The tradition of mountaineer quarterbacks at West Virginia University dates back to the early 20th century. Over the decades, the position has evolved alongside changes in offensive schemes and collegiate football trends. Mountaineer quarterbacks have consistently been central to the team's strategy, adapting to shifts from run-heavy offenses to high-octane passing attacks. The role requires not only technical proficiency but also leadership and adaptability, traits that have become synonymous with WVU football.

Throughout the years, the university has developed unique quarterback archetypes, often characterized by mobility, toughness, and a flair for clutch performances. From pioneering signal-callers to modern playmakers, the progression of mountaineer quarterbacks reflects the broader history of college football in the United States.

Pat White is widely regarded as one of the most dynamic dual-threat quarterbacks in NCAA history. Playing from 2005 to 2008, White set numerous school and conference records, including becoming the first quarterback to win four bowl games. His speed and decision-making made him a constant threat, and he is often credited with popularizing the spread offense at West Virginia.

mountaineer quarterbacks: *The Way Things Oughta' Be Told* Burt Grossman, 1996-09 He was pro football's version of Rush Limbaugh, a left defensive end with a right-sided view of the National Football League & America. His name is Burt Grossman, & although he was never politically correct, he was, without a doubt, the funniest guy in the NFL. And now, he's telling his story, & he's telling it THE WAY THINGS OUGHTA' BE TOLD. John Madden called Burt, The funniest guy in football. Joe Namath said, He's the best interview in the NFL. Burt has retired from the NFL & he has pulled off the muzzle. He's going public & he's taking aim at the twisted lunacy of football & the liberal wackos who, in his estimation, are ruining the American way of life. Brutally honest & outrageous, Burt, in his uniquely hilarious & sometime shocking say-anything-about-anyone style, is taking the reader on a journey through the locker room, out to the gridiron & on to the White House. Finally, a conservative stud other than Rush Limbaugh is stepping forward & telling it THE WAY THINGS OUGHTA' BE TOLD. of the Army, 2014-06-10 Mountains exist in almost every country in the world and almost every war has included some type of mountain operations. This pattern will not change, and soldiers will continue to fight in mountainous terrain in future conflicts. Although mountain operations have not changed, several advancements in equipment and transportation have increased the soldiers' capabilities. The helicopter now allows access to terrain that was once unreachable or could be reached only by slow methodical climbing. Inclement weather, however, may place various restrictions on the capabilities of air assets available to a commander. The unit must then possess the necessary mountaineering skills to overcome adverse terrain to reach an objective. The U.S. Army Guide to Military Mountaineering details techniques soldiers and leaders must know to cope with mountainous terrain. These techniques are the foundation upon which the mountaineer must build. They must be applied to the various situations encountered to include river crossings, glaciers, snow-covered mountains, ice climbing, rock climbing, and urban vertical environments. The degree to which this training is applied must be varied to conform to known enemy doctrine, tactics, and actions. This guide also discusses basic and advanced techniques to include acclimatization, illness and injury, equipment, anchors, evacuation, movement on glaciers, and training.

Despite having inadequate resources, the black schools' sports teams thrived during segregation and helped tie the state's scattered black communities together. West Virginia hosted the nation's first state-wide black high school basketball tournament, which flourished for 33 years, and both Bluefield State and West Virginia State won athletic championships in the prestigious Colored Intercollegiate Athletic Association (now Central Intercollegiate Athletic Association). Black schools were gradually closed after the 1954 Brown v. Board of Education decision, and the desegregation of schools in West Virginia was an important step toward equality.
