refugee stories ebook: Digital Narratives of Trauma Among Immigrant and Refugee Women Scapolo, Andrea, Castro, Arturo Matute, Huang, Sha, Bagasra, Anisah, 2025-06-17 Immigrant communities facing displacement have increasingly turned to social media as a platform to share their testimonies, connect to their communities, and build new support networks. Due to existing structural inequities, women face unique challenges, such as discrimination and violence, human trafficking, economic deprivation, and conflicting cultural norms. This is particularly true for immigrant and refugee women from the Global South to Europe, North America, and Australia. In this context, social media and digital technologies have increasingly served as powerful platforms for social justice and community building by providing marginalized groups with a venue to share testimonies and connect with their community of origin and other groups facing similar challenges. In these virtual communities, immigrant and refugee women can also find a collective voice to mobilize social and political activism on issues such as immigration policies, access to healthcare, challenges of motherhood, and gender-based violence. Digital Narratives of Trauma Among Immigrant and Refugee Women explores contemporary issues, by examining how narratives of resistance and survival in digital spaces illuminate the interconnectedness of migration, womanhood, displacement, and trauma within the fabric of human experience. It introduces the role of social media and digital testimonies in bringing about social change for historically marginalized women. Covering topics such as affective labor, intersectionality, and social justice, this book is an excellent resource for non-governmental organizational leaders, activists, federal agents, state agents, sociologists, social workers, professionals, researchers, scholars, academicians, and more.

The text also considers what is necessary for effective digital empowerment, highlighting how existing personal resources can be utilised, in conjunction with technologies, to build capacity, enhance community networks, and preserve cultural connections. By adopting a strengths-based perspective, the writers highlight how challenges can be transformed into opportunities. Through conceptual understandings, grounded examples, and case studies, each chapter offers clear and actionable takeaways for policy, practice, and research. refugee stories ebook: Supporting Young Children of Immigrants and Refugees Maura Sellars,

Scott Imig, Doug Imig, 2024-04-16 This text offers a comprehensive portfolio of approaches to support young children with refugee backgrounds. It covers trauma-informed pedagogies, transitioning to school, authentic inclusion, play, social and emotional learning, and intergenerational trauma. In early childhood centres around the world, teachers and directors can be uncertain of how to meet the needs of newly arrived children. Based on empirical research in five countries, this book offers insights from early childhood educators who are working hard to support families and young children with refugee and asylum-seeker experiences. It illustrates the link between theory and practice and the importance of developing culturally sensitive classroom strategies to effectively support the emotional and cognitive needs of multilingual, multicultural students whose common experiences may only include displacement, trauma, and loss. Rather than offering a measure for 'success,' this book shares the knowledge and experience of practitioners who understand the work and the very particular circumstances of these children's lives. The authors bring these perspectives together in order to inspire other professionals who face this challenging work, encouraging the reader to reflect, to consider how relevant some of the ideas may be in their own contexts, and to contemplate the principles which allow their professional actions to make a difference. This book is an essential resource for early childhood educators and leaders who want to 'open the door' to genuinely inclusive, empathetic, and supportive practice. It will be of great interest to researchers and postgraduate students in the fields of early childhood and primary education.

refugee stories ebook: *Digital Journalism, Drones, and Automation* Cate Dowd, 2020 The lure of big data and analytics has produced new partnerships between news media and social media and consequently a fragmentation of digital journalism. The era is coupled with the rise in fake news and controversial data sharing. However, creative mobile reporting and civilian drones set new standards for journalist during the European asylum seeker crisis. Yet the focus on data and remote cloud servers continues to dominate online news and journalism, alongside new semantic models for data personalization. News tags that define concepts within a news story to assist search, are now monetized abstractions in accelerated data processing that enables automation and feeds advertising. Can journalism compete with this by defining its own concepts with ethical values named and embedded in algorithms? Can machines make sense of the world in the same way as a traditional journalist? In this book, Cate Dowd analyzes the tasks and ethics of journalists and questions how intelligent machines could simulate ethical human behaviors to better understand the dizzy post-human world of online data. Looking to digital journalism and multi-platform news media, from studios and integrated media systems to mobile reporting in the field, Dowd assesses how data and digital technology has impacted on journalism over the past decade. Dowd's research is informed by in-depth participation with investigative journalists, including images drawn and annotated by industry experts to present key journalism concepts, priorities, and values. Chapters

explore approaches for the elicitation of vocabulary for journalism and design methods to embed values and ethics into algorithms for the era of automation and big data. *Digital Journalism, Drones, and Automation* provides insights into the lasting values of journalism processes and equips readers interested in entering or understanding online data and news media with much needed context and wisdom.

