philanthropist memoir online: The Philanthropy Reader Michael Moody, Beth Breeze, 2016-08-25 Philanthropy is both timeless and timely. Ancient Romans, Medieval aristocrats, and Victorian industrialists engaged in philanthropy, as do modern-day Chinese billionaires, South African activists, and Brazilian nuns. Today, philanthropic practice is evolving faster than ever before, with donors giving their time, talents, and social capital in creative new ways and in combination with their financial resources. These developments are generating complex new debates and adding new twists to enduring questions, from why be philanthropic? to what does it mean to do philanthropy 'better'? Addressing such questions requires greater understanding of the contested purpose and diverse practice of philanthropy. With an international and interdisciplinary focus, The Philanthropy Reader serves as a one-stop resource that brings together essential and engaging extracts from key texts and major thinkers, and frames these in a way that captures the historical development, core concepts, perennial debates, global reach, and recent trends of this field. The book includes almost 100 seminal and illuminating writings about philanthropy, equipping readers with the guiding material they need to better grasp such a crucial yet complex and evolving topic. Additional readings and discussion questions also accompany the text as online supplements. This text will be essential reading for students on philanthropy courses worldwide, and will also be of interest to anyone active in the philanthropic and nonprofit sectors — from donors and grantmakers, to advisers and fundraisers.

philanthropist memoir online: Charity and the Great Hunger in Ireland Christine Kinealy, 2013-10-10 The Great Irish Famine was one of the most devastating humanitarian disasters of the nineteenth century. In a period of only five years, Ireland lost approximately 25% of its population through a combination of death and emigration. How could such a tragedy have occurred at the heart of the vast, and resource-rich, British Empire? Charity and the Great Hunger in Ireland explores this question by focusing on a particular, and lesser-known, aspect of the Famine: that being the extent to which people throughout the world mobilized to provide money, food and clothing to assist the starving Irish. This book considers how, helped by developments in transport and communications, newspapers throughout the world reported on the suffering in Ireland, prompting funds to be raised globally on an unprecedented scale. Donations came from as far away as Australia, China, India and South America and contributors emerged from across the various religious, ethnic, social and gender divides. Charity and the Great Hunger in Ireland traces the story of this international aid effort and uses it to reveal previously unconsidered elements in the history of the Famine in Ireland.

philanthropist memoir online: *Irish Novels 1890-1940* John Wilson Foster, 2008-02-21 Studies of Irish fiction are still scanty in contrast to studies of Irish poetry and drama. Attempting to fill a large critical vacancy, *Irish Novels 1890-1940* is a comprehensive survey of popular and minor fiction (mainly novels) published between 1890 and 1922, a crucial period in Irish cultural and political history. Since the bulk of these sixty-odd writers have never been written about, certainly beyond brief mentions, the book opens up for further exploration a literary landscape, hitherto neglected, perhaps even unsuspected. This new landscape should alter the familiar perspectives on Irish literature of the period, first of all by adding genre fiction (science fiction, detective novels, ghost stories, New Woman fiction, and Great War novels) to the Irish syllabus, secondly by demonstrating the immense contribution of women writers to popular and mainstream Irish fiction. Among the popular and prolific female writers discussed are Mrs J.H. Riddell, B.M. Croker, M.E. Francis, Sarah Grand, Katharine Tynan, Ella MacMahon, Katherine Cecil Thurston, W.M. Letts, and Hannah Lynch. Indeed, a critical inference of the survey is that if there is a discernible tradition of the Irish novel, it is largely a female tradition. A substantial postscript surveys novels by Irish women between 1922 and 1940 and relates them to the work of their female antecedents. This ground-breaking survey should also alter the familiar perspectives on the Ireland of 1890-1922. Many of the popular works were problem-novels and hence throw light on contemporary thinking and debate on the 'Irish Question'. After the Irish Literary Revival and creation of the Free State, much popular and mainstream fiction became a lost archive, neglected evidence, indeed, of a lost Ireland.

philanthropist memoir online: *Calculating compassion* Rebecca Gill, 2016-05-16 *Calculating compassion* examines the origins of British relief work in late-nineteenth-century wars on the continent and the fringes of Empire. Commencing with the Franco-Prussian war of 1870-71, it follows distinguished surgeons and 'lady amateurs' as they distributed aid to wounded soldiers and distressed civilians, often in the face of considerable suspicion. Dispensing with the notion of shared

'humanitarian' ideals, it examines the complex, and sometimes controversial, origins of organised relief, and illuminates the emergence of practices and protocols still recognisable in the delivery of overseas aid. This book is intended for students, academics and relief practitioners interested in the historical concerns of first generation relief agencies such as the British Red Cross Society and the Save the Children Fund, and their legacies today.

