rob riggle democrat: African American Legislators in the American States Kerry L. Haynie, 2001-08-01 Has black inclusion in the political process changed political institutions and led to more black influence in the governmental process? How do African American legislators balance racial interests with broader issues of government? And how is their effectiveness subjectively perceived and objectively evaluated? In one of the first book-length studies to analyze the behavior of African American state legislators in multiple legislative sessions across five states, Kerry Haynie has compiled a wealth of valuable data that reveals the dynamics and effectiveness of black participation in the legislative process. Owing to the increasing role of state government in administering what he defines as key black issues— education, healthcare, poverty/social welfare, civil rights, and children's issues—Haynie focuses on bills introduced in these categories in Arkansas, Illinois, Maryland, New Jersey, and North Carolina. The book reveals how responsive political institutions have been to the nation's largest minority group. It explores the question of how legislators deal with the duality dilemma—which requires them to be both responsible legislators and race representatives—and whether agendas should be deracialized in order to appeal to a broader constituency. Along with numerous statistical charts illustrating everything from representation on house standing committees to a ranking of the fifteen legislative sessions by quartiles of African American political incorporation, a useful and revealing portrait emerges—one that will fuel debate and inform future discussions of the role of African Americans in the political process.

rob riggle democrat: Value War Paul R. Brewer, 2007-12-24 In Value War: Public Opinion and the Politics of Gay Rights, Paul R. Brewer looks at how the public debate about gay rights has shaped public opinion and conversely how public opinion has shaped the public debate about gay rights. Using a variety of methods, including polls, experimentation, and content analysis, he shows how the nature of public debate—which encompasses news stories, television sitcoms, presidential speeches, and sermons by local clergy—has influenced what and how Americans think about gay rights. He also shows how public opinion has created opportunities and obstacles for foes and advocates of gay rights by defining the very terms and boundaries of the public debate. Brewer's analysis not only sheds new light on how the politics of gay rights has evolved in recent years and may evolve in the future, it also illuminates the broader tensions in American politics, from the culture war over social issues to the struggle over civil rights.

rob riggle democrat: From New Federalism to Devolution Timothy J. Conlan, 2010-12-01 In the period from 1970 to the early 1990s, Republican leaders launched three major reforms of the federal system. Although all three initiatives advanced decentralization as a goal, they were remarkably different in their policy objectives, philosophical assumptions, patterns of politics, and policy outcomes. Expanding and updating his acclaimed book, *New Federalism: Intergovernmental Reform from Nixon to Reagan* (1988), Timothy Conlan provides a comprehensive look at intergovernmental reform from Nixon to the 104th Congress. The stated objectives of Republican

reformers evolved from rationalizing and decentralizing an activist government, to rolling back the welfare state, to replacing it altogether. Conlan first explains why conservatives have placed so much emphasis on federal reform in their domestic agendas. He then examines Nixon's New Federalism, including management reforms and revenue sharing; analyzes the policies and politics of the Reagan revolution; and reviews the legislative limitations and achievements of the 104th Congress. Finally, he traces the remarkable evolution of federalism reform politics and ideology during the past 30 years and provides alternative scenarios for the future of American federalism.
