modern art history textbook pdf: Midcentury Modern Art in Texas Katie Robinson Edwards, 2014-07-01 Winner, Award of Merit for Non-Fiction, The Philosophical Society of Texas, 2015 Before Abstract Expressionism of New York City was canonized as American postwar modernism, the United States was filled with localized manifestations of modern art. One such place where considerable modernist activity occurred was Texas, where artists absorbed and interpreted the latest, most radical formal lessons from Mexico, the East Coast, and Europe, while still responding to the state's dramatic history and geography. This barely known chapter in the story of American art is the focus of Midcentury Modern Art in Texas. Presenting new research and artwork that has never before been published, Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas, with an emphasis on the era's most abstract and compelling artists. Edwards looks first at the Dallas Nine and the 1936 Texas Centennial, which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting. She then traces the modernist impulse through various manifestations, including the foundations of early Texas modernism in Houston; early practitioners of abstraction and non-objectivity; the Fort Worth Circle; artists at the University of Texas at Austin; Houston artists in the 1950s; sculpture in and around an influential Fort Worth studio; and, to see how some Texas artists fared on a national scale, the Museum of Modern Art's "Americans" exhibitions. The first full-length treatment of abstract art in Texas during this vital and canon-defining period,

Midcentury Modern Art in Texas gives these artists their due place in American art, while also valuing the quality of Texan-ness that subtly undergirds much of their production.

modern art history textbook pdf: The Development of An Art History in the UAE Sophie Kazan Makhoul, 2024-10-15 This book draws together an oral and visual art history of a country that is extremely rich in culture and history but that is often overlooked or underestimated. By observing the country's history and visual culture and the artistic practices of select artists from the UAE, it considers the development of contemporary art from the UAE. This will increase accessibility to art by Emiratis and underline its wider relevance. There is a dearth of literature on contemporary art by Emiratis, and this may be one of the reasons contemporary art from the UAE is under-represented globally. In order to help the reader better understand art from the UAE, this

book traces the country's historical make-up, its culture and contemporary art tradition through oral histories based on interviews with a wide variety of artists and people working in the art industries. It also explores this development using global art discourses that are relevant to art produced in the UAE today. This book also considers how cultural and artistic identities are formed and explores the political and socio-economic interests in the country that have stimulated art practices and appreciation. For so long, an exclusively Western narrative has dominated Art, and popular media portrays the Gulf's accomplishments in development and modernity with suspicion. Thanks to the UAE's espousal of the Internet and online communities over the last decade, this book is particularly timely. Following the pandemic, a wider understanding of global art discourses, values and perceptions are increasingly welcomed. Art from the UAE bridges the local and the global, giving a voice and a visual presence to a country's contemporary art tradition that has been widely overlooked. The UAE has a distinct visual arts tradition that relates to a broader and inclusive understanding of art centered on development and change.

modern art history textbook pdf: Master of the Two Left Feet Richard Meyer, 2022-09-13 An account of the life and work of a once-famous self-taught American artist of the 1940s, and a study of how artists go missing from public memory. The exhibition "Morris Hirshfield Rediscovered" at the American Folk Art Museum in New York City, curated by the author and

developed as an extension of the book, is on view from September 22, 2022 to January 27, 2023. A garment worker and slipper manufacturer with no training in art, Morris Hirshfield was never expected to make history. Against all odds, his wildly stylized paintings of female figures, often nude, animals, and landscapes became internationally known in the 1940s. Admired by Pablo Picasso, Piet Mondrian, and the French surrealists, his peak moment of visibility occurred in 1943, when the Museum of Modern Art mounted a one-man show of his work. The exhibition was widely reviewed—though mostly reviled—by the press, who jeeringly crowned Hirshfield “Master of the Two Left Feet” for his tendency to display the female body in that unorthodox fashion. After the artist’s death in 1946, his work was largely forgotten, but in *Master of the Two Left Feet*, art historian Richard Meyer rediscovers Hirshfield for twenty-first-century audiences, offering full-color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield’s paintings. The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist’s work ever assembled. Ten years in the making, *Master of the Two Left Feet* presents Hirshfield’s unlikely career as a painter not only as a missing episode in the history of twentieth-century art but as a case study of the ways in which artists go missing from historical knowledge and public memory. By looking closely at Hirshfield and his milieu in 1940s Brooklyn, Meyer demonstrates how much we have yet to learn, and to see, of the visual past.

modern art history textbook pdf: The Modern Garden Pierluigi Serraino, 2024-10-01 Visionary landscape architecture and garden design at mid-century in North America is captured by the greats of the era, including Julius Shulman and Ezra Stoller in many previously unpublished photographs. The treasures of mid-century American architecture have long been celebrated. Less appreciated has been the landscape design that provides the framing for these masterworks. But more than frame, landscape architecture is an art worthy of the spotlight, particularly at mid-century, when the notion that “gardens are outdoor spaces for people to live in” was championed and brought to the fore; now gardens and landscapes are not just external attributes to the house but a continuation of it and its living spaces in a relationship of symbiosis, with its pools and terraces, its winding lawns, and its partly enclosed room-like spaces flanked by brick or stone or plantings in a range of colors and forms. Approximately seventy-five mostly residential projects are thoroughly documented and recounted. Landscape architects whose work is featured include Thomas Church, Lawrence Halprin, and Garrett Eckbo, among others. Highlights include the dramatic surrounds of Richard Neutra’s Perkins House in its Pasadena hillside setting and Frank Lloyd Wright’s Marin County Civic Center, where environment and building comeingle in an extraordinary modernist vision of the future made real. This book is both a wishful gesture toward a realignment of building with nature and a must-have for anyone with a visceral appreciation for a designed environment understood as an integrated whole. Ultimately, the book underlines the fundamental importance of gardens and landscape design, intended in the widest possible sense, for the quality of living of all individuals.

