notary service expansion blueprint: *Informality and Inclusive Growth in the Middle East and North Africa* Gladys Lopez-Acevedo, Marco Ranzani, Nistha Sinha, Adam Elsheikhi, 2023-06-30 The long-standing informality debate in the Middle East and North Africa (MENA) Region has taken on a new urgency as it looks for a pathway to more socially inclusive growth that is less reliant on fossil fuels. This is occurring against a backdrop of subpar labor market outcomes, further growth setbacks, and deteriorating fiscal and current account deficits in the aftermath of the COVID-19 pandemic--and in the wake of high inflation and supply chain disruptions triggered by the Russian Federation-Ukraine war. 'Informality and Inclusive Growth in the Middle East and North Africa' aims to better understand the characteristics and incentive structure that have led to the prevalence of informal employment in three MENA countries--the Arab Republic of Egypt, Morocco, and Tunisia. The report breaks new ground by adopting a comprehensive perspective to focus on the features of, and interrelationships among, different aspects of these countries' institutional landscapes to make sense of the complex incentive structure that workers and firms face when deciding between formal and informal options. Specifically, the report groups these issues in three broad realms: (1) entrepreneur-worker relations, (2) taxes and transfers, and (3) market conditions. 'This report is an extremely welcome addition to the literature on MENA labor markets. By analyzing the incentive structure and institutional factors that have led to the prevalence of informal employment in Egypt, Morocco, and Tunisia, it points the way to policy actions that can be taken to reduce informality and increase social protection for workers. It is a must-read for anyone who cares about greater economic inclusion in MENA.' --Ragui Assaad, Professor, Hubert H. Humphrey School of Public Affairs, University of Minnesota 'A compelling account of the implications of informality in the workforce and how economies of MENA can design appropriate policy responses. This timely report comes amid multiple social reforms in MENA and is a must-read for policy practitioners and economists in the region.' --Karim El Aynaoui, Executive President, Policy Center for the New South 'This report is particularly timely given the negative impact the COVID-19 pandemic and subsequent crises have had on living standards and poverty rates around the world and especially in MENA countries. While the focus on boosting growth and achieving the Sustainable Development Goals has revolved around financing, the report sheds new light on the benefits that tackling informality through institutional, regulatory, and policy changes could present to achieving these goals.' --Mahmoud Mohieldin, Executive Director, International Monetary Fund

notary service expansion blueprint: Europe's Growth Champion Marcin Piatkowski, 2025-09-03 What makes countries rich? What makes countries poor? Europe's Growth Champion: Insights from the Economic Rise of Poland seeks to answer these questions, and many more, through a study of one of the biggest, and least heard about, economic success stories. Over the last thirty years Poland has transitioned from a perennially backward, poor, and peripheral country to unexpectedly join the ranks of the world's high-income countries. Europe's Growth Champion is about the lessons learned from Poland's remarkable experience, the conditions that keep countries poor, and the challenges that countries need to face in order to grow. It defines a new growth model that Poland and its Eastern European peers need to adopt in order to continue to grow and catch up with their Western counterparts. Europe's Growth Champion emphasizes the importance of the fundamental sources of growth- institutions, culture, ideas, and leaders- in economic development. It argues that a shift from an extractive society, where the few rule for the benefit of the few, to an inclusive society, where many rule for the benefit of many, was the key to Poland's success. It asserts that a newly emerged inclusive society will support further convergence of Poland and the rest of Central and Eastern Europe with the West, and help to sustain the region's Golden Age. It also acknowledges the future challenges that Poland faces, and that moving to the core of the European economy will require further reforms and changes in Poland's developmental character. This new edition analyses what has changed in the global and Polish economy since 2018. In particular, it discusses the effects of the COVID-19 pandemic, climate change, Russia's aggression against Ukraine, and the ongoing restructuring of the global value chains. It also diagnoses new opportunities and challenges for the future of Poland.
