penal system critique download: *Governance Feminism* Janet Halley, Prabha Kotiswaran, Rachel Rebouché, Hila Shamir, 2019-03-26 An interdisciplinary, multifaceted look at feminist engagements with governance across the global North and global South *Governance Feminism: Notes from the Field* brings together nineteen chapters from leading feminist scholars and activists to critically describe and assess contemporary feminist engagements with state and state-like power. Gathering examples from North America, South America, Europe, Asia, and the Middle East, it complements and expands on the companion volume *Governance Feminism: An Introduction*. Its chapters argue that governance feminism (GF) is institutionally diverse and globally distributed—emerging from traditional sites of state power as well as from various forms of governance and operating at the grassroots level, in the private sector, in civil society, and in international relations. The book begins by confronting the key role that crime and punishment play in GFeminist projects. Here, contributors explore the ideological and political conditions under which this branch of GF became so robust and rethink the carceral turn. Other chapters speak to another face of GFeminism: feminists finding, in mundane and seemingly unspectacular

bureaucratic tools, leverage to bring about change in policy and governance practices. Several contributions highlight the political, strategic, and ethical challenges that feminists and LGBT activists must negotiate to play on the governmental field. The book concludes with a focus on feminist interventions in postcolonial legal and political orders, looking at new policy spaces opened up by conflict, postconflict, and occupation. Providing a clear, cross-cutting, critical lens through which to map developments in feminist governance around the world, *Governance Feminism: Notes from the Field* makes sense of the costs and benefits of current feminist realities to reimagine feminist futures. penal system critique download: White Lies: Racism, Education and Critical Race Theory David Gillborn, 2024-06-03 Unpacking Critical Race Theory (CRT) and exploring why it has become a focus in politics across the US and the UK, *White Lies* uses CRT to expose the systemic racism that shapes education. It charts the coordinated campaigns – involving think tanks, mainstream media and politicians – that have tried to silence antiracism in the wake of George Floyd's murder and 'Black Lives Matter'. Each chapter is devoted to exposing a key 'white lie' by examining the evidence that shows how the interests of white people continue to occupy centre stage and block movement towards a more equitable education for all. Gillborn establishes how the public debates, shaped by misinformation and 'white lies', sustain race inequity and portray antiracism as a threat to freedom and justice. Key controversies are dissected and debunked, including: the extensive and coordinated anti-CRT campaigns in the US and the UK; the use of racial gaslighting to undermine claims to social justice; how multiple forms of intimidation are used to silence antiracist teaching and protest; the inaccurate portrayal of the white working class as race victims; and how cruelty, in policy, aims to unify whites and demonize minorities. By avoiding unnecessary jargon to make complex debates accessible to a wide audience, this book is ideal reading for anyone studying CRT or interested in the topic of contemporary educational equality.

The book

demonstrates how teaching can be modified and adapted to address long-standing injustice in the curriculum. penal system critique download: Introduction to Criminal Justice Information Systems

Ralph Ioimo, 2016-02-17 The proliferation of information systems throughout the criminal justice system has prompted many universities supporting criminal justice programs to add criminal justice information systems technology to their curriculums. Several universities have gone so far as to hire professors with specializations in information technology and to offer criminal justice information systems as an area of concentration. *Introduction to Criminal Justice Information Systems* gives an overview of the various software systems and technologies currently used in the criminal justice environment. The book covers a variety of topics critical to each member of the criminal justice system: police, prosecutor, courts, and corrections. It details the current systems in use, how they are used, and how separate systems interact with others. It also suggests how the current technology and the processes built upon it will evolve. While designed as a textbook to meet the needs of an introductory criminal justice information technology course, *Introduction to Criminal Justice Information Systems* is also a flexible resource useful to professionals in relevant areas of the criminal justice system. With rapidly increasing development and use of technology in modern law enforcement, this book provides a much-needed reference for those who are responsible for its implementation as well as an essential introduction to those who will become responsible for it. penal system critique download: Transitional Justice in Peacebuilding Djeihoun Ostowar,

2020-11-22 This book explores the role of actors in determining transitional justice in peacebuilding contexts. In recent decades, transitional justice mechanisms and processes have been introduced to a variety of settings, becoming widely regarded as essential elements in the 'peacebuilding toolbox'. While it has increasingly been suggested that transitional justice is imposed by neo-imperial actors with little regard for the needs and cultures of local populations, evidence suggests that dismissing these policies as neo-imperial or neo-liberal impositions would result in grossly overlooking their dynamics, which involve a whole range of relevant actors operating at multiple levels. This book interrogates this theme through empirical analysis of three sites of peacebuilding that have seen extensive international involvement: Kosovo, East Timor and Afghanistan. It proposes a novel framework for analysing and approaching transitional justice in peacebuilding that disaggregates three broad sets of actors operating at different levels in relevant processes: external actors (international and regional levels), transitional justice promoters (local, national, international and transnational levels), and transitional regimes (national and local levels). The book argues that transitional justice in peacebuilding must be conceived of as actor-contingent and malleable due to the significance of agency and (inter)actions of key categories of actors throughout peacebuilding transition. This book will be of interest to students and practitioners of transitional justice, peacebuilding, law, and International Relations.

penal system critique download: Regulating Dispute Resolution Felix Steffek, Hannes

Unberath, Hazel Genn, Reinhard Greger, Carrie Menkel-Meadow, 2014-07-04 This book proposes a

principled approach to the regulation of dispute resolution. It covers dispute resolution mechanisms in all their varieties, including negotiation, mediation, conciliation, expert opinion, mini-trial, ombud procedures, arbitration and court adjudication. The authors present a transnational Guide for Regulating Dispute Resolution (GRDR). The regulatory principles contained in this Guide are based on a functional taxonomy of dispute resolution mechanisms, an open normative framework and a modular structure of regulatory topics. The Guide for Regulating Dispute Resolution is formulated and commented upon in a concise manner to assist legislators, policy-makers, professional associations, practitioners and academics in thinking about which solutions best suit local and regional circumstances. The aim of this book is to contribute to the understanding and development of the legal framework governing national and international dispute resolution. Theory, empirical research and regulatory models have been taken from the wealth of experience in 12 jurisdictions: Austria, Belgium, Denmark, England and Wales, France, Germany, Italy, Japan, the Netherlands, Norway, Switzerland and the United States of America. Experts with a background in academia, practice and law-making describe and analyse the regulatory framework and social reality of dispute resolution in these countries. On this basis the authors draw conclusions about policy choices, regulatory strategies and the practice of conflict resolution. This title is included in Bloomsbury Professional's International Arbitration online service.