philanthropist memoir online: Frederick Douglass and Ireland Christine Kinealy, 2018-06-18 Frederick Douglass spent four months in Ireland at the end of 1845 that proved to be, in his own words, 'transformative'. He reported that for the first time in his life he felt like a man, and not a chattel. Whilst in residence, he became a spokesperson for the abolition movement, but by the time he left the country in early January 1846, he believed that the cause of the slave was the cause of the oppressed everywhere. This book adds new insight into Frederick Douglass and his time in Ireland. Contemporary newspaper accounts of the lectures that Douglass gave during his tour of Ireland (in Dublin, Wexford, Waterford, Cork, Limerick, and Belfast) have been located and transcribed. The speeches are annotated and accompanied by letters written by Douglass during his stay. In this way, for the first time, we hear Douglass in his own words.

philanthropist memoir online: The bonds of family Katie Donington, 2019-11-15 Moving between Britain and Jamaica this book reconstructs the world of commerce, consumption and cultivation sustained through an extended engagement with the business of slavery. Transatlantic slavery was both shaping of and shaped by the dynamic networks of family that established Britain's Caribbean empire. Tracing the activities of a single extended family - the Hibberts - this book explores how slavery impacted on the social, cultural, economic and political landscape of Britain. It is a history of trade, colonisation, enrichment and the tangled web of relations that gave meaning to the transatlantic world. The Hibberts's trans-generational story imbricates the personal and the political, the private and the public, the local and the global. It is both the intimate narrative of a family and an analytical frame through which to explore Britain's history and legacies of slavery.

philanthropist memoir online: A World of Giving Patricia L Rosenfield, 2014-11-04 The age of international philanthropy is upon us. Today, many of America's most prominent foundations support institutions or programs abroad, but few have been active on the global stage for as long as Carnegie Corporation of New York. A World of Giving provides a thorough, objective examination of

the international activities of Carnegie Corporation, one of America's oldest and most respected philanthropic institutions, which was created by steel baron Andrew Carnegie in 1911 to support the "advancement and diffusion of knowledge and understanding." The book explains in detail the grantmaking process aimed at promoting understanding across cultures and research in many nations across the world. A World of Giving highlights the vital importance of Carnegie Corporation's mission in guiding its work, and the role of foundation presidents as thought and action leaders. The presidents, trustees, and later on, staff members, are the human element that drives philanthropy and they are the lens through which to view the inner workings of philanthropic institutions, with all of their accompanying strengths and limitations, especially when embarking on international activities. It also does not shy away from controversy, including early missteps in Canada, race and poverty issues in the 1930s and 1980s related to South Africa, promotion of area studies affected by the McCarthy Era, the critique of technical assistance in developing countries, the century-long failure to achieve international understanding on the part of Americans, and recent critiques by Australian historians of the Corporation's nation-transforming work there. This is a comprehensive review of one foundation's work on the international stage as well as a model for how philanthropy can be practiced in a deeply interconnected world where conflicts abound, but progress can be spurred by thoughtful, forward-looking institutions following humanistic principles.

philanthropist memoir online: Enchantment Of Urania, The: 25 Centuries Of Exploration Of The Sky Massimo Capaccioli, 2024-03-19 Today we know much about the sky: how stars are born, how they live and die, and how the universe as a whole evolves. We have learned of the existence of another type of matter, indifferent to light and yet decisive for the formation of galaxies, and we have a hint of a dark energy that since the last 4.5 billion years has taken over the control of the cosmos. We postulated and then discovered and even photographed black holes and listened to the faint rustle of the space-time ripple produced when these monsters devour each other. We reached these astonishing results (recognized by a bunch of Nobel Prizes and filling every day the media with wonders for the eyes and the mind) by the marriage of physics and astronomy that unified the Earth with the sky and then by the leap forward of science and technology in the Twentieth Century. This rich heritage has ancient roots. It was built by accumulating discoveries with errors, observations with fantasies, myths, and superstitions with flashes of genius, over a span of millennia, since Homo sapiens, turning his eyes to the immutable and perfect sky, began to ask questions. The book is a narration of the answers to these questions that had evolved over time: a progressive path, inserted in the general history, with some second thoughts and many obstacles. This is a saga of men and machines where greatness sometimes mixes with misery and passion often borders on sacrifice and even martyrdom. Why should we know it? Because our current knowledge is the result of these efforts and of the preconceptions that accompanied them. The challenge has been to present this complex and intricate subject without resorting to any formulas, so that it can be accessible to a wide audience of curious people, including high school and university students and in general all those who normally keep themselves informed of scientific things. A rich bibliography has also been added in the appendix for those wishing to learn more on one or more topics.

