Robinson, 2021-01-01 This guidebook is designed to be the elementary school teacher's friend in addressing a wide variety of questions regarding the use of educational and instructional technologies. It can serve as a companion and guide through the myriad challenges and opportunities related to the effective use of technology in one's classroom and school. A sample of U.S. elementary school teachers provided us with detailed answers about their experiences with using technology in their teaching. Specifically, they shared their challenges, barriers, ideas, and suggestions for working successfully with administrators, technology specialists, students, fellow teachers, and parents when teaching with technology. We have organized the teachers' experiences and recommendations according to each stakeholder group. Rather than recommending or reviewing specific educational technology companies, applications, or tools, we provide a large number of strategies that are "built to last" and should be applicable regardless of the specific tool under consideration. We assume that it doesn't ultimately matter what the tool or technology is that you're using—it's how and why you're using it for teaching and learning that will determine whether it is successful or not. The "how" and "why" aspects encompass the built-to-last strategies included in this guidebook.

McDermott, 2025-05-05 *Go Fast Go Faster* is a tender, funny, and deeply moving story of a father's love for his daughter, and how together, they continue to triumph over tragedy. In November of 1995, birth trauma left James McDermott's daughter Mariel profoundly brain injured, physically disabled and unable to care for herself. This event started him on a journey of love and compassion for her and others who face similar challenges. Ever an energetic and tenacious person, James immediately rose to the occasion, transforming nearly overnight from a self-described "slightly self-centred ex-athlete" to a passionate advocate for disability rights. Determined to create a meaningful and empowered life for his beautiful daughter, he stood bravely in the face of people and systems that devalued her and others like her. Using humour and positivity to cope through hard times, James dedicated himself to improving the lives of people with developmental disabilities, fighting for both their inclusion and their health. In 2017, he invented the CareChanger, a device he built for his daughter that will revolutionize personal care for wheelchair users. In this book, James honours both his adventures with Mariel – from clever Halloween costumes to a memorable Vegas vacation – and the many people who have touched her life through their compassion and care. We also get to meet the Glorious Golfers, a wonderful story about friendship, overcoming adversity and being inspired by inclusion.

school games unblocked: Dawgs Gone Wild Patrick Garbin, 2017-09-11 Go inside the astounding and, at times, appalling stories of the mid-1970s University of Georgia football teams like you've never seen, or heard, before. In the mid-'70s, the University of Georgia football team caused quite a stir off the field. Several players had encounters with the manipulative Godfather of Pro Wrestling and his money-for-sex scheme. A careless prank aboard a team-chartered airplane resulted in a bomb scare and an FBI inquiry. The mysterious death of a standout teammate in 1976 remained unsolved for decades. Despite it all, a valiant and tenacious head coach and his acclaimed Junkyard Dogs defied the odds and developed a celebrated championship team. UGA football writer and historian Patrick Garbin, using extensive interviews with former players and coaches, delivers a true tale of sex, drugs and wild debauchery in college football.