refugee stories ebook: *The Use and Abuse of Stories* Hanna Meretoja, Mark Freeman, 2023 We live in a world that is increasingly defined by a contest of incommensurable narratives. This situation has emerged over a period of time shaped by the rise of populism, the increasing polarization of societies, what has been dubbed as post-truth politics, and most recently Russia's war in Ukraine. The internet is replete with narratives that contest basic facts about climate change, the Covid-19 pandemic, and the atrocities that Russia is currently committing in Ukraine--

refugee stories ebook: Handbook of Research on Promoting Social Justice for Immigrants and Refugees Through Active Citizenship and Intercultural Education Barreto, Isabel María Gómez, 2021-06-11 Migration movements have been a constant in the societies of the past, as well as in postmodern society. However, in the past ten years, the increase in political, economic, and religious conflict amongst nations; the increase of the poverty index; and many and various natural disasters have duplicated the forced displacement of millions of people across the seven continents of the planet. This situation brings important challenges in terms of the vulnerability, inequity, and discrimination that certain peoples suffer. Professionals from the fields of the social sciences, education, psychology, and international law share the fact that education represents an opportunity for children and young migrants to become members with full rights in the societies they arrive in. Empirical studies show that the implementation of the right to education for migrants presents some challenges and dilemmas to the governments of host countries and more specifically to the education centers, NGOs, universities, and the professionals working in them, hence the need for more research on these issues of immigration, refugees, social justice, and intercultural education. The *Handbook of Research on Promoting Social Justice for Immigrants and Refugees Through Active Citizenship and Intercultural Education* provides visibility to issues such as the increase in migration and displacement and the difficulties in political agreements, educational contexts, and in cultural issues, stigmatization, vulnerability, social exclusion, racism, and hatred amongst host communities. This book gives possible solutions to this current complex situation and helps foster and promote sensitivity, perspective, and critical thinking for a respectful and tolerant coexistence and promotion of equity and social justice. The chapters promote cultural diversity and inclusion in classrooms by offering knowledge, strategies, and research on organizational development for educational institutions and multicultural environments. This book is essential for administrators, policymakers, leaders, teachers, practitioners, researchers, academicians, and students interested in the

promotion of social justice in education for immigrants and refugees.

refugee stories ebook: Vietnamese Migrants in Australia and the Global Digital Diaspora Anh Nguyen Austen, 2022-09-16 Through oral histories, memoirs, and Facebook posts of Vietnamese adults who entered Australia as children after the Vietnam War (and Vietnamese refugees, war orphans, and children of refugees) this book provides insight into the memories of forced migrant childhoods and histories, as well as the complexities of national and transnational identity and belonging in digital diaspora. As war and displacement compounds the need for creating communities and histories for cultural continuity, this book is a history about childhood and migration for the Vietnamese diaspora of refugees, adoptees, and second generation in Australia and their connectedness to a global and digital diaspora. Using Facebook as a digital archive for historical research, Vietnamese Migrants in Australia and the Global Digital Diaspora presents new methods for the study of what Nguyen Austen proposes as a new area of digital diaspora studies for interdisciplinary research about real and digital life in the humanities and social sciences. As a contemporary digital diaspora study of Vietnamese forced child migrants from 1975 to the present, this book contains a mixed-methods historical analysis of the impact of war and displacement on memories of childhood. This book presents an innovative history of the national, transnational, digital, and contemporaneous lives of Vietnamese child migrants, which will make a significant contribution to the discourse on transnational childhood, migration, and belonging for refugees and migrants in the twenty-first century.

refugee stories ebook: Vulnerable People and Digital Inclusion Panayiota Tsatsou, 2022-08-30 This edited collection explores the role of digital inclusion in the welfare and social inclusion of vulnerable people. With interdisciplinary contributors from six continents, working in diverse fields such as digital media studies, social computing, community informatics and cultural studies, the collection brings together theoretical and applied research evidence on three vulnerable population categories: ethnic minorities, older people and people with disabilities. Each section is accompanied by a critical commentary on the research insights presented, from third sector community and policy experts. The collection explores whether vulnerable populations face similar experiences and challenges in relation to their digital inclusion status, stressing the central presence of intersectionality, and arguing for the inclusion of the age, ethnicity/immigration status and disability aspects of one's identity. At the same time, it argues for multi-directional action that tackles intersectional discrimination in the digital realm on behalf of more than one single population category or group. Challenging popular discourse on the overcoming of digital inequalities in the West, this essential book contends that accounts of non-western contexts do not focus on the parameter of vulnerability or on particular population groups. Chapter 'Enhancing Older Adults' Digital Inclusion Through Social Support: A Qualitative Interview Study.' is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

refugee stories ebook: *The Routledge Handbook of Translation and Migration* Brigid Maher, Loredana Polezzi, Rita Wilson, 2024-09-06 *The Routledge Handbook of Translation and Migration* explores the practices and attitudes surrounding migration and translation, aiming to redefine these two terms in light of their intersections and connections. The volume adopts an interdisciplinary and transnational perspective, highlighting the broad scope of migration and translation as not only linguistic and geographical phenomena, but also cultural, social, artistic, and psychological processes. The nexus between migration and translation, the central concern of this Handbook, challenges limited conceptualisations of identity and belonging, thereby also exposing the limitations of monolingual, monocultural models of nationhood. Through a diverse range of approaches and methodologies, individual chapters investigate specific historical circumstances and illustrate the need for an intersectional approach to questions of language access and language mediation. With its range of approaches and case studies, the volume highlights the inherently political nature of translation and its potential to shape social and cultural inclusion, emphasising the crucial role of language and translation in informing professional practices, institutional policies, educational approaches and community attitudes towards migration. By bringing together perspectives from both researchers and creative practitioners, this book makes an innovative contribution to ongoing global discussions on linguistic hospitality and diversity, ideal for those pursuing postgraduate and doctoral studies in translation studies, linguistics, international studies and cultural studies.

refugee stories ebook: *The Routledge Handbook of Refugee Narratives* Evyn Lê Espiritu Gandhi, Vinh Nguyen, 2023-02-17 This Handbook presents a transnational and interdisciplinary study of refugee narratives, broadly defined.