philanthropist memoir online: African American Historic Burial Grounds and Gravesites of New England Glenn A. Knoblock, 2015-12-14 Evidence of the early history of African Americans in New England is found in the many old cemeteries and burial grounds in the region, often in hidden or largely forgotten locations. This unique work covers the burial sites of African Americans--both enslaved and free--in each of the New England states, and uncovers how they came to their final resting places. The lives of well known early African Americans are discussed, including Venture Smith and Elizabeth Freeman, as well as the lives of many ordinary individuals--military veterans, business men and women, common laborers and children. The author's examination of burial sites and grave markers reveals clues that help document the lives of black New Englanders from the 1640s to the early 1900s.

philanthropist memoir online: First to Fall Ken Ellingwood, 2021-05-04 A vividly told tale of a

forgotten American hero—an impassioned newsman who fought for the right to speak out against slavery. The history of the fight for free press has never been more vital in our own time, when journalists are targeted as “enemies of the people.” In this brilliant and rigorously researched history, award-winning journalist and author Ken Ellingwood animates the life and times of abolitionist newspaper editor Elijah Lovejoy. *First to Fall* illuminates this flawed yet heroic figure who made the ultimate sacrifice while fighting for free press rights in a time when the First Amendment offered little protection for those who dared to critique America’s “peculiar institution.” Culminating in Lovejoy’s dramatic clashes with the pro-slavery mob in Alton, Illinois—who were torching printing press after printing press—*First to Fall* will bring Lovejoy, his supporters and his enemies to life during the raucous 1830s at the edge of slave country. It was a bloody period of innovation, conflict, violent politics, and painful soul-searching over pivotal issues of morality and justice. In the tradition of books like *The Arc of Justice*, *First to Fall* elevates a compelling, socially urgent narrative that has never received the attention it deserves. The book will aim to do no less than rescue Lovejoy from the footnotes of history and restore him as a martyr whose death was not only a catalyst for widespread abolitionist action, but also inaugurated the movement toward the free press protections we cherish so dearly today.

philanthropist memoir online: *More than Gold in California* Gesa Kirsch, 2017-03 The original publication of *More than gold in California* contains an opening section that is not included in this book. That section is distinctly different in tone and style from the rest of the book. It is not based on firsthand experience; rather, Dr. Ritter reconstructs the details of her family's migration from stories heard as a child and from family letters, diaries, and published historical accounts--Page ix.

philanthropist memoir online: *Private Aid, Political Activism* Aelwen D. Wetherby, 2017-06-01 This book explores American medical relief to Spain and China in the 1930s and 1940s as responses to the Spanish Civil War and the Second Sino-Japanese War. Although serving vastly different peoples in strikingly distant landscapes, the three aid organizations focused on here illustrate a transition in how Americans responded to foreign conflict and how humanitarian aid was used as a political tool. The story of these small and relatively unknown organizations can help refine historical understanding of the development of humanitarianism and the evolution of global citizenship in the twentieth century.

philanthropist memoir online: *Billionaire, Nerd, Saviour, King* Anupreeta Das, 2024-08-15 ***LONGLISTED FOR THE FINANCIAL TIMES BUSINESS BOOK OF THE YEAR AWARD*** Chosen by WATERSTONES as one of their **BEST POLITICS BOOKS** of 2024 ‘Anupreeta Das tracks the ups and downs of Bill Gates’s career in her eye-opening book’ The Times Bill Gates is one of the most powerful figures of the past four decades. But the world-famous public image he has so carefully crafted is not the whole truth. In this explosive new book, Anupreeta Das (finance editor of the New York Times) takes you behind the façade. From his early years, when he was a divisive figure in the burgeoning tech industry, we see the Microsoft co-founder morph into a ruthless capitalist, only to change yet again when he fashions himself into a global do-gooder. But as Das’s revelatory reporting shows us: billionaires have secrets and philanthropy can have a dark side. Drawing upon hundreds of interviews with current and former employees of the Gates Foundation, Microsoft, and those with insight into the Gates universe, Das delves into Gates’s relationships with Warren Buffett, Jeffrey Epstein, Melinda French Gates and others to uncover the man behind the persona. In telling Gates’s story, Das also provides a new way to think about how billionaires wield their influence, manipulate their image and pursue philanthropy to achieve their own ends. *Billionaire, Nerd, Saviour, King* is a gripping story of wealth, power and reputation; it will open your eyes to the ways in which the world’s richest people hold us in their thrall.