modern art history textbook pdf: Ephemeral Spectacles, Exhibition Spaces and Museums Dominique Bauer, Camilla Murgia, 2025-10-01 This book examines ephemeral exhibitions from 1750 to 1918. In an era of acceleration and elusiveness, these transient spaces functioned as microcosms in which reality was shown, simulated, staged, imagined, experienced and known. They therefore had a dimension of spectacle to them, as the volume demonstrates. Against this backdrop, the different chapters deal with a plethora of spaces and spatial installations: the Wunderkammer, the spectacle garden, cosmoramas and panoramas, the literary space, the temporary museum, and the alternative exhibition space.

modern art history textbook pdf: Art and Form Sam Rose, 2019-03-25 This important new study reevaluates British art writing and the rise of formalism in the visual arts from 1900 to 1939. Taking Roger Fry as his starting point, Sam Rose rethinks how ideas about form influenced modernist culture and the movement’s significance to art history today. In the context of modernism, formalist critics are often thought to be interested in art rather than life, a stance exemplified in

their support for abstract works that exclude the world outside. But through careful attention to early twentieth-century connoisseurship, aesthetics, art education, design, and art in colonial Nigeria and India, Rose builds an expanded account of form based on its engagement with the social world. Art and Form thus opens discussions on a range of urgent topics in art writing, from its history and the constructions of high and low culture to the idea of global modernism. Rose demonstrates the true breadth of formalism and shows how it lends a new richness to thought about art and visual culture in the early to mid-twentieth century. Accessibly written and analytically sophisticated, Art and Form opens exciting new paths of inquiry into the meaning and lasting importance of formalism and its ties to modernism. It will be invaluable for scholars and enthusiasts of art history and visual culture.

modern art history textbook pdf: Religion, Feminism, and Idoloclasm Melissa Raphael, 2019-01-22 Religion, Feminism, and Idoloclasm identifies religious and secular feminism's common critical moment as that of idol-breaking. It reads the women's liberation movement as founded upon a philosophically and emotionally risky attempt to liberate women's consciousness from a three-fold cognitive captivity to the self-idolizing god called 'Man'; the 'God' who is a projection of his power, and the idol of the feminine called 'Woman' that the god-called-God created for 'Man'. Examining a period of feminist theory, theology, and culture from about 1965 to 2010, this book shows that secular, as well as Christian, Jewish, and post-Christian feminists drew on ancient and modern tropes of redemption from slavery to idols or false ideas as a means of overcoming the alienation of women's being from their own becoming. With an understanding of feminist theology as a pivotal contribution to the feminist criticism of culture, this original book also examines idoloclasm in feminist visual art, literature, direct action, and theory, not least that of the sexual politics of romantic love, the diet and beauty industry, sex robots, and other phenomena whose idolization of women reduces them to figures of the feminine same, experienced as a de-realization or death of the self. This book demonstrates that secular and religious feminist critical engagements with the modern trauma of dehumanization were far more closely related than is often supposed. As such, it will be vital reading for scholars in theology, religious studies, gender studies, visual studies, and philosophy.

modern art history textbook pdf: The Politics of Art, Death and Refuge Helen Hintjens, 2022-12-08 This book deals in different ways with the politics of death, with art and politics and with the politics of refuge and asylum. Cutting across these fields brings to the fore the fluid quality of social life under late capitalism. The elements of time, space and emotion are part of the overall approach adopted. The individual chapters illustrate themes of despair, striving and the politics of hope, and bring out the fluid and unpredictable qualities of social life. The guiding metaphor is fluidity, or what Urry refers to as "waves; continuous flow; pulsing; fluidity and viscosity" characteristic of life, death, refuge and art under the contemporary global system. Between the worlds of culture, political violence and art, the interconnected themes in this study illuminate conditions of 'liminality', or in-betweenness. The study presents a politics of hope under late capitalism, and cuts through more usual boundaries between art and science, harm and help, death and the politics of bare life. Each chapter grapples with issues that help illustrate wider trends in Global Development and International Relations scholarship and teaching. Amidst growing cynicism about human or even humanitarian values, the volume appeals for a politics of hope and social justice, based on the fluid contours of borderless and amorphous processes of self-organising and radical anarchy.

modern art history textbook pdf: Postwar Revisited Okwui Enwezor, Atreyee Gupta, 2025-03-28 Okwui Enwezor's 2016 exhibition Postwar: Art between the Pacific and the Atlantic, 1945-1965 redefined the history of art produced in those two decades. Nearly a decade later, Postwar Revisited returns to these debates to present an image of a historical period in which Western conceptions of art, aesthetics, and philosophy are all thrown into intense flux after Auschwitz and Hiroshima, while the cultural energies of decolonization generate myriad artistic and intellectual practices across the globe, which re-engage the connections of art to life itself. Focusing on modernist artists, artist collectives, and architects central to dissonant regional traditions, as well as influential exhibitions and patronage systems, the contributors produce a new understanding of emergent postwar global art. Provoking new ways of thinking, engaging, and narrating art history, Postwar Revisited is essential reading for those interested in debates on global art history and global modernism, the intersections between art and decolonization, the cultural aspects of the Cold War and the Non-Aligned Movement, and modern and contemporary art more generally.
