paris bennett personal life: Wicked Newport Larry Stanford, 2008-07-30 Take a trip with Larry Stanford through 350 years of Newport's hidden, dark history. Founded by a small band of religious freedom seekers in 1639, Newport, Rhode Island, subsequently became a bustling colonial seaport teeming with artists, sailors, prosperous merchants and, perhaps most distinctively, the ultra-rich families of the Gilded Age. Clinging to the lavish coattails of these newly minted millionaires and robber barons was a stream of con artists and hangers-on who attempted to leech off their well-to-do neighbors. From the Vanderbilts to the Dukes, the Astors to the Kennedys, the City by the Sea has served as a sanctuary for the elite, and a hotbed of corruption. Local historian Larry Stanford pulls back the curtain on over 350 years of history, uncovering the real stories behind many of Newport's most enduring mysteries, controversial characters and scintillating scandals.

paris bennett personal life: The British Adventure Hero Leo Hall, 2025-07-26 This book explores the construction of the fin-de-siècle adventure hero: set against a romanticised vision of the past and a nostalgic ideal of gentlemanliness, but also forward-looking in terms of forging a future for Britain through the imperialist dream. The British Adventure Hero offers a unique focus on how the adventure hero's masculinity is shaped by Victorian industrial, technological, and scientific developments, which influenced concepts of national identity both psychologically and physiologically. Central to exploring the relationship between the adventure hero and industrialisation are the original illustrations that were printed with the stories in periodicals and the first illustrated editions. This approach to studying the partnership between both text and illustrations demonstrates that the adventure story is a paradox: an outcome of invention, scientific, technological and industrial progress, yet also a supposed escape from nineteenth-century industrial modernity. The book traces this context through analysis of Robert Louis Stevenson's *Treasure Island* (1883), Arthur Conan Doyle's *The Lost World* (1912), Jules Verne's *Around the World in Eighty Days* (1873), and Edgar Rice Burroughs's *Tarzan of the Apes* (1912). Significantly, the book also examines how these authors' perspectives on the idealised English identities of their heroes are informed by their Scottish, French, and American nationalities.

paris bennett personal life: The Golden Age of the Newspaper George H. Douglas, 1999-07-30 From the arrival of the penny papers in the 1830s to the coming of radio news around 1930, the American newspaper celebrated its Golden Age and years of greatest influence on society. Born in response to a thirst for news in large eastern cities such as New York, Boston, and Philadelphia, the mood of the modern metropolitan papers eventually spread throughout the nation. Douglas tells the story of the great innovators of the American press—men like Bennett, Greeley,

Bryant, Dana, Pulitzer, Hearst, and Scripps. He details the development of the bond between newspapers and the citizens of a democratic republic and how the newspapers molded themselves into a distinctly American character to become an intimate part of daily life. Technological developments in papermaking, typesetting, and printing, as well as the growth of advertising, gradually made possible huge metropolitan dailies with circulations in the hundreds of thousands. Soon journalism became a way of life for a host of publishers, editors, and reporters, including the early presence of a significant number of women. Eventually, feature sections arose, including comics, sports, puzzles, cartoons, advice columns, and sections for women and children. The hometown daily gave way to larger and impersonal newspaper chains in the early twentieth century. This comprehensive and lively account tells the story of how newspapers have influenced public opinion and how public demand has in turn affected the presentation of the news.

paris bennett personal life: The Valley of Cross Purposes Carol J. Frost PhD, 2017-03-31 In the late 1800s, Charles Nordhoff forged the shape of modern journalism and profoundly influenced both politicians and politics. Principled, activist, investigative, and a champion of the disenfranchised and poor, he was more interested in character and results than in personality and credit. And like the blacksmith wielding his hammer, he left us the tangible products of his labors, but few details of himself. With superb research, illuminating insights, and eloquent prose, Carol Frost brings Nordhoff vividly to life: both the man and his extraordinary impacts on politics, journalism, government, and public discourse impacts that are still defining public life today. Journalists, historians, and activists will find context and inspiration in this captivating and previously untold story, a story that in many important ways feels like it was written about the events and debates of our own time rather than those of more than 100 years ago.

Elegantly synthesizing modernist literature with architectural plans, room designs, and decorative art, Victoria Rosner's work explores the collaborations among modern British writers, interior designers, and architects in redefining the form, function, and meaning of middle-class private life. Drawing on a host of previously unexamined archival sources and works by figures such as E. M. Forster, Roger Fry, Oscar Wilde, James McNeill Whistler, and Virginia Woolf, Rosner highlights the participation of modernist literature in the creation of an experimental, embodied, and unstructured private life, which we continue to characterize as modern.