philanthropist memoir online: *Memoirs of Well-Being* Tanja Reiffenrath, 2016-05-15 As the body politics of life writing in the United States change, illness and disability memoirs receive considerable attention. Although these narratives are framed by a lack of health, they abundantly present health and do so beyond its binary relationship to the pathological. This book departs from

previous scholarship by bringing into focus the writers' representations of cure, recovery, and healing as well as their reluctance to bring closure to their narratives and align their stories with traditional notions of health. These memoirs thus partake in the construction of alternative narratives of illness and disability.

philanthropist memoir online: From Empire to Humanity Amanda B. Moniz, 2016 From Empire to Humanity explores the shift from an imperial to a universal approach to humanitarianism as American and British compatriots adjusted to becoming foreigners to each other after the American Revolution.

philanthropist memoir online: My Many Lives Sigrid Kendall, 2020-04-13 Sigrid Kendall, née Baroness Rüdts von Collenberg, was born in 1930 into the rarefied world of Central European aristocracy with all that title and wealth afforded—castles, estates, and hunting lodges throughout Germany, the Netherlands and Poland, idyllic playgrounds of nature, horseback riding, carriage rides, and nights at the opera. Her childhood, however, coincided with the rise of Hitler, and by the time she was nine years old, her country was on the march toward Russia; one of her earlier family's houses had been destroyed in the first Allied air raid; and her beloved father, an officer with the German cavalry, had been killed. Yet through a child's eyes, Germany was home and Hitler, with his mesmerizing radio voice, promising "a thousand years of peace," seemed like the rightful leader. Post-war Germany brought to her teenage self a different story, a different life—one of shame for the atrocities her country committed, and one in which the complete devastation of her country was the great equalizer among the people. The impact that those post-war years had on Kendall would have a lasting effect on her worldview: to question authority; to earn what you get; and to look out not only for others, but also for yourself. She carried this philosophy with her into a new life in America—immigrating at age twenty-three, newly wedded—and it kept her grounded, even as she fell in love for a second time and assumed the unlikely role of "corporate wife" upon marrying one of the most powerful corporate leaders in the United States. Her life suddenly became one filled with entertaining heads of state and traveling the world over. But for Kendall, her children would always come first and Germany would keep hold of her heart. Narrated with candor and grace, *My Many Lives* is a deeply moving account of a remarkable life, fractured into so many lives with its unexpected turns, and the true importance of love, loyalty, and resilience.

philanthropist memoir online: Matters of Urgency - Herausforderungen der Gegenwart in Theater und Wissenschaft Kolesch, Doris, Lazardzig, Jan, Schrödl, Jenny, Seidler, Lisa-Frederike, Walch, Thore, Warstat, Matthias, Die Vielzahl virulenter und drängender Konfliktlagen und Umwälzungen einer als krisenhaft erfahrenen Gegenwart erschüttert nicht nur das Theater und das gesamte Kunst- und Kulturleben, sondern tangiert auch die Zukunft der Disziplin Theaterwissenschaft. Vor diesem Hintergrund ist ein Bewusstsein dafür gewachsen, dass drängende gesellschaftliche Herausforderungen in Beziehung zu Theater, Tanz und Performance gesetzt und analytisch, theoretisch wie historisch untersucht werden müssen. Der vorliegende Band dokumentiert Beiträge des 15. Kongresses der Gesellschaft für Theaterwissenschaft und bietet einen Überblick darüber, welche Themen von Theaterwissenschaftler:innen aus Deutschland, Österreich und der Schweiz aktuell als dringliche wahrgenommen und diskutiert werden. Der Titel des Bandes ist dabei im doppelten Sinne zu verstehen: 'Matters' als Themen und Forschungsfelder, die durch ihre gesellschaftliche Relevanz an die Theaterwissenschaft herangetragen werden, aber auch als Hinweis auf die Materialität und Medialität der Konfrontation mit diesen Themen. The multitude of virulent and urgent conflicts of a present experienced as crisis-ridden not only shakes the theatre and the entire art and cultural life, but also affects the future of the discipline of theatre studies. Against this background, an awareness has grown that urgent social challenges must be placed in relation to theatre, dance and performance and examined analytically, theoretically and historically. This volume documents contributions from the 15th Congress of the Gesellschaft für Theaterwissenschaft and offers an overview of the topics currently perceived and discussed as urgent by theatre scholars from Germany, Austria and Switzerland. The title of the volume is to be understood in a double sense: 'Matters' as topics and fields of research that are brought to the

attention of theatre studies due to their social relevance, but also as an indication of the materiality and mediality of the confrontation with these topics.
