In chaplaincy and many churches, leadership, management, and ministry have a synergistic effect when they come together in response to a problem or crisis. An understanding of chaplaincy dynamics, scope, methods, possibilities, and issues in relation to this effect is vital to this growing field in four areas: Helps prepare people for ministry as chaplains, whether clergy or lay; benefits those already in chaplaincy ministry; helps clergy reexamine their ministry to determine if they are where God wants them; serves to teach everyone, including upper-level management and senior church leaders of the roles, actual or potential, that chaplains can fill in response to the growing needs of people.
