that of addressing this lacuna in literary scholarship — but it may be viewed as a attempt to bridge the proverbial gap. As a precursor to further scholarly works in the area, already existing as well as forthcoming, the essays discuss the works of Toni Morrison, Margaret Atwood, Bapsi Sidhwa, Manju Kapur and Sunanda Sikdar. Although the essays purport to exploring select areas of the authors' oeuvre, the distinctive fictional structures of the authors help us to explore wider theoretical and critical issues such as postmodernity, postcolonialism, feminism, globalism, nationalism and other related issues.

morrison novel free: *Cross-Rhythms* Keren Omry, 2011-10-20 *Cross-Rhythms* investigates the literary uses and effects of blues and jazz in African-American literature of the twentieth century. Texts by James Baldwin, Ralph Ellison, Langston Hughes, Zora Neale Hurston, Gayl Jones, Toni Morrison and Ishmael Reed variously adopt or are consciously informed by a jazz aesthetic; this aesthetic becomes part of a strategy of ethnic identification and provides a medium with which to consider the legacy of trauma in African-American history. These diverse writers are all thoroughly immersed in a socio-cultural context and a literary aesthetic that embodies shifting conceptions of ethnic identity across the twentieth century. The emergence of blues and jazz is, likewise, a crucial product of, as well as catalyst for, this context, and in their own aesthetic explorations of notions of ethnicity these writers consciously engage with this musical milieu. By examining the highly varied manifestations of a jazz aesthetic as possibly the fundamental common denominator which links these writers, this study attempts to identify an underlying unifying principle. As the different writers write against essentializing or organic categories of race, the very fact of a shared engagement with jazz sensibilities in their work redefines the basis of African-American communal identity.

morrison novel free: Objects and Intertexts in Toni Morrison's "Beloved" Maureen E. Ruprecht Fadem, 2020-11-17 *Objects and Intertexts in Toni Morrison's "Beloved": The Case for Reparations* is an inspired contribution to the scholarship on one of the most influential American novels and novelists. The author positions this contemporary classic as a meditation on historical justice and re-comprehends it as both a formal tragedy— a generic translation of fiction and tragedy or a "novel-tragedy" (Kliger)—and a novel of objects. Its many things—literary, conceptual, linguistic— are viewed as vessels carrying the (hi)story and the political concerns. From this, a third conclusion is drawn: Fadem argues for a view of *Beloved* as a case for reparations. That status is founded on two outstanding object lessons: the character of *Beloved* as embodiment of the subject-object relations defining the slave state and the grammatical object "weather" in the sentence "The rest is..." on the novel's final page. This intertextual reference places *Beloved* in a comparative link with *Hamlet* and *Oresteia*. Fadem's research is meticulous in engaging the full spectrum of tragedy theory, much critical theory, and a full swathe of scholarship on the novel. Few critics take up the matter of reparations, still fewer the politics of genre, craft, and form. This scholar posits Morrison's tragedy as constituting a searing critique of modernity, as composed through meaningful intertextualities and as crafted by profound "thingly" objects (Brown).

Altogether, Fadem has divined a fascinating singular treatment of *Beloved* exploring the connections between form and craft together with critical historical and political implications. The book argues, finally, that this novel's first concern is justice, and its chief aim to serve as a clarion call for material—and not merely symbolic—reparations. morrison novel free: Women's Work Courtney Thorsson, 2013-06-17 In *Women's Work*, Courtney Thorsson reconsiders the gender, genre, and geography of African American nationalism as she explores the aesthetic history of African American writing by women. Building on and departing from the Black Arts Movement, the literary fiction of such writers as Toni Cade Bambara, Paule Marshall, Gloria Naylor, Ntozake Shange, and Toni Morrison employs a cultural nationalism—practiced by their characters as women's work—that defines a distinct contemporary literary movement, demanding attention to the continued relevance of nation in post-Black Arts writing. Identifying five forms of women's work as organizing, dancing, mapping, cooking, and inscribing, Thorsson shows how these writers reclaimed and revised cultural nationalism to hail African America.

morrison novel free: Critical Responses About the Black Family in Toni Morrison's God Help the Child Rhone Fraser, Natalie King-Pedroso, 2019-12-17 *Critical Responses About the Black Family in Toni Morrison's God Help the Child* explores the integral role of what Kobi Kambon has called the “conscious African family” in developing commercial success stories such as those of Morrison's protagonist, Bride. Initially, Bride's accomplishments are an extension of a superficial “cult of celebrity” which inhabits and undermines the development of meaningful interpersonal relationships until a significant literal and metaphorical journey helps her redefine success by facilitating the building of community and family.

morrison novel free: Ethics, Literature, and Theory Stephen K. George, 2005-07-07 *Ethics, Literature, and Theory: An Introductory Reader* brings together the work of contemporary scholars, teachers, and writers into lively discussion on the moral role of literature and the relationship between aesthetics, art, and ethics. Do the rich descriptions and narrative shapings of literature provide a valuable resource for readers, writers, philosophers, and everyday people to imagine and confront the ultimate questions of life? Do the human activities of storytelling and complex moral decision-making have a deep connection? What are the moral responsibilities of the artist, critic, and reader? What can religious perspectives—from Catholic to Protestant to Mormon—contribute to literary criticism? What do we mean when we talk about ethical criticism and how does this differ from the common notion of censorship? Thirty well known contributors reflect on these questions including: literary theorists Marshall Gregory, James Phelan, and Wayne Booth; philosophers Martha Nussbaum, Richard Hart, and Nina Rosenstand; and authors John Updike, Charles Johnson, Flannery O'Connor, and Bernard Malamud. Divided into four sections, with introductory matter and questions for discussion, this accessible anthology represents the most crucial work today exploring the

interdisciplinary connections among literature, religion and philosophy.
