reba mcentire politics: The Politics of the President's Wife MaryAnne Borrelli, 2011-08-15
As the West Wing has grown in power and organizational complexity during the modern presidency, so has the East Wing, office home to the First Lady of the United States. This groundbreaking work by MaryAnne Borrelli offers both theoretical and substantive insight into behind-the-scenes developments from the time of Lou Henry Hoover to the unfolding tenure of Michelle Robinson Obama. Political scientists and historians have recognized the personal influence the First Lady can exercise with her husband, and they have noted the moral, ethical, and sometimes policy leadership certain presidents' wives have offered. Nonetheless, scholars and commentators alike have treated the personal relationship and the professional relationship as overlapping. Borrelli offers a compelling counter-perspective: that the president's wife exercises power intrinsic to her role within the administration. Like others within the presidency, she has sometimes presented the president's views to constituents and sometimes presented constituents' views to the president, thus taking on a representative function within the system. In mediating president-constituent relationships, she has given a historical and social frame to the presidency that has enhanced its symbolic representation; she has served as a gender role model, enriching descriptive representation in the executive branch; and she has participated in policy initiatives to strengthen an administration's substantive

representation. These contributions have been controversial, as might be predicted for a gender outsider, but they have unquestionably made the First Lady a representative of and to the president and, by extension, the president's administration.

Insbesondere an den musikalischen Schwerpunkten Gospel, Reggae und Hip Hop macht er deutlich, dass Religion und Musik eine gelungene Symbiose eingehen können, die in der heutigen Zeit für die Verkündigung genutzt werden kann. Basierend auf der Sinus-Milieustudie beschreibt er nicht nur das Verhältnis der katholischen Kirche zu populärer Musik und die Chancen, die sich aus einer stärkeren Öffnung der Kirche dazu ergeben, sondern untersucht auch die christliche Musikszene in Deutschland sowie das Vorkommen von Musik mit Sinn in Rundfunk und Fernsehen.

reba mcentire politics: *The Rural Voter* Nicholas F. Jacobs, Daniel M. Shea, 2023-11-21 The widening gulf between rural and urban America is becoming the most serious political divide of our day. Support for Democrats, up and down the ballot, has plummeted throughout the countryside, and the entire governing system is threatened by one-party dominance. After Donald Trump's surprising victories throughout rural America, pundits and journalists went searching for answers, popping into roadside diners and opining from afar. Rural Americans are supposedly bigots, culturally backward, lazy, scared of the future, and radical. But is it that simple? Is the country splintering between two very different Americas—one rural, one urban? This pathbreaking book pinpoints forces behind the rise of the "rural voter"—a new political identity that combines a deeply felt sense of place with an increasingly nationalized set of concerns. Combining a historical perspective with the largest-ever national survey of rural voters, Nicholas F. Jacobs and Daniel M. Shea uncover how this overwhelmingly crucial voting bloc emerged and how it has roiled American politics. They show how perceptions of economic and social change, racial anxieties, and a traditional way of life under assault have converged into a belief in rural uniqueness and separateness. Rural America believes it rises and falls together, and that the Democratic Party stands in the way. An unparalleled exploration of rural partisanship, this book offers a timely warning that the chasm separating urban and rural Americans cannot be papered over with policies or rhetoric. Instead, *The Rural Voter* shows how this division is the latest chapter in the enduring conflict over American identity.

reba mcentire politics: Freedom Lucinda Mosher, 2021 Believed to be the longest-running international dialogue of Christian and Muslim scholars, the Building Bridges Seminar was initiated in 2002 by then Archbishop of Canterbury George Carey. Annually, the Building Bridges Seminar creates a conversation-circle comprising some thirty scholar-believers for the purpose of deep dialogical study of texts-scriptural and otherwise. As a comparative-theological topic, freedom is far from straightforward. While it has long been identified with modernity and even post-modernity, it is indeed a theme taken up in both the Bible and the Qur'an. But whereas the New Testament emerged in a region under occupation by the Roman Empire, the Qur'an was first received in a stateless environment-tribal Arabia-that took political freedom for granted. Hence the engagement of freedom by Christian and Islamic scriptures is not precisely equivalent. Yet freedom has been an important topic for reflection by both Christians and Muslims, especially in the modern period. The book considers how historically, Christian and Muslim faith communities have addressed such matters as God's freedom, human freedom to obey God, autonomy versus heteronomy, autonomy versus self-governance, freedom from incapacitating addiction and desire, hermeneutic or discursive

freedom vis-a-vis scripture and tradition, religious and political freedom, and the relationship between personal conviction and public order--
